# A BILL FOR AN ACT

RELATING TO CANCER.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that the university of  
2 Hawaii cancer center is one of seventy-one National Cancer  
3 Institute-designated cancer centers in the United States. It is  
4 the only center in Hawaii and the Pacific region. The  
5 legislature also finds that the university of Hawaii cancer  
6 center reduces the burden of cancer through research, education,  
7 patient care, and community outreach, with an emphasis on the  
8 unique ethnic, cultural, and environmental characteristics of  
9 Hawaii and the Pacific region.

10           Cancer incidence and mortality rates have decreased in  
11 Hawaii over the last decade, but despite this overall reduction,  
12 the disparities between ethnic populations continue to be of  
13 concern. Native Hawaiians continue to have the highest cancer  
14 incidence and mortality rates among men and women, including  
15 higher incidences of breast and ovarian cancers. Similarly,  
16 Filipino women have the highest incidences of ovarian and  
17 thyroid cancer. The legislature finds that cancer research

1 focusing on Native Hawaiians, Pacific Islanders, and Filipinos  
2 is a matter of statewide concern and is unique to Hawaii and the  
3 university of Hawaii cancer center and thus cannot be easily  
4 conducted anywhere else in the world.

5 The purpose of this Act is to appropriate funds to the  
6 university of Hawaii cancer center for a multiethnic cohort  
7 study focusing on the social determinants of health, lifestyles,  
8 environmental exposures, and resilience factors of Native  
9 Hawaiians, Pacific Islanders, and Filipinos; provided that the  
10 university of Hawaii obtains, at a minimum, matching federal  
11 funds to conduct the study.

12 SECTION 2. There is appropriated out of the general  
13 revenues of the State of Hawaii the sum of \$ or so  
14 much thereof as may be necessary for fiscal year 2024-2025 for  
15 the university of Hawaii cancer center to conduct a multiethnic  
16 cohort study focusing on the social determinants of health,  
17 lifestyles, environmental exposures, and resilience factors of  
18 Native Hawaiians, Pacific Islanders, and Filipinos; provided  
19 that no funds shall be made available under this Act unless the  
20 university of Hawaii obtains, at a minimum, matching federal  
21 funds to conduct the study.

1           The sum appropriated shall be expended by the university of  
2 Hawaii for the purposes of this Act.

3           SECTION 3. In accordance with section 9 of article VII of  
4 the Hawaii State Constitution and sections 37-91 and 37-93,  
5 Hawaii Revised Statutes, the legislature has determined that the  
6 appropriations contained in H.B. No.           , will cause the state  
7 general fund expenditure ceiling for fiscal year 2024-2025 to be  
8 exceeded by \$           or           per cent. In addition, the  
9 appropriation contained in this Act will cause the general fund  
10 expenditure ceiling for fiscal year 2024-2025 to be further  
11 exceeded by \$           or           per cent. The combined total  
12 amount of general fund appropriations contained in only these  
13 two Acts will cause the state general fund expenditure ceiling  
14 for fiscal year 2024-2025 to be exceeded by  
15 \$           or           per cent. The reasons for exceeding the  
16 general fund expenditure ceiling are that:

- 17           (1) The appropriation made in this Act is necessary to  
18           serve the public interest; and
- 19           (2) The appropriation made in this Act meets the needs  
20           addressed by this Act.

21           SECTION 4. This Act shall take effect on July 1, 2024.

**Report Title:**

UH; Cancer Center; Multiethnic Cohort Study; Matching Funds;  
Expenditure Ceiling; Appropriation

**Description:**

Appropriates funds to the University of Hawaii Cancer Center to conduct a multiethnic cohort study focusing on the social determinants of health, lifestyles, environmental exposures, and resilience factors of Native Hawaiians, Pacific Islanders, and Filipinos; provided that the University of Hawaii shall obtain, at a minimum, matching federal funds to conduct the study. Declares that the general fund expenditure ceiling is exceeded. (SD1)
