Failure to provide required information on page 2 of this application or as required in the separate instructions to this application will result in a denial of the Tax Clearance request.

DECLARATION STATEMENT OF APPLICANTS FOR GRANTS PURSUANT TO CHAPTER 42F, HAWAI'I REVISED STATUTES

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawai'i Revised Statutes:
 - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
 - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
 - c) Agrees not to use state funds for entertainment or lobbying activities; and
 - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawai'i Revised Statutes:
 - a) Is incorporated under the laws of the State; and
 - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided; and
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawai'i Revised Statutes:
 - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
 - b) Has a governing board whose members have no material conflict of interest and serve without compensation.
- 4) The use of grant-in-aid funding complies with all provisions of the Constitution of the State of Hawaii (for example, pursuant to Article X, section 1, of the Constitution, the State cannot provide "... public funds ... for the support or benefit of any sectarian or nonsectarian private educational institution...").

Pursuant to Section 42F-103, Hawai'i Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.

Application for Grants

If any item is not applicable to the request, the applicant should enter "not applicable".

I. Certification – Please attach immediately after cover page

1. Hawaii Compliance Express Certificate (If the Applicant is an Organization)

If the applicant is an organization, the applicant shall submit one (1) copy of a Hawaii Compliance Express Certificate from the Comptroller of the Department of Accounting and General Services that is dated no earlier than December 1, 2023.

2. Declaration Statement

The applicant shall submit a declaration statement affirming its compliance with <u>Section</u> <u>42F-103</u>, <u>Hawaii Revised Statutes</u>.

3. Public Purpose

Poi Dogs & Popoki certifies that grant funds shall be used for the public purpose of reducing euthanasia of dogs and cats due to pet overpopulation in native Hawaiian communities.

II. Background and Summary

1. A brief description of the applicant's background

Poi Dogs & Popoki (PDP) was organized in 2009 with a mission to improve the quality of life of pets and their people with a focus on efforts to reduce euthanasia of healthy, adoptable animals. Starting with the premise that the best way to end euthanasia is to stop animals from entering a shelter in the first place, PDP provides support to pet owners, caregivers and other loosely formed individuals and groups caring for lost, stray, abandoned, abused, and neglected animals. We encourage people to keep the animals they own and care for the animals that they rescue by reducing the burden that often results in surrender and ultimately euthanasia of healthy animals – all at taxpayer cost. Through affordable spay and neuter services, veterinary care including prevention and wellness, PDP reaches out to the animal loving public who share our commitment to saving lives.

2. The goals and objectives related to the request.

Our goal is to reduce the number of unsterilized pets owned by native Hawaiians by providing spay/neuter services, reducing unintended pregnancies, and finding homes for adoptable dogs and cats that families are no longer able to care for. Objective 1: Coordinate outreach to 350 pets of native Hawaiian families through coordination with the State Council of Hawaiian Homestead Associations (SCHHA) and other Hawaiian organizations, and provide subsidized spay and neuter services as well as supportive veterinary care to their pets.

Objective 2: Sterilize, microchip, flea treat and vaccinate 100 dogs and 250 cats owned by Native Hawaiians. Provide free microchip identification (which is now state law) to 150 additional families whose pets are already sterilized.

Objective 3: Disseminate 10 microchip scanners to SCHAA community associations to identify stray or loose pets of homestead families and help return those pets home.

Without access to affordable spay and neuter services, pets of native Hawaiians will continue to breed which is an economic hardship on many families. This program provides pet owners with an opportunity to reduce the problems associated with the growing pet population in their community and alleviate the financial burden that comes with multiple pet ownership.

3. The public purpose and need to be served.

In 1926, Congress passed the Hawaiian Homes Commission Act to dedicate land in Hawaii for native Hawaiians who were being displaced from their homes due to colonization. Native Hawaiians with a blood quantum of 50 percent (or 50 percent Hawaiian) would qualify for a 1/2 or 1 acre land lease and single family home. On the island of Oahu, there are 10 Hawaiian Homestead Associations located in primarily rural areas.

In 2010 and 2011, Poi Dogs & Popoki (PDP) canvassed Hawaiian Homestead communities in Nananakuli, Papakolea, and Waimanalo - visiting homes, identifying pet owners, microchipping pets onsite, providing flea treatment, and offering subsidized spay and neuter services at our monthly clinic. After visiting 600 homes, we gathered the following data: 78 percent of lessees were pet owners. Almost all of those were multiple pet owners - both dog and cat. The overwhelming dog of choice - more than 90 percent, was the pitbull mix. Cats were allowed to roam and reproduce frequently. Most pets were unsterilized, lacked identification, and had not had recent veterinary care.

These rural areas also represent the greatest proportion of animal welfare responses by the City's animal control contractor. More than 60 percent of the calls to the contractor come from West Oahu - an area of the island with also the greatest proportion of native Hawaiians living in the entire state. The animal control contractor currently euthanizes more than 70 percent of animals taken in. Cats and pitbulls are the most euthanized of all animals.

PDP will provide affordable and subsidized spay and neuter and wellness services for native Hawaiian pet owners. All animals will receive a free microchip identification, vaccination, flea treatment and deworming. In addition, each homestead association will receive a microchip scanner to better track the owned animals in their community which often go stray. This is an important part of PDPs plan to reduce euthanasia by enabling communities to return lost pets to their owners in the neighborhoods where they live.

4. Describe the target population to be served.

Culturally – our native Hawaiian communities tend to be less akamai about the importance of sterilizing their pets. Sterilization to reduce unintended litters is not readily known or understood or supported. Due to economic challenges faced by most native Hawaiians, the cost of sterilization (est. \$300 to \$500 per pet) and other veterinary care needs are not within reach of many native Hawaiians. PDPs outreach to homestead communities and the poor state of the health of the animals justify a more targeted approach to helping the families in these communities.

And because native Hawaiians have such a strong cultural connection to the family, other family members with pets are likely to learn and understand the benefits of spay and neuter. So the long term opportunities to educate this target audience and reduce pet overpopulation is much greater than other groups with fewer ties to their community and island.

Finally, according to reports from the island's animal control contractor, 60 percent of animal welfare calls for assistance come from west Oahu which has the largest proportion of native Hawaiians than anywhere else in the state.

5. Describe the geographic coverage.

Hawaiian homestead communities and native Hawaiians overall represent a greater proportion of Hawaii's socioeconomically disadvantaged. With more than 125,000 people identifying themselves as native Hawaiian living on the island of Oahu, more than 42,000 are on the wait list for Hawaiian Homelands. Currently, almost 4,300 Hawaiian lessees and their families live on homestead in primarily rural communities of Waianae and Waimanalo. With 1/2 and 1 acre parcels of land to house three and four generations of native Hawaiian families (a culturally appropriate tradition of caring for aging family), these are some of the most pet-friendly areas of the island of Oahu. Although native Hawaiians must prove their ancestry and demonstrate at least 50 percent blood quantum, they must also qualify for the mortgage to own their own home. Only the land is leased at \$1 per year for 99 years. Land is the most expensive part of owning a home in Hawaii so homestead leases are considerably more affordable than traditional fee simple homes across the island. Homestead communities targeted by this project include Kalawahine, Kanehili, Kapolei, Kaupea, Kaupuni, Kewalo, Kumuhau, Lualualei, Malu'ohai, Nanakuli, Papakolea, Princess Kahanu Estates, Waiahole, Waianae, and Waimanalo.

III. Service Summary and Outcomes

1. Describe the scope of work, tasks and responsibilities.

PDP will work with the local boards of the SCHHA to roll out the program to provide services to their residents. PDP will provide use the opportunity for subsidized wellness services to schedule pets for spay/neuter appointments. PDP will produce a flyer and work with community providers and area leaders including neighborhood board members to communicate availability of the program to pet owners within the homestead community.

PDP will work with Hawaii Pets Veterinary Clinic to schedule spay/neuter and wellness appointments for the target communities. PDP will provide subsidize spay/neuter, microchip ID, vaccination (DAPP or FVRCP) for both cats and dogs, flea treatment and deworming, and health screenings when necessary for sick or older pets.

Native Hawaiians will be required to complete an online form (Jotform) which can be completed on their cell phone. The form will include contact information as well as verification of native Hawaiian ancestry. Once approved for support services, the pet owner will be authorized to schedule both wellness and spay/neuter appointments. Follow up wellness services will not be provided until/unless the pet owner sterilizes their pet.

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service.

September 2024: Meet with native Hawaiian leaders, elected officials, community and business leaders, and social service agencies to identify homestead communities needing assistance. Select targeted areas for spay and neuter efforts.

Prepare policies and procedures and online forms required to provide subsidized services to native Hawaiians to ensure need as well as lineage. Review tracking protocols for reporting. Develop marketing and promotional flyers for dissemination through SCHHA leaders and posting in communities. Attend neighborhood board meetings for announcement of spay/neuter and veterinary care options.

October 2024: Secure wellness and spay/neuter appointments. Ensure appropriate supply of microchips, flea treatment, dewormer, and vaccines. Prepare detailed pet health record for each pet. Recruit volunteers to support outreach efforts.

Ongoing: Continue production of promotional materials and announcements for dissemination to native Hawaiian communities. Implement protocols for identifying subsidy for qualifying pet owners. Update microchip database for all spay and neuters – pets and rescues. Provide support to SCHHA leaders to establish a microchip data base of owned pets within their communities and the ability to return lost pets to their owners with a microchip scanner.

Milestones:

- a. Initial Meeting with SCHHA leaders and subsequent meetings with homestead association leaders.
- b. Scheduled wellness and spay/neuter appointments.
- c. Establishment of microchip data base for each community.
- 3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results.

PDP works with Hi Pets Vet Clinic which adheres to the highest standard of care and follows medical protocols established by the ASPCA and AVMA. Some of these include veterinarian licensing, drug dispensing, patient communications, staff training and competencies, patient monitoring, and surgical expertise. PDP also reports all microchip identification to 24 Pet Watch, a national microchip data base that provides the service for free to pet owners and ensures that lost pets find their way home more efficiently and cost effectively.

PDP is sincerely committed to evaluation of our programs which includes feedback from pet owners during post-op care follow up. PDP will also work with homestead associations to monitor and track efforts to return lost pets to their owners using their new microchip scanner and data base. Specifically – PDP will request associations to track utilization and requests for scanning of found pets and the successful return of pets to their owners.

- 4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.
 - Total number of homestead lessees served
 - Total number of dogs and cats sterilized
 - Total number and types of services provided

IV. Financial

Budget

- 1. The applicant shall submit a budget utilizing the enclosed budget forms as applicable, to detail the cost of the request.
 - a. Budget request by source of funds (Link)
 - b. Personnel salaries and wages (Link) not applicable
 - c. Equipment and motor vehicles (Link) not applicable
 - d. Capital project details (Link) not applicable
 - e. Government contracts, grants, and grants in aid (Link) not applicable

6. The applicant shall provide the balance of its unrestricted current assets as of December 31, 2023.

\$210,000

V. Experience and Capability

1. Necessary Skills and Experience

Poi Dogs & Popoki (PDP) volunteers have been rescuing animals on Oahu for over 30 years which includes professional animal welfare experience at the Hawaiian Humane Society, Oahu SPCA and many other nonprofit animal groups. Recognizing the weaknesses of a rescue/adoption model, PDP was founded to focus on helping people helping pets.

PDP currently works with other nonprofit animal welfare organizations including Aloha Animal Outreach which has direct access to native Hawaiians living on homestead lands and homeless camps. For the past 4 years, PDP has worked directly with Hi Pets Vet Clinic to provide spay/neuter and wellness services and establish health protocols to better care for rescued animals. Since 2012, PDP has managed a 5-acre sanctuary for over 500 free roaming unadoptable cats that are sterilized and microchipped, and which receive food, shelter and veterinary care. PDP has previously received state and city funding to provide low income, military and homeless families with access to affordable and subsidized spay/neuter and wellness services.

Appropriately, the PDP board is comprised of a cross-section of community and business leaders to provide strategic direction and consultation:

Sabrina Delarama, Windward Honda – management and financial support Greg Chan, Kapala IT – business and financial support Michelle Kidani, Hawaii State Legislature – policy and business support Celeste Kato, Hyatt – administrative and HR support Stacie Sasagawa, Bayer – fundraising support Alicia Maluafiti, Loihi Communications – administrative and management support

2. Facilities

Not applicable

VI. Personnel: Project Organization and Staffing

1. Proposed Staffing, Staff Qualifications, Supervision and Training

Implementation and administration of the grant including outreach to target populations will be completed primarily by volunteers. PDP will work with the veterinary staff of Hi Pets Vet Clinic to provide spay/neuter and wellness services. Hi Pets staff and volunteers will communicate and coordinate directly with native Hawaiian pet owners utilizing an online application process to identify and verify pet owners and their pets.

2. Organization Chart

3. Compensation

PDP has no full-time, paid staff. All volunteers serve uncompensated. All funding goes directly to the care of animals and services to low income pet owners.

VII. Other

1. Litigation

None

2. Licensure or Accreditation

None

3. Private Educational Institutions

None

4. Future Sustainability Plan

PDP will work directly with other native Hawaiian trusts, businesses and community groups to highlight the success and importance of providing native Hawaiians with access to affordable spay/neuter and wellness services for their pets. Specifically, PDP will seek support from the Office of Hawaiian Affairs, Dept. of Hawaiian Homelands, Native Hawaiian Chamber of Commerce, and other native Hawaiian trusts and donors.
