
A BILL FOR AN ACT

RELATING TO HEALTHCARE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that Hawaii's residents
2 deserve universal and equitable access to affordable,
3 high-quality healthcare. The Hawaii Prepaid Health Care Act,
4 enacted in 1974; state health insurance program, enacted in
5 1989; and the State's successful medquest program are examples
6 of Hawaii's tradition of innovation in healthcare system reform.
7 However, further reforms are needed to address current gaps in
8 residents' access to healthcare and health insurance. In 2024,
9 approximately eighty thousand Hawaii residents are uninsured.

10 The legislature recognizes that many of the State's
11 residents face numerous barriers to accessing healthcare and
12 health insurance. These include high insurance costs for
13 individuals and employers; confusing regulatory and
14 administrative requirements; clear disparities in health
15 outcomes and quality of care; and growing stresses on the
16 healthcare workforce. Addressing these barriers requires the
17 State to make a renewed commitment to guaranteeing universal

1 healthcare and health insurance coverage, streamlining
2 administrative costs, and modernizing Hawaii's health system.

3 The legislature also recognizes that the state health
4 planning and development agency was established to administer
5 state health planning and cost containment activities. The
6 agency is also the designated recipient of the data necessary to
7 understand healthcare costs, quality of care issues, community
8 health conditions, and healthcare disparities.

9 Accordingly, the purpose of this Act is to establish a task
10 force, known as Hui Hoomana, to identify actionable priorities
11 and financial resources to offer the State's residents universal
12 and equitable access to affordable, high-quality healthcare and
13 health insurance.

14 SECTION 2. (a) There is established the Hui Hoomana task
15 force, to be led by the state health planning and development
