A BILL FOR AN ACT

RELATING TO DESIGNATED ECONOMIC DEVELOPMENT DISTRICT.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that being a U.S.  
2 Economic Development Administration-designated economic  
3 development district provides an opportunity to work  
4 comprehensively to achieve locally developed goals that leverage  
5 and build upon interrelated community assets, such as workforce,  
6 infrastructure, and housing. An economic development district  
7 develops a long-term established relationship with the U.S.  
8 Department of Commerce, Economic Development Administration that  
9 includes annual federal funding to support the development and  
10 implementation of the Hawaii comprehensive economic development  
11 strategy. A U.S. Economic Development Administration investment  
12 of federal funds is much more likely, on a per capita basis, to  
13 be located in an economic development district area than in an  
14 area that is not covered by an economic development district.

15           The legislature further finds that regional eligibility to  
16 be designated as an economic development district by the U.S.  
17 Economic Development Administration requires the region to have  
18 a U.S. Economic Development Administration-approved

H.B. NO. 998

1 comprehensive economic development strategy that contains a  
2 specific program for intra-district cooperation, self-help, and  
3 public investment, is approved by the affected state and the  
4 U.S. Economic Development Administration Assistant Secretary,  
5 obtains commitments from a majority of counties within the  
6 proposed district, and forms a district organization that meets  
7 the economic development district requirements. A district  
8 organization may be organized as a public organization  
9 established under state-enabling legislation for the creation of  
10 a multi-jurisdictional area-wide planning organization.

11 To ensure that Hawaii is eligible for the substantial  
12 benefits of a U.S. Economic Development Administration-  
13 designated economic development district, the purposes of this  
14 Act are to:

- 15 (1) Establish the Hawaii economic development district  
16 planning organization and governing board that meet  
17 the requirements of the U.S. Economic Development  
18 Administration, as provided in Title 13 Code of  
19 Federal Regulations Section 304.2, by being broadly  
20 representative of the principal economic interests of  
21 the region, including private sector, public  
22 officials, community leaders, representatives of
