A BILL FOR AN ACT

RELATING TO THE DEPARTMENT OF EDUCATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that career and technical 2 education utilizes a wide range of activities and equipment to 3 provide students with industry-based skills and makes academic 4 content accessible to students in a hands-on context. Examples 5 of career and technical education equipment include anatomy tables, flight simulators, and welding simulators. These types 6 7 of equipment allow for student learning simulations that can be 8 too expensive or not pragmatic for students to perform in a 9 regular classroom setting. While students are encouraged to 10 explore career options and acquire the technical skills and 11 knowledge to work towards industry-recognized certifications and 12 high-demand careers, lack of access to these types of equipment 13 are severely limiting students in the degree to which they can 14 acquire these technical skills and knowledge, requiring them to 15 wait to gain those skills upon employment or in other secondary 16 licensure programs after high school.

1 In the department of education's State of Hawaii Public 2 Education 2023-2029 Strategic Plan, one of the stated goals is 3 that all students graduate high school prepared for college, 4 career success, and community and civic engagement. One avenue 5 to achieve this goal is through expanding work-based learning 6 experiences that are often offered through career and technical 7 education. As educational teaching tools have become more 8 advanced, they have also become increasingly expensive to 9 procure, with long lead times for delivery.

10 Despite the advantages and opportunities that these pieces 11 of equipment can provide, the process to procure them can be 12 lengthy, complicated, and can deter schools from purchasing 13 them. Books and maps are exempted from the Hawaii public 14 procurement code as it is not advantageous to the State to 15 procure these materials by competitive means. In a similar 16 manner, career and technical education equipment should be 17 exempt, as procurement by competitive means is adversely 18 affecting the opportunities for students to acquire technical 19 skills and knowledge.

20 The purpose of this Act is to exempt from the Hawaii public
21 procurement code educational materials and related training for
