
A BILL FOR AN ACT

RELATING TO MEDIA LITERACY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that education is the
2 bedrock of a healthy democracy. To advance the fundamental
3 democratic principles of equality, liberty, and justice for all,
4 a quality school system must deliver instruction that is
5 historically and scientifically accurate and free from
6 discrimination.

7 The legislature further finds that disinformation,
8 misinformation, digital discrimination, and online hate speech
9 are pervasive threats to modern society. In a June 2019 report
10 entitled, "Hate Speech on Social Media: Global Comparisons",
11 the Council on Foreign Relations noted that digital hate speech
12 has been linked to a global increase in violence toward
13 minorities and that policies used to curb hate speech are often
14 inconsistently enforced by social media companies.

15 Additionally, disinformation and online hate speech have been
16 linked to outbursts of violence in the real world, including
17 mass shootings at a church in Charleston, South Carolina, and a

1 synagogue in Pittsburgh, Pennsylvania, as well as the
2 insurrection that occurred at the United States Capitol on
3 January 6, 2020. Moreover, according to a Kaiser Family
4 Foundation coronavirus disease 2019 (COVID-19) vaccine monitor
5 report published in November 2021, more than seventy-eight per
6 cent of adults in the United States believed or were unsure
7 about at least one of eight false statements about the COVID-19
8 pandemic or COVID-19 vaccines.

9 The purpose of this Act is to advance informed digital
10 citizenship in Hawaii's public education system by empowering
11 school complexes to incorporate media literacy into standards-
12 based curriculum as appropriate, including content that prevents
13 the negative impacts of misinformation, disinformation, digital
14 discrimination, and online hate speech.

15 SECTION 2. Section 302A-321, Hawaii Revised Statutes, is
16 amended to read as follows:

17 "~~§302A-321~~ **Standards-based curriculum.** (a) When
18 developing a standards-based curriculum and implementing it in a
19 school or complex, at the minimum, the curriculum shall:

20 (1) Be specific in its standards-based scope and sequence
21 over a school year for each grade level and course;

- 1 (2) Be consistent in course content;
- 2 (3) Be aligned across all grade levels;
- 3 (4) Specifically address the state content and performance
- 4 standards and related benchmark maps; and
- 5 (5) Be implemented in all appropriate classrooms in the
- 6 school or complex.
- 7 (b) School complexes may choose to develop an articulated
- 8 and aligned K-12 standards-based curriculum in one or more of
- 9 the following core content areas:
- 10 (1) Language arts;
- 11 (2) Mathematics;
- 12 (3) Science; and
- 13 (4) Social studies.
- 14 (c) School complexes shall provide professional
- 15 development.
- 16 (d) School complexes that develop a standards-based
- 17 curriculum shall use standards-based formative assessment tools
- 18 to monitor student progress, not less than on a quarterly basis
- 19 throughout the school year.
- 20 (e) School complexes shall develop rigorous classroom-
- 21 based performance assessments.

1 (f) School complexes may implement software programs at
2 the school level to help to align school course material with
3 Hawaii content and performance and federal educational
4 standards.

5 (g) School complexes shall be authorized to incorporate
6 media literacy into standards-based curriculum as appropriate,
7 including content that prevents the negative impacts of
8 misinformation, disinformation, digital discrimination, and
9 online hate speech."

10 SECTION 3. Statutory material to be repealed is bracketed
11 and stricken. New statutory material is underscored.

12 SECTION 4. This Act shall take effect upon its approval.

13

INTRODUCED BY:

JAN 17 2023

H.B. NO. 79

Report Title:

Standard-based Curriculum; Digital Citizenship; Public Schools;
Media Literacy

Description:

Authorizes school complexes to incorporate media literacy in its standards-based curriculum, including content that prevents negative impacts of misinformation, disinformation, digital discrimination, and online hate speech.
