

STAND. COM. REP. NO. **3564**

Honolulu, Hawaii

APR 03 2024

RE: S.C.R. No. 171

S.D. 1

Honorable Ronald D. Kouchi
President of the Senate
Thirty-Second State Legislature
Regular Session of 2024
State of Hawaii

Sir:

Your Committee on Energy, Economic Development, and Tourism,
to which was referred S.C.R. No. 171 entitled:

"SENATE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF
BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO PROPOSE
LEGISLATION THAT ESTABLISHES TAX CREDITS FOR FIRM RENEWABLE
ELECTRICITY GENERATION,"

begs leave to report as follows:

The purpose and intent of this measure is to request the
Department of Business, Economic Development, and Tourism to
propose legislation that establishes tax credits for firm
renewable electricity generation.

Your Committee received testimony in support of this measure
from Hawaiian Electric; International Brotherhood of Electrical
Workers Local Union 1260; Pacific Biodiesel Technologies, LLC; and
one individual.

Your Committee received comments on this measure from the
Hawaii State Energy Office.

Your Committee finds that the achievement of the State's one
hundred percent Renewable Portfolio Standard by 2045 is highly
reliant on firm renewable energy generation and the State must
continue to support utility-scale renewable energy projects that
benefit residents and ratepayers. Your Committee further finds

that the State must provide certainty and clarity for firm renewable generation projects to ensure their stability and long-term financial viability. This measure, through proposed legislation from the Department of Business, Economic Development, and Tourism, will provide firm renewable energy technologies the same opportunities, in the form of incentives, that are available for other renewable energy technologies to successfully progress the State towards a one hundred percent Renewable Portfolio Standard.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Business, Economic Development, and Tourism is requested to propose legislation that establishes incentives, rather than tax credits, for firm renewable electricity generation;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 171, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 171, S.D. 1.

Respectfully submitted on
behalf of the members of the
Committee on Energy, Economic
Development, and Tourism,

LYNN DECOITE, Chair
