
A BILL FOR AN ACT

RELATING TO AQUACULTURE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the practice of
2 octopus farming has raised ethical concerns due to the advanced
3 cognitive abilities exhibited by these animals. The legislature
4 also finds that octopus farming practices and conditions,
5 including inadequate living conditions and confinement, may
6 subject octopuses to stress, compromise their well-being, and
7 lead to adverse behavioral changes. The absence of guidelines
8 in octopus farming poses risks of exploitation and potential
9 harm to the welfare of these intelligent marine creatures.

10 Accordingly, the purpose of this Act is to prohibit the
11 farming of certain non-wild caught octopuses for human
12 consumption.

13 SECTION 2. Chapter 141, Hawaii Revised Statutes, is
14 amended by adding a new section to part IV to be appropriately
15 designated and to read as follows:

16 "§141- Octopus aquaculture; prohibited. (a) No person
17 shall engage in any aquaculture activities in the State that

1 include the propagation, cultivation, maintenance, and
2 harvesting of any species of octopus for the purpose of human
3 consumption.

4 (b) As used in this section:

5 "Aquaculture activities" includes the use of land-based
6 recirculating aquaculture systems.

7 "Octopus" does not include wild caught octopuses or
8 octopuses propagated, cultivated, maintained, or harvested only
9 for research purposes."

10 SECTION 3. This Act does not affect rights and duties that
11 matured, penalties that were incurred, and proceedings that were
12 begun before its effective date.

13 SECTION 4. New statutory material is underscored.

14 SECTION 5. This Act shall take effect upon its approval.
