A BILL FOR AN ACT

RELATING TO ELECTIONS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that although artificial 2 intelligence (AI) technology can greatly benefit certain aspects of society, it can also have dangerous consequences if applied 3 maliciously. For example, the use of deepfakes or generative AI 4 5 in elections can be a powerful tool used to spread 6 disinformation and misinformation, which can increase political 7 tensions and result in electoral-related conflict and violence. Several states, including Michigan, Minnesota, and Washington, 8 9 have enacted legislation governing the use of AI elections. The 10 legislature believes that regulating the use of deepfake and 11 generative AI technologies to influence elections is necessary 12 to protect the democratic process in the State. Accordingly, the purpose of this Act is to: 13 14 Prohibit a person from distributing, or entering into (1) 15 an agreement with another person to distribute, 16 materially deceptive media unless the media contains a 17 disclaimer;
