
A BILL FOR AN ACT

RELATING TO SCHOOL MEALS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that setting a target
2 goal of thirty per cent of food served in public schools to
3 consist of locally sourced products, as established pursuant to
4 Act 175, Session Laws of Hawaii 2021, is of great benefit for
5 the health of Hawaii's students. The legislature believes that
6 establishing a recognition program that incentivizes schools to
7 plan for and meet the farm to school meals goal will ensure that
8 the goal will be met by 2030.

9 The legislature further finds that the average meat and
10 dairy products served in schools are highly processed and
11 treated with antibiotics and growth hormones, which can impact
12 health outcomes. Additionally, the agricultural industry,
13 including produce, animals, and grain, generates approximately
14 one fourth of all greenhouse gas emissions.

15 The legislature additionally finds that a plant-based diet
16 has been shown to reduce the chance of developing diabetes,
17 cardiovascular disease, and cancers, among other things.

1 Offering a variety of diets, including plant-based meals, can
2 also greatly increase demand for local greens and promote local
3 farming jobs and agriculture. Providing plant-based meals to
4 students can promote not only a healthy lifestyle for the
5 State's youth but encourage students to make environmentally
6 conscious personal decisions.

7 The purpose of this Act is to:

- 8 (1) Authorize the department of education to establish a
9 recognition program to incentivize schools to submit
10 to the department a plan for the school to reach the
11 local farm to school meal goal of thirty per cent of
12 food served in the school to consist of locally
13 sourced products by 2030; and
- 14 (2) Require the department of education to establish a
15 plant-based meal pilot program at Mililani high school
16 to provide a plant-based meal as an option under the
17 school meals program.

18 SECTION 2. Chapter 302A, Hawaii Revised Statutes, is
19 amended by adding a new section to part II, subpart C, to be
20 appropriately designated and to read as follows:

1 "§302A- Farm to school meals; recognition program. (a)

2 The department may establish a recognition program to
3 incentivize individual department schools to submit to the
4 department a plan for the school to reach the local farm to
5 school meal goal of thirty per cent of food served in the school
6 to consist of locally sourced products by 2030, established
7 pursuant to section 302A-405.6.

8 (b) The department shall establish guidelines for the
9 rewards recognition program, including what incentives to offer
10 and awards to grant to schools who commit to and reach the local
11 farm to school meal goals."

12 SECTION 3. (a) No later than the 2025-2026 school year,
13 the department of education shall establish a plant-based meal
14 pilot program at Mililani high school to provide a plant-based
15 meal as an option under the school meals program.

16 (b) As part of the pilot program, the department of
17 education shall establish a day within the school week at
18 Mililani high school to provide plant-based options for school
19 meals.

20 (c) The department of education shall submit an interim
21 report on the progress of the plant-based meal pilot program

1 established pursuant to this section to the legislature no later
2 than twenty days prior to the convening of the regular session
3 of 2026.

4 (d) The department of education shall submit a final
5 report on the plant-based meal pilot program established
6 pursuant to this section, including any findings,
7 recommendations, and proposed legislation, to the legislature no
8 later than twenty days prior to the convening of the regular
9 session of 2027.

10 (e) The plant-based meal pilot program shall cease to
11 exist on June 30, 2026.

12 (f) For the purposes of this section, "plant-based meal"
13 means a meal consisting of all minimally processed fruits,
14 vegetables, whole grains, legumes, nuts and seeds, herbs, and
15 spices and excludes all animal products, including red meat,
16 poultry, fish, eggs, and dairy products.

17 SECTION 4. New statutory material is underscored.

18 SECTION 5. This Act shall take effect on July 1, 3000.

Report Title:

Department of Education; Farm to School Meals; Recognition Program; Department Schools; School Meals; Plant-based Option; Mililani High School Pilot Program

Description:

Authorizes the Department of Education to establish a recognition program to incentivize schools to submit to the Department a plan for the school to reach the local farm to school meal goal of thirty per cent of food served in the school to consist of locally sourced products by 2030. Requires the Department of Education to establish a plant-based meal pilot program at Mililani high school no later than the 2025-2026 school year. Effective 7/1/3000. (HD2)
