# A BILL FOR AN ACT

RELATING TO AGRICULTURE.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1 PART I

2 SECTION 1. The legislature finds that reliable  
3 agricultural infrastructure that supports the State's land and  
4 water resources is the lifeline of Hawaii's agriculture  
5 industry. Increasing drought events, rain bombs, wildfires, and  
6 other crises have highlighted the need for the timely repair and  
7 maintenance of the State's agricultural infrastructure.  
8 Sufficient funding is necessary to maintain and improve the  
9 State's irrigation systems to ensure that Hawaii's crops receive  
10 a steady and dependable supply of water. Additionally, funding  
11 to develop the infrastructure of agricultural lands would  
12 provide not only access and other support for local producers to  
13 become financially viable, but also new and innovative  
14 opportunities to grow the agriculture industry in the State.

15 Accordingly, the purpose of this part is to appropriate  
16 funds for capital improvement projects for the agricultural  
17 infrastructure of the State.

1 SECTION 2. The director of finance is authorized to issue  
2 general obligation bonds in the sum of \$342,070,000 or so much

6 PART II

7 SECTION 4. In accordance with section 9 of article VII of

9 Hawaii Revised Statutes, the legislature has determined that the  
10 appropriations contained in Act 164, Regular Session of 2023,  
11 and this part will cause the state general fund expenditure  
12 ceiling for fiscal year 2024-2025 to be exceeded by  
13 \$ or per cent. This current declaration takes  
14 into account general fund appropriations authorized for fiscal  
15 year 2024-2025 in Act 164, Regular Session of 2023, and this  
16 part only. The reasons for exceeding the general fund  
17 expenditure ceiling are that:

- 18 (1) The appropriation made in this part is necessary to
