# A BILL FOR AN ACT

RELATING TO OFFENSIVE CYBERSECURITY.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. Section 27-41.1, Hawaii Revised Statutes, is  
2 amended by adding a new definition to be appropriately inserted  
3 and to read as follows:

4           "Office" means the office of enterprise technology  
5 services established pursuant to section 27-43."

6           SECTION 2. Section 27-43.5, Hawaii Revised Statutes, is  
7 amended to read as follows:

8           "[+]§27-43.5[+] Additional duties of the chief information  
9 officer relating to security of government information[-];  
10 offensive cybersecurity program; establishment; reporting. (a)

11 The chief information officer shall provide for periodic  
12 security audits of all executive branch departments and agencies  
13 regarding the protection of government information and data  
14 communication infrastructure.

15           (b) Security audits may include on-site audits as well as  
16 reviews of all written security procedures and documented  
17 practices. The chief information officer may contract with a

1 private firm or firms that specialize in conducting security  
2 audits; provided that information protected from disclosure by  
3 federal or state law, including confidential tax information,  
4 shall not be disclosed. All executive branch departments,  
5 agencies, boards, or commissions subject to the security audits  
6 authorized by this section shall fully cooperate with the entity  
7 designated to perform the audit. The chief information officer  
8 may direct specific remedial actions to mitigate findings of  
9 insufficient administrative, technical, and physical controls  
10 necessary to protect state government information or data  
11 communication infrastructure.

12 (c) There is established within the office an offensive  
13 cybersecurity program, which shall:

- 14 (1) Analyze cybersecurity threats;  
15 (2) Evaluate and provide intelligence regarding  
16 cybersecurity;  
17 (3) Promote cybersecurity awareness, including awareness  
18 of social engineering threats;  
19 (4) Conduct penetration testing among state and county  
20 agencies to evaluate the security of state and county  
21 information technology systems;

1       (5) Conduct agent-based security and ensure that assets  
2       are being inventoried and managed according to best  
3       practices;

4       (6) Use the common vulnerability scoring system to  
5       evaluate the severity of vulnerabilities in  
6       information technology systems across state and county  
7       agencies and prioritize remediation; and

8       (7) Take other proactive measures to ensure increased  
9       cybersecurity for agencies.

10       (d) State and county agencies shall disclose to the office  
11 an identified or suspected cybersecurity incident that affects  
12 the confidentiality, integrity, or availability of information  
13 systems, data, or services. Disclosure shall be made  
14 expediently and without unreasonable delay. Cybersecurity  
15 incidents required to be reported include suspected breaches;  
16 malware incidents that cause significant damage; denial of  
17 service attacks that affect the availability of services;  
18 demands for ransom related to a cybersecurity incident or  
19 unauthorized disclosure of digital records; instances of  
20 identity theft or identity fraud occurring on an agency's  
21 information technology system; incidents that require response

1 and remediation efforts that will cost more than \$10,000 in  
2 equipment, software, and labor; and other incidents the agency  
3 deems worthy of communication to the office; provided that:

4 (1) Until a cybersecurity incident is resolved, an agency  
5 shall continue to disclose details regarding a  
6 cybersecurity incident to the office, including:

7 (A) The number of potentially exposed records;

8 (B) The type of records potentially exposed,

9 including health insurance information, medical

10 information, criminal justice information,

11 regulated information, financial information, and

12 personal information;

13 (C) Efforts the agency is undertaking to mitigate and

14 remediate the damage of the incident to the

15 agency and other affected agencies; and

16 (D) The expected impact of the incident, including:

17 (i) The disruption of the agency's services;

18 (ii) The effect on customers and employees that

19 experienced data or service losses; and

20 (iii) Other concerns that could potentially

21 disrupt or degrade the confidentiality,

1 integrity, or availability of information  
2 systems, data, or services that may affect  
3 the State or a county; and

4 (2) The legislative and judicial branches may disclose to  
5 the office cybersecurity incidents that affect the  
6 confidentiality, integrity, or availability of  
7 information systems, data, or services.

8 (e) The office shall adopt rules pursuant to chapter 91  
9 regarding the procedures and form in which an agency shall  
10 disclose cybersecurity incidents to the office.

11 (f) The office, to the extent possible, shall provide  
12 consultation services and other resources to assist agencies and  
13 the legislative and judicial branches in responding to and  
14 remediating cybersecurity incidents.

15 (g) No later than twenty days prior to the convening of  
16 each regular session, the chief information officer shall submit  
17 a report to the legislature that includes:

18 (1) All disclosed cybersecurity incidents required  
19 pursuant to this section;

20 (2) The status of those cybersecurity incidents; and

1        (3) Any response or remediation to mitigate the  
2                    cybersecurity incidents.

3        The office shall ensure that all reports of disclosed  
4 cybersecurity incidents are communicated in a manner that  
5 protects victims of cybersecurity incidents, prevents  
6 unauthorized disclosure of cybersecurity plans and strategies,  
7 and adheres to federal and state laws regarding protection of  
8 cybersecurity information.

9        ~~[(e)]~~ (h) This section shall not infringe upon  
10 responsibilities assigned to the comptroller or the auditor by  
11 any state or federal law."

12        SECTION 3. (a) No later than January 1, 2026, the office  
13 of enterprise technology services shall:

14        (1) Complete an initial round of penetration testing on  
15                    the information technology systems of each agency;

16        (2) Assess vulnerabilities within those systems using the  
17                    common vulnerability scoring system; and

18        (3) Work with agencies to identify and address any  
19                    vulnerability threats identified having a benchmark  
20                    score exceeding 3.9 on the common vulnerability  
21                    scoring system.

1 (b) No later than twenty days prior to the convening of  
2 the regular session of 2026, the office of enterprise technology  
3 services shall submit a report to the legislature describing the  
4 office's progress in meeting the requirements of this section.

5 SECTION 4. There is appropriated out of the general  
6 revenues of the State of Hawaii the sum of \$ or so  
7 much thereof as may be necessary for fiscal year 2023-2024 and  
8 the sum of \$ or so much thereof as may be necessary  
9 for fiscal year 2024-2025 for the software, services,  
10 and full-time equivalent ( FTE) permanent positions  
11 necessary to establish an offensive cybersecurity program.

12 The sums appropriated shall be expended by the office of  
13 enterprise technology services for the purposes of this Act.

14 SECTION 5. Statutory material to be repealed is bracketed  
15 and stricken. New statutory material is underscored.

16 SECTION 6. This Act shall take effect on January 1, 2050.

17

**Report Title:**

Offensive Cybersecurity Program; Office of Enterprise Technology Services; Report; Positions; Appropriation

**Description:**

Establishes an offensive cybersecurity program within the Office of Enterprise Technology Services to analyze and evaluate cybersecurity threats and increase cybersecurity awareness and education. Establishes a goal for all state and county agencies to identify and address vulnerabilities having a benchmark score exceeding 3.9 on the Common Vulnerability Scoring System by January 1, 2026. Makes appropriations and authorizes the establishment of positions. Effective 1/1/2050. (SD1)
