

STAND. COM. REP. NO. 1599-24

Honolulu, Hawaii

APR 02 , 2024

RE: S.B. No. 2476
H.D. 2

Honorable Scott K. Saiki
Speaker, House of Representatives
Thirty-Second State Legislature
Regular Session of 2024
State of Hawaii

Sir:

Your Committee on Consumer Protection & Commerce, to which was referred S.B. No. 2476, H.D. 1, entitled:

"A BILL FOR AN ACT RELATING TO DENTAL HYGIENISTS,"

begs leave to report as follows:

The purpose of this measure is to authorize licensed dental hygienists under the general supervision of a licensed dentist to perform preventive dental sealant screenings and apply preventive dental sealants in a school-based oral health program.

Your Committee received testimony in support of this measure from the Department of Health; Department of Education; University of Hawai'i System; Disability and Communication Access Board; Board of Dentistry; Hawai'i Oral Health Coalition; Hawaii Medical Service Association; AlohaCare; Hawai'i Children's Action Network Speaks!; Hawaii Dental Service; Hawaii Dental Association; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that dental hygienists are trained to identify when sealants may be appropriate and to apply sealants to teeth. However, under existing law, dental hygienists are only able to apply sealants when certain requirements are met: a child must be a patient of record with a dental provider and have a treatment plan from that provider before receiving a protective

2024-2722 SB2476 HD2 HSCR HMSO

sealant. These requirements create administrative barriers that hinder efficiency and effectiveness of school-based oral health programs.

Your Committee further finds that allowing dental hygienists to apply sealants at the time of screening in a school-based setting is an effective, cost-free solution that improves oral health outcomes. While dental hygienists perform these key prevention activities, supervising dentists can prioritize patients' advanced care needs. This measure promotes good oral health practices by increasing access to dental hygienist services, which will improve the sustainability, efficiency, and effectiveness of school-based oral health programs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2476, H.D. 2.

Respectfully submitted on
behalf of the members of the
Committee on Consumer
Protection & Commerce,

MARK M. NAKASHIMA, Chair
