P.O. BOX 119, HONOLULU, HAWAI'I 96810-0119 Ph: (808) 586-6000 | Fax: (808) 586-1922 ETS HAWAII GOV

December 4, 2023

The Honorable Ronald D. Kouchi President of the Senate and Members of the Senate Thirty-Second State Legislature State Capitol, Room 409 Honolulu, Hawai'i 96813 The Honorable Scott K. Saiki Speaker and Members of the House of Representatives Thirty-Second State Legislature State Capitol, Room 431 Honolulu, Hawai'i 96813

Aloha Senate President Kouchi, Speaker Saiki, and Members of the Legislature:

Pursuant to HRS section 27-43.6, which requires the Chief Information Officer to submit applicable independent verification and validation (IV&V) reports to the Legislature within ten days of receiving the report, please find attached the report the Office of Enterprise Technology Services received for the State of Hawai'i, Department of Transportation, Highways Division, Financial Management System Project.

In accordance with HRS section 93-16, this report may be viewed electronically at http://ets.hawaii.gov (see "Reports").

Sincerely,

Tom The

On behalf of

Douglas Murdock Chief Information Officer State of Hawai'i

I. Introduction and Summary

A. Introduction

Department of Transportation Highways (DOTH) manages the planning, construction, and maintenance of the State of Hawaii's approximate 2,675 lane miles of highway on Oahu, Kauai, Maui, Lanai, Molokai, and Hawaii. DOTH's mission is to provide a safe, efficient, and accessible highway system through the utilization of available resources in the maintenance, enhancement, and support of land transportation facilities. DOTH's primary function is to plan, design, and supervise the construction and maintenance of the State's highway system.

DOTH commissioned an ERP System Integrator (hereinafter referred to as "SI"), in March 2021 to provide an accounting system solution that would modernize certain State of Hawaii, Department of Transportation, Highways Division (DOTH) IT systems, associated systems, and business processes, including fully replacing DOTH's legacy Highways Financial Accounting System (HWYAC) and certain software components of DOTH Districts' AS400 systems.

The new DOTH Financial Management System (H4) will utilize SAP S/4HANA Cloud ERP and will cover DOTH Business Processes of Budget, General Ledger, Accounts Payable, Accounts Receivable, Lease Management, Fixed Assets, Procurement, Project & Grant, Federal Billing, Human Resources, Time and Labor, Payroll, Inventory Management, Plant Maintenance, Reporting, and Analytics.

DOTH also acquired a contract with IT Management Consulting Firm, Ohanasoft (hereinafter referred to as "IV&V"), to provide information technology independent verification and validation consulting services for the implementation of the DOTH Highways Financial Management System. The IV&V contractor's role is to provide an objective, neutral, third-party view of the implementation of the Highways Financial Management System with the intent of protecting the State's interests for success of the project. Throughout the system implementation, the IV&V team will perform ongoing project IV&V activities and will identify issues/deficiencies/risks with the System implementation project, provide feedback and recommendations for mitigation and improvement, and provide on-going reporting on project activities.

The observation, feedback, and recommendations provided by IV&V are IV&V's own opinions, and IV&V is not a decision-maker of any activities in the H4 project implementation. IV&V makes no assurance, guarantee, or other promises as to the success of H4 project and is not responsible and not liable for the outcome of the H4 Project.

B. Summary

Throughout the month of October 2023, the project's main focus remained on Functional Specification Documents (FSDs). The overall project progress significantly slowed down due to the departure of an additional consultant, totaling six consultants, who left the project within the past three months. The total number of FSD submissions has remained unchanged, and FSD meetings took place only for modules where consultants were available, impeding the deliverable review progress. Evaluation of resumes and interviews were conducted to onboard new consultants, with one position filled in October. SI submitted a revised Project Plan for DOTH's review with a new Go-Live date of July 1st, 2024, which is two years later than the original timeline. Completing the Project Plan is a top priority for the H4 project, as it has not had an approved project plan since the beginning of the implementation.

Regarding additional details of the recent departure of consultants: most recently, one consultant covering GL/AP/CO/FAMIS Interface left the project in October; three key SI consultants departed from the H4 project in September – an FM/GM Consultant, an OCM Lead, and an Infrastructure Lead; and two consultants left the project in August, impacting Financial and Integration, Fixed Assets, Human Capital Management, Timesheet, and Payroll. In October, the FM/GM consultant position has been filled. As the previous reports have continuously highlighted that the H4 project was understaffed compared to the initial resource plan, these recent departures further accentuate the concerns surrounding the staffing issue, making the implementation of the H4 project even more challenging. These departures have resulted in a substantial depletion of institutional knowledge, disturbances in the team dynamics, and disruption of unity within the H4 project. SI is in the process of filling the vacant positions, and DOTH is reviewing resumes and conducting interviews. It is observed that the immediate positions to fill are Financial/Integration Lead, OCM Lead, HCM Lead Consultant, and GL/AP/CO/FAMIS Interface Consultant.

Since the beginning of the H4 project, the absence of a mutually agreed-upon and authorized Project Plan has presented a significant and ongoing challenge. SI submitted another revised Project Plan in October. However, DOTH has not approved it because it does not align with their approval criteria. The absence of a mutually agreed upon project plan has limited the ability to have clear visibility regarding project resources and timelines. There is a substantial number of outstanding tasks and incomplete deliverables. Given the current pace of project progress and the recent departure of consultants, it is the opinion of IV&V that establishing a Go-Live date of July 1, 2024, is unrealistic and will be a formidable challenge. Once the project plan, reflecting the current status, is finalized and a definitive Go-Live date is set, it is recommended a written change order is initiated to document the revised project plan, schedule, requirements, scope, training, and any contractual implications.

Regarding Functional Specification Documents (FSDs), the ongoing review and updates continue for all WRICEF items for the modules where consultants are available. At the end of October, 138 FSDs had been submitted for review, and DOTH conditionally approved 101 of them. It is worth noting that FSDs heavily rely on prior deliverables such as the Process Design Documents (PDDs), Data Conversion Plan, Requirement Traceability Matrix (RTM), and Fit/Gap analysis. It is observed that some FSDs require additional time and discussions due to insufficient details or unclear information from the aforementioned dependent work products. As mentioned in the previous report, the walkthrough review of the Configuration Design Documents (CDDs) was planned to occur once the majority of FSDs have been completed. However, it is recommended that DOTH and SI conduct a concurrent review and validation of CDDs alongside FSDs rather than waiting until most FSDs are almost finished. This approach is suggested because CDDs cover the configuration of essential functions crucial for establishing a system baseline and addressing solutions for over 480 requirements in Wave I. System setup and development activities are currently underway in various areas, and comprehensive and detailed information about these processes is crucial. Therefore, it is recommended to incorporate all discussed details and document them in accordance with the Deliverable Expectation Documents (DEDs). It is also advisable to avoid granting conditional approval for deliverables that may introduce risks of rework or require fixes.

There were no Knowledge Transfer/Training sessions conducted to educate DOTH project team members on the H4 functions, terminology, and processes. Furthermore, no training materials for self-learning and skill development have been provided to the project team members. SI and DOTH have not reached an agreement regarding their Unit Testing methodologies and their respective responsibilities. DOTH places significant importance on its involvement in Unit Testing, employing structured test cases and scripts aligned with the requirements. On the other hand, SI's viewpoint is that they should manage the testing process and then present the results to DOTH. It is imperative to reconcile these differing viewpoints through constructive discussion and agreement, aligning with the terms outlined in the contract. As new consultants join the team to fill the vacant positions and acquaint themselves with DOTH's processes and requirements, it may present an opportune time for all consultants to collectively review, understand, and update existing documents in collaboration with DOTH. This can ensure that all details of DOTH's processes and requirements are properly understood and documented.

Section: IV&V Dashboard

B. Observation, Risk, Issues, Subject Category

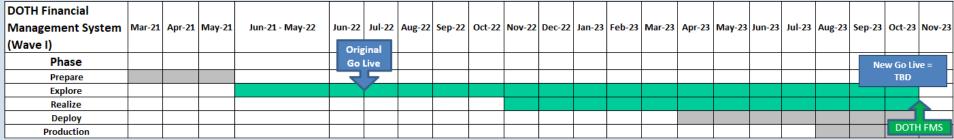

Section: IV&V Dashboard

C. Total Budget vs. Inception to Date Expenditure, Project Timeline

Project Timeline

H4 is currently in the Explore and Realize Phases. The Explore Phase has been extended with an "ASAP" target date, while the New Go-Live date has yet to be determined. A few Realize Phase activities are ongoing, and Wave 2 (SBP) activities are on hold until the Wave 1 Project Plan is completed.

- Prepare Phase: Define Strategy, Project Initiation, Project Standards, Technical Requirements.
- Explore Phase: Business Workshops and Requirements, Fit-Gap Analysis, Technical Solution Design, Testing Strategy, Training Strategy
- Realize Phase: Functional Specification, Organization Alignment, Knowledge Transfer, Build, Development, Unit Test, Integration Test
- Deploy Phase: Support Plan, Training Delivery, Cutover Plan, User Acceptance, Simulations, Go/No-Go Decision
- Production: Cutover, Go-Live, Hypercare Support, Transition to Operations, Project Closeout

III. IV&V Findings – Observations, Risk, Issue and Feedback/Mitigation

A. Subject Category: Schedule Management

Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

ORI ID: I-210531-02

Issue

The final Project Plan/Implementation Schedule has not been approved by DOTH and the deliverable is not completed. This is a foundational document for a project management and scheduling, and it is one of the most critical deliverables. Delay in the Project Plan and Implementation Schedule pose decreased confidence in being able to manage project resources efficiently and meet the final Go-Live date. Also, without the Project Plan and the Implementation Schedule DOTH has limited project visibility and it will impact schedule and resource management. It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e., one consultant or DOTH team member working more than 40 hours in a week, etc.)

Feedback/Mitigation/Updates

It is recommended that SI complete Project Plan/Implementation Schedule as soon as possible.

Project Plan/Implementation Schedule Submission History:

11/16/2020, 12/21/2020, 4/26/2021: The initial project plan was submitted and returned back to SI after DOTH review due to incompleteness.

6/3/2021: The New Target Date for Project Plan/Implementation Schedule is set to 6/11/21 by SI.

6/14/2021: Updated project plan was submitted by SI but returned back to SI due to incompleteness.

7/1/2021: It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e. one consultant or DOTH team member working more than 40 hours in a week, etc.). Updated project plan was submitted by SI but returned back to SI after DOTH review due to incompleteness. Revised Acceptance Date: 8/31/2021

9/02/2021: No updates have been submitted to DOTH.

9/16/2021: DOTH interviewed an assistant project manager candidate on 9/7/2021.

9/30/2021: No updates have been submitted to DOTH.

10/5/2021: SI Assistant Project Manager submitted the revised project plan. DOTH has a meeting with the SI Assistant Project Manager and requested a revision due to the project plan being incomplete.

10/13/2021: SI Assistant Project Manager submitted the revised project plan and DOTH will hold a review meeting on 10/22/2021.

10/25/2021: DOTH had a meeting with the SI Assistant Project Manager to review Project Plan/Implementation Schedule. Progress has been made, however some data such as the dates and % completion need to be corrected.

11/10/2021: SI Assistant Project Manager submitted the revised project plan and DOTH will hold a review meeting on 11/24/2021.

11/24/2021: SI Assistant Project Manager and DOTH Project Manager worked together via Teams and updated and fixed the Project Plan. There will be a follow up meeting.

12/31/2021: SI Assistant Project Manager and DOTH Project Manager worked together via Teams and updated and fixed the Project Plan. It is still not complete.

1/31/2022: No new major update. The document is making incremental progress, however it is not completed yet.

2/28/2022: No new major update. It is still incomplete.

Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

3/31/2022: The Assistant Project Manager left H4 implementation project. The Project Manager will continue to work on Project Plan/Implementation Schedule.

4/29/2022: No major updates. A new Go-Live date will be set after PDDs are approved by DOTH.

5/31/2022, 6/30/2022, 7/31/2022: No major updates.

8/31/2022: The new assistant project manager will be revising Project Plan/Implementation Schedule with updated Go-Live Date of 7/1/2023. 9/30/2022: No major updates. 10/31/2022: It is recommended that SI complete the Project Plan/Implementation Schedule as soon as possible since the absence of the Project Plan/Implementation Schedule prevents from proper resource planning, meeting schedules, and integrated solution development and this causes issues and inefficiency. The project meetings are not being held cohesively and the project focus is scattered.

11/30/2022: It was expected that after the new Go-Live date was set a revised Project Plan/Implementation Schedule would be prepared, however there is no update to the Project Plan. It is recommended that SI complete the Project Plan/Implementation Schedule as soon as possible. 12/31/2022: Project Plan/Implementation Schedule still has not been submitted to DOTH.

1/31/2023: A high-level project plan was presented during the PMO on 1/26/2023 but the detailed Project Plan/Implementation Schedule has not been submitted to DOTH.

2/28/2023: The Project Plan/Implementation Schedule was submitted to DOTH for review and approval. DOTH reviewed it internally and scheduled a meeting for further review and discussion with SI on 3/1/2023.

3/31/2023: SI submitted the Project Plan/Implementation Schedule for discussion on 3/1/2023 and it was observed that task durations and dates need to be completed based on the current availability of resources and time constraints. DOTH and SI disagree with approaches regarding the resource loading to the Project Plan. They are in the process of working through the details and finalizing the Project Plan/Implementation Schedule.

4/30/2023: There are still disagreements between DOTH and SI regarding the resource plan, task duration and deliverables due dates, as well as the Go-Live date.

5/31/2023: DOTH and SI have been working together to agree on the Project Plan/Implementation Schedule, but an agreement has not been reached. This is an important deliverable that requires both parties' attention and it should be completed as soon as possible.

6/30/2023: DOTH and SI planned to meet to work on the Project Plan/Implementation Schedule and it should be completed asap.

7/31/2023: DOTH is waiting for SI's submission of the updated Project Plan/Implementation Schedule. Timely attention from both parties is imperative for the completion of this crucial deliverable at the earliest opportunity.

8/31/2023: DOTH is currently awaiting submission of the updated Project Plan/Implementation Schedule from SI.

9/30/2023: No major update. DOTH is currently in the process of awaiting the submission of the revised Project Plan/Implementation Schedule from SI.

10/31/2023: SI submitted the revised Project Plan/Implementation Schedule and DOTH is currently reviewing it.

Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

ORI ID: I-220331-02

Issue

The Go-Live date of Wave 2 for Budget and Planning (SBP) has not been set yet.

Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

Feedback/Mitigation/Updates

The Go-Live of Wave 2 for Budget and Planning (SBP) needs to be set as soon as possible because it impacts the project plan, resource scheduling, and project management. It is recommended to weigh the pros and cons of merging Wave 1 and Wave 2 given that there is significant delay in the project progress.

4/29/2022: No major updates. In accordance with meetings and discussions, it should be carefully considered that SBP goes live with other modules at once because it will eliminate any additional reconciliation process and streamline the whole end-to-end budget procedures if SBP goes live at the same time as FM.

5/31/2022: The issue of not discovering SBP functions and incorporating them into the current solution design was discussed again during the Project System PDD review. It is recommended that SBP functions and features need to be reviewed and considered when developing solution designs for Fund Management, Project System, FHWA requirements.

6/30/2022: No major updates.

7/31/2022: No major updates.

8/31/2022: No major updates.

9/30/2022: SI will provide additional information for SBP or its replacement application, because SBP is planned to be unsupported in the near future.

10/14/2022: SI stated that Wave 2 would start in November 2022. However, the Go-Live date of Wave 2 has yet to be determined.

11/15/2022: SI is working with DOTH resources and preparing for a Kickoff meeting.

12/21/2022: Wave 2 SBP Budgeting Kick-off meeting was held.

1/31/2023: SI is working on the Prepare Phase deliverables and preparing project team member training, however the Project Plan for Wave 2 has not been submitted yet and Go-Live date still has not been determined.

2/28/2023: SI provided training on 2/23/2023. No SBP project plan has been submitted to DOTH.

3/31/2023: SI submitted the Project Plan/Implementation Schedule for the Wave 2 Budget and Planning (SBP). It is being reviewed and updated.

4/30/2023: Project Plan/Implementation Schedule for Wave 2 is still being reviewed and updated.

5/31/2023: The Go-Live date of Wave 2 for Budget and Planning (SBP) will not be set until the Project Plan/Implementation Schedule for Wave 1 is completed.

6/30/2023: The Project Plan/Implementation Schedule for Wave 1 has not been completed. Therefore, the Go-Live date of Wave 2 for Budget and Planning (SBP) is not set.

7/31/2023: The Go-Live date of Wave 2 for Budget and Planning (SBP) has yet to be established because the H4 Project Team is waiting for the completion of the Project Plan/Implementation Schedule for Wave 1.

8/31/2023: No major updates.

9/30/2023: No major updates since the Wave 2 Go-Live date is dependent on the Wave I Project Plan/Implementation Schedule and no updated Wave I Project Plan/Implementation Schedule has been submitted.

10/31/2023: No major updates.

B. Subject Category: Resource Management

Resource Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-230930-01

Two key consultants, the financial/integration lead and the HCM lead, left the H4 project in August 2023, and three more key consultants, the FM/GM consultant, the OCM lead, and the Infrastructure lead, departed in September 2023. These consultants have dedicated over two years of their expertise to the H4 project, and the transition process may not have been executed as thoroughly as needed to ensure a seamless transfer of responsibilities, knowledge preservation, and uninterrupted flow of operations within the team, primarily because their positions were left vacant after their departure from the project.

Feedback/Mitigation/Updates

To ensure project continuity and success, it is recommended that SI promptly assign new resources to fill these vacant positions, as well as any other essential roles that are still vacant from previous departures.

9/30/2023: After a thorough review and assessment, DOTH has declined SI's proposal to assign the current PS/FHWA consultant as the financial/integration lead. DOTH conducted an interview with the HR lead candidate proposed by SI but chose not to proceed with the candidate due to concerns raised by both the interview responses and the assessment.

10/31/2023: One additional consultant covering GL/AP/CO/FAMIS Interface left the project in October. SI is in the process of filling in the vacant positions and DOTH conducted interviews with a few candidates. It is observed that the immediate positions to fill are Financial/Integration Lead, OCM Lead, HCM Lead, FM/GM Consultant, and GL/AP/CO/FAMIS Interface Consultant.

C. Subject Category: Quality Management

Quality Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-231031-01

Some deliverables continue to exhibit recurring issues, such as containing non-DOTH-related information and deviating from the DED, resulting in missing, incomplete, or incorrect information. These persistent issues, which have been previously highlighted, are causing delays in the deliverable review and approval process.

Feedback/Mitigation/Updates

It is recommended that deliverables comply with approved DEDs and undergo thorough preparation, review, and proofreading by SI before submission to DOTH for review.

D. Subject Category: Risk/Issue Management

Risk/Issue Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-221130-02

Some items from Issue/Risk Log are being discussed without detailed resolution or follow-up.

Feedback/Mitigation/Updates

The risks and issues of the H4 Project need to be more proactively managed and respective SMEs should be more engaged regarding the details to ensure the success of the project.

12/31/2022: No major updates.

1/31/2023: It is recommended that all outstanding issues and risks be discussed during the PMO meeting, not just new items.

2/28/2023: No major updates.

3/15/2023: There are 13 unresolved outstanding issues and one new issue found.

4/30/2023: Progress has been made, however there are items that are aging and a quicker follow up and resolution to those issues will help with the project timeline.

5/31/2023: There are 37 items that need to be reviewed - 15 resolved and 22 in progress. There are still old items that need follow up.

6/30/2023: There are 38 items that need to be reviewed - 15 resolved and 23 in progress. There are still old items that need follow up.

7/31/2023: There are 41 items that need to be reviewed - 15 resolved and 26 in progress. There are still old items that need follow up.

8/31/2023: There are 45 items that need to be reviewed - 19 resolved and 26 in progress. There are still old items that need follow up.

9/30/2023: There are 49 items that need to be reviewed - 21 resolved, 27 in progress, and 1 in new. It is recommended the all open issues are reviewed and resolved.

10/31/2023: There are 50 items that need to be reviewed - 23 resolved, 27 in progress, and 1 in new. It is recommended that all open issues, including older items, be reviewed and resolved.

E. Subject Category: Organization Change Management

Organization Change Management: Observation, Risk, Issue and Feedback/Mitigation

Risk

Impact

ORI ID: R-230930-01

The OCM lead has left the H4 project, leaving no one to continue to conduct OCM activities.

Feedback/Mitigation/Updates

It is recommended that SI fill the position as soon as possible and/or provide a TA in the meantime to ensure a seamless OCM operation without any interruptions.

10/31/2023: DOTH conducted an interview with an OCM consultant candidate.

F. Subject Category: Communication Management

Communication Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-220131-08

Feedback/Mitigation/Updates

It is recommended: More coordination and collaboration is needed to design and develop an integrated solution. Proactively communicate with other consultants on topics that may be relevant for another consultant. Meeting recordings should be utilized to understand the relevant topic for the related process in another module. All key project team members to attend the meetings related to critical core requirements such as waterfall funding. Analyze each meeting's agenda to see if there are other consultants that should attend for related information.

2/28/2022: There is another consultant who is leaving the project and a replacement consultant has not participated in a meeting, and these turnovers are adding difficulty to the current communication issue.

3/31/2022: More collaboration is expected among SI consultants where it requires integrated solutions such as Waterfall Funding, FHWA Billing, Labor, etc. When DOTH staff inquiries about solutions that integrate across two or more functions between H4 modules, DOTH staff should also be provided with the integrated solution answer as opposed to separate or siloed bits of information of each H4 module.

4/29/2022: Efforts were made to improve communication and collaboration. (E.g., Rules of Engagement prepared by SI)

5/31/2022: Collaboration made progress. For example, some requirements that impact multiple areas have been referenced by multiple PDDs of different areas. However, there are still some communication improvements to be made between SI consultants.

6/30/2022: More coordination and collaboration could be made where cross module interaction is needed.

7/31/2022: More coordination and collaboration were present during the PDD reviews.

8/31/2022: Some DOTH requirements that were presented and discussed previously were asked to be revisited again in the meetings.

9/30/2022: Improvements still need to be made in communication and collaboration between SI consultants.

10/31/2022: Communication and collaboration still need to improve between SI consultants, especially with three consultants leaving the project.

11/30/2022: It has been observed that during FSD meetings information is not being shared between modules, including basic information which impacts multiple modules. Since this information is not being shared among team members, DOTH has to re-explain basic information multiple times.

12/31/2022: More communication and collaboration are needed for integrated solution design. There have been siloed activities and approaches observed.

1/31/2023: Designing an integrated solution for FHWA and other modules will require additional collaboration effort, teamwork, and cooperation. The issues of siloed information and ununified solution design are still observed between models and cross-business areas where tight integration is needed.

2/28/2023: It is observed that more communication and collaboration are still needed for an integrated solution design. DOTH is still not clear on the end-to-end FHWA System solution.

3/31/2023: The issue regarding an integrated solution design was brought up in a PMO meeting. It was decided that there will be an integration checklist developed to keep track of issues and action items coming out of meetings that impact integration of modules.

4/30/2023: It is observed that additional communication, collaboration, and comprehensive solution architecture are necessary to achieve a fully integrated solution design as there are information gaps between the modules where the transactions impact each other.

Communication Management: Observation, Risk, Issue and Feedback/Mitigation

5/31/2023: The lack of an integrated and comprehensive solution design still remains a concern. It is recommended that SI and DOTH work together to resolve this ongoing issue.

6/30/2023: There is an ongoing concern regarding the absence of an integrated and comprehensive solution design. When a meeting is held, it is recommended that all responsible parties join the meeting for best facilitation.

7/31/2023: Some progress has been made through consultants attending meetings of cross-functional areas for integration efforts. For a fully integrated solution design, continuous communication, collaboration, and comprehensive architecture are needed to bridge information gaps between modules and interdependent transactions.

8/31/2023: It is observed that some cross-module dependencies were not fully explored and they may not function as anticipated; inter-module discussion is needed. The challenges of isolated information and a fragmented solution design persist across modules and cross-business areas where seamless integration is crucial.

9/30/2023: Three additional key consultants have left the H4 project, specifically in the roles of FM/GM, OCM Lead, and Infrastructure Lead. This departure could potentially exacerbate the existing challenges related to integrated solution design, collaboration, and cohesive teamwork.

10/31/2023: Following the departure of five consultants in the last two months, another consultant responsible for GL, AP, CO, and FAMIS interface left the H4 project in October. This departure is exacerbating the ongoing challenges related to integrated solution design, collaboration, and cohesive teamwork.

G. Subject Category: Contract Management

Contract Management: Observation, Risk, Issue and Feedback/Mitigation

ORI ID: I-230309-03

Issue

SI stated that the unit testing will be conducted by SI consultants only and there will be no participation from DOTH. SI will provide reports showing test results with screenshots instead of unit testing scripts.

Impact

Feedback/Mitigation/Updates

It is recommended for SI and DOTH come to an agreement on how the unit testing will be conducted. It may be beneficial for DOTH to be involved in unit testing to ensure requirements are implemented as expected.

3/9/2023: SI stated according to its methodology: 1. unit testing will be conducted based on T-Codes in Business Process Master List (BPML), not by each requirement of DOTH with test scripts and 2. DOTH will participate in the unit testing for WRICEF, but not for standard functionalities. DOTH disagrees and believes that DOTH should participate in all testing regardless of standard function or WRICEF, as defined in the project documents.

4/30/2023: DOTH and SI are in a discussion and working towards finding a mutual agreement.

5/31/2023: Additional discussions are taking place for unit testing DED, however full agreement has not been reached yet.

6/30/2023: DOTH and SI are holding meetings and collaborating towards reaching a mutual agreement.

7/31/2023: No major updates.

8/31/2023: DOTH is currently awaiting updates from SI regarding the Unit Testing approach.

Contract Management: Observation, Risk, Issue and Feedback/Mitigation

9/30/2023: No conclusion has been made yet on how the unit testing will be conducted.

10/31/2023: No major updates.

Contract Management: Observation, Risk, Issue and Feedback/Mitigation

Risk

Impact

ORI ID: R-230309-01

There are various deliverables that are conditionally approved due to missing or incomplete requirements analysis or process discovery and the project team has to engage in rediscover of information for the Project.

Feedback/Mitigation/Updates

It is recommended that DOTH avoid conditional approval on any remaining deliverables because many deliverables are interdependent, and some of them are built upon the previous ones. These conditionally approved deliverables could require rework and fixing when errors and omissions are found later, and it could further complicate the project deliverable management and updates.

4/30/2023: No major deliverables this month were impacted by this issue. However, there are few individual FSDs that are conditionally approved and this may increase project risk.

5/31/2023: No major updates.

6/30/2023: No major updates.

7/31/2023: No major updates.

8/31/2023: No major updates.

9/30/2023: No major updates.

10/31/2023: It is crucial to complete each deliverable before moving on to the subsequent deliverables, particularly if they are prerequisites for the next deliverables.

H. Subject Category: Requirement Management (Processes, Requirements and Fit/Gap)

Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

Risk

Impact

ORI ID: R-230228-01

FSDs are prepared without in-depth discussion during the RTM and Fit/GAP. An FSD is a final document before the System configuration, therefore it should be as complete as possible. However, there are a lot of discoveries still being made during the FSD sessions.

Feedback/Mitigation/Updates

It is recommended that the H4 Project Team work on detailed and complete discovery of DOTH requirements without postponing any elements to development and testing. All the details should be discovered by the completion of FSDs. This also impacts Quality Management.

Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

4/30/2023: There were some meetings where detailed information for configuration or reports was suggested to be discovered during the testing phase. It is recommended that all granular details be discovered and documented with the FSDs now rather than postponing until the integration testing. Developers need clear guidance on creating reports and customizing applications, which is why it's crucial for FSDs to be comprehensive and detailed.

5/31/2023: It is recommended that all detailed functional specifications be discussed, reviewed, agreed upon, and documented entirely before moving to the next task, such as Conference Room Pilot.

6/30/2023: Progress is being made on all modules. However, there are some FSDs that need to provide more details and more requirements; processes discussion is needed.

7/31/2023: No major updates.

8/31/2023: It is advisable to identify and document all specific details within FSDs at this stage rather than deferring them to the integration testing phase. Reviewing FSDs continues to pose difficulties due to the fragmented and isolated presentation of information. Furthermore, understanding the logic can be quite challenging, particularly due to the limited understanding of SAP processes and functions.

9/30/2023: No major updates. 10/31/2023: No major updates.

I. Subject Category: Solution Design and Configuration

Solution Design and Configuration: Observation, Risk, Issue and Feedback/Mitigation

Observation

ORI ID: O-230524-01

There was a disagreement on the level of detail and how to review and confirm the Configuration Design Document (CDD). DOTH had questions on the CDDs, however not all modules contained detailed enough answers for DOTH to understand them.

Feedback/Mitigation/Updates

SI will do a walkthrough of the Configuration Design Document with DOTH in the upcoming meetings. It is recommended that SI provide enough details in CDDs and in responses to the questions for DOTH to be able to understand the concept of the design and to be able to do maintenance in the future.

6/30/2023: CDD review meetings have not been scheduled or held yet.

7/31/2023: It is recommended that SI and DOTH review CDDs as soon as possible because a CDD validates the baseline setup for the requirements met by the H4 standard functionalities.

8/31/2023: No major updates.

9/30/2023: No major updates.

10/31/2023: No activities related to CDD occurred.

J. Subject Category: Reports and Analytics

Reports and Analytics: Observation, Risk, Issue and Feedback/Mitigation

Risk

Impact

ORI ID: R-221130-03

RTM and FSD are being prepared without in-depth reports discussion and Analysis of Reporting Requirements (ARR) does not provide sufficient information to cover all the details of the reports. Reports are often the final desired outcome of an activity and detail discovery is essential.

Feedback/Mitigation/Updates

It is recommended that SI conduct detailed discovery of DOTH reports to ensure all the necessary information for input and output are covered.

- 12/31/2022: During the FSD discussions, additional details that need to be on the reports have been discovered.
- 1/31/2023: H4 project team is having deep-dive discussions on WRICEF's requirements, processes, and functional specifications.
- 2/28/2023: Reports WRICEF FSDs are being reviewed and new discoveries are being made. FSDs are being updated based on discussions.
- 3/31/2023: New discoveries on reports requirements continue to be found.
- 4/30/2023: Reports are constantly undergoing new discoveries.
- 5/31/2023: Further details about the reports have been uncovered and discussed.
- 6/30/2023: WRICEF Reports are being discussed during the FSD sessions but other standard reports in H4 also need to be reviewed.
- 7/31/2023: While WRICEF Reports are reviewed and discussed, it is equally essential to examine the standard reports within H4.
- 8/31/2023: A few standard reports for AP were reviewed during the FSD meetings. Standard report review activities should continue throughout all modules.
- 9/30/2023: WRICEF Reports discussions are making incremental progress during the FSD sessions but some standard reports in H4 are still not explored carefully and they should be reviewed to ensure standard reports can satisfy the requirements.
- 10/31/2023: It is observed that detailed information for some report requirements is still missing and a comprehensive report analysis is still needed.

K. Subject Category: Data Conversion

Data Conversion: Observation, Risk, Issue and Feedback/Mitigation

Risk

Impact

ORI ID: R-221130-04

Data Conversion strategy and plan documents have not covered the details such as source/target, cleansing, dependencies, and validations. These activities have been deferred to the Realize Phase from the Explore Phase causing delays, rework, or additional work later. WRICEF and detailed data conversion work deferred from the Explore Phase are discussed and performed during FSD sessions.

Feedback/Mitigation/Updates

It is recommended to catch up on work deferred from the Explore Phase and to explore Data Conversion materials in detail to finalize the Data Conversion WRICEF in FSD.

Data Conversion: Observation, Risk, Issue and Feedback/Mitigation

12/31/2022: Data conversion discussions are making progress. However, familiarity of H4 terminologies, functions, and processes by DOTH will be needed to adequately review and complete data conversion FSDs.

1/31/2023: FSD meetings are continuously being held to review data conversion specifications, especially to identify source of data that needs to be extract from.

2/28/2023: Data conversion discussions have been held and are making progress.

3/31/2023: It is observed that more explanation and data conversion details, such as sequences and impacts of data conversion upload from various modules, need to be provided by SI for DOTH's better understanding and preparation.

4/30/2023: As FSDs and data conversion are being reviewed, new information about data conversion is constantly being discovered and revealed. However, it is important to note that certain details should have been discussed and clarified during the Explore Phase.

5/31/2023: More details and information regarding Data conversion have been found and discussed.

6/30/2023: AR Customer and GL data conversion FSD were discussed, reviewed, and submitted for questions and comments. Data conversion needs to be performed in an integrated manner and it is recommended that various modules engage in integration discussion for a successful data conversion.

7/31/2023: No major updates.

8/31/2023: Several FM data conversion meetings were convened, during which it became evident that fostering enhanced direct communication among cross-functional business areas was imperative. Consequently, it is recommended that various module leads actively engage in collaborative discussions to guarantee a seamless and successful data conversion process.

9/30/2023: The data conversion meetings were held to discuss PS Master Data Conversion, AR Customer Data Conversion, and sample overall Data Conversion Schedule. Some modules have overlapping data and it is recommended to have more collaborations with integration in mind to avoid any inaccurate balances.

10/31/2023: Several data conversion meetings were conducted to address data conversion sources, mapping, rules, and journals. Nevertheless, it has been observed that further effort and in-depth analysis are required to address the intricacies of data integration points across modules.

L. Subject Category: Documentation

Documentation: Observation, Risk, Issue and Feedback/Mitigation

Issue

ORI ID: I-221130-03

It is observed that meeting minutes or action items from the project discussions are not always provided. To-Do lists and summaries of the meetings may have been gathered on individual levels, but this makes it difficult to track the progress as a project team and also challenging to collaborate between project team members.

M

Impact

Feedback/Mitigation/Updates

It is recommended to prepare meeting summaries and/or to-do lists from the meetings to efficiently prepare, plan, and navigate the follow up activities and hold efficient meetings.

Documentation: Observation, Risk, Issue and Feedback/Mitigation

12/31/2022: No major updates.

1/31/2023: PMO meeting minutes and agenda for weekly standing meetings have been provided. It will help to have meeting minutes for other Realize Phase meetings as well.

2/28/2023: Meeting minutes are required to track action items and to-do tasks. For example, PO match options, H4 values for FAMIS project/Ph/Act fields, Workflow routings, source/object codes, fixed asset funds, payroll accounting entries, etc. Currently, it is difficult to track who needs to perform what task by when without meeting minutes.

3/31/2023: A document such as meeting minutes or an action items list should be compiled after each meeting--as opposed to each individual tracking their own tasks--to share with DOTH and have a cohesive follow up for the various meetings that are taking place.

4/30/2023: No major updates. It is recommended that DOTH and SI develop a standardized procedure for meeting minutes or task lists to track action items effectively.

5/31/2023: Some progress has been made, but it is recommended that meeting minutes and action items be shared on a centralized platform like Teams and ensure they are monitored and followed up.

6/30/2023: No major updates.

7/31/2023: It is recommended to distribute meeting minutes via Word documents and gather action items of various modules in one place using master tracking Excel sheets with details such as due dates and responsible parties through the centralized Teams platform while also ensuring vigilant oversight and prompt follow-up.

8/31/2023: No major updates.

9/30/2023: No major updates.

10/31/2023: It is recommended to establish a process to manage and distribute meeting notes, consolidate action items from various modules, and document critical business decisions made during discussion sessions. This will facilitate efficient oversight, streamline task management, enhance accountability, support prioritization, and guarantee timely follow-up on critical action items.

Documentation: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-230930-01

It is observed that some conditionally approved deliverables are not currently up-to-date, especially PDDs.

Feedback/Mitigation/Updates

It is recommended to update conditionally approved PDDs, considering the changes and corrections that have been identified and discussed during the H4 deliverable meetings.

10/31/2023: As new consultants join the team and familiarize themselves with DOTH's processes and requirements, it is suggested that all consultants review, understand, and update the previous documents including PDDs with the most up to date information in collaboration with DOTH to ensure that all details are properly understood and captured.

M. Subject Category: Training and Knowledge Transfer

Training and Knowledge Transfer: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-221031-01

DOTH project team members have not been sufficiently provided instruction and training to actively access H4 and familiarize themselves with H4 functions and processes.

Feedback/Mitigation/Updates

It is recommended that SI provide training and instruction on how to navigate and process basic transactions so that the project team members can be more experienced with H4 and get ready for the System testing, verification, and validation.

11/15/2022: No major updates. It is recommended that DOTH test availability of Dev environment from on and off DOTH network.

12/21/2022: Orientation meeting for Subject Matter Leader Knowledge Transfer was held. No dates for the trainings have been set yet.

1/31/2023: Weekly standing meetings have been started to provide project team member trainings.

2/28/2023: Knowledge Transfer sessions are taking place and training is being provided. However, it is observed that there is a lack of instruction (training material) for the training sessions.

3/31/2023: DOTH requested many times for documented training material to be provided for Knowledge Transfer sessions and SI is working on it.

4/30/2023: There have been additional discussions during PMO meetings for project team member training materials and SI will follow up on it.

5/31/2023: No major updates. 6/30/2023: No major updates.

7/31/2023: No major updates. 8/31/2023: No major updates.

9/30/2023: No major updates. Although some level of informal training occurs during FSD meetings, it remains challenging to grasp and follow without the availability of adequate training materials.

10/31/2023: No major updates.

N. Subject Category: Production Migration

Production Migration: Observation, Risk, Issue and Feedback/Mitigation

Issue

Impact

ORI ID: I-211028-07

The Initial Deployment Plan was delayed and has not been completed.

Feedback/Mitigation/Updates

It is recommended that SI complete the deliverable as soon as possible.

11/18/2021: No major updates. 12/2/2021: No major updates.

12/31/2021: No major updates. 1/31/2022: No major updates. 2/28/2022: No major updates. 3/31/2022: No major updates. 4/29/2022: No major updates.

5/31/2022: No major updates. 6/30/2022: No major updates. 7/31/2022: No major updates. 8/31/2022: No major updates. 9/30/2022: No major updates.

10/31/2022: SI stated that they will follow up and get back to DOTH with updates.

Production Migration: Observation, Risk, Issue and Feedback/Mitigation

11/30/2022: No major updates.

12/31/2022: The Initial Deployment Plan still has not been submitted to DOTH.

1/31/2023: No major updates. 2/28/2023: No major updates. 3/31/2023: No major updates. 4/30/2023: No major updates. 5/31/2023: No major updates.

6/30/2023: No major updates. 7/31/2023: No major updates.

8/11/2023: SI submitted the DED.

9/30/2023: No major updates.

10/31/2023: DED is approved.

IV. Meetings and Discussions Participated for the Month of October 2023

Meetings an	d Discussions		
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M231002-1	10/2/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the GL Journal Entry Upload FSD.
M231003-1	10/3/2023	Logistics Weekly Connect	A meeting was held to discuss and review the PR Workflow scenarios.
M231005-1	10/5/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M231005-2	10/5/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss the data conversion and custom fields.
M231005-3	10/5/2023	Weekly AR Discussion	A meeting was held to review the Open Invoice Conversion FSDs.
M231006-1	10/6/2023	Project Discussion	A meeting was held to discuss the issue list - PDD updates, WF tool.
M231010-1	10/10/2023	Working Group - H4 Projects search words criteria	A meeting was held to discuss project search words function for H4 and Socrata.
M231011-1	10/11/2023	Project Discussion	An internal DOTH meeting was held to discuss project status and issues.
M231011-2	10/11/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.
M231012-1	10/12/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M231012-2	10/12/2023	Weekly AR Discussion	A meeting was held to review the TDR Remarks, Customer Conversion FSDs.
M231013-1	10/13/2023	Logistics Weekly Connect	A meeting was held to discuss and review the PR Workflow FSD: Travel.
M231016-1	10/16/2023	Discuss VENRAW file	A meeting was held to discuss the vendor interface.
M231016-2	10/16/2023	Weekly AR Discussion	A meeting was held to review the Open Invoice Conversion FSDs.
M231017-1	10/17/2023	H4 Project Conversion Meeting	An internal DOTH meeting was held to discuss project conversion - Emergency Projects.
M231017-2	10/17/2023	Discuss SI Deliverable #38 Disaster Recovery and Business Continuity Plan	An internal DOTH meeting was held to discuss the Deliverable #38 Disaster Recovery and Business Continuity Plan.
M231017-3	10/17/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the GL Charge Code to Cost Objects Crosswalk Table and the GL Crosswalk Table FSD, which was demonstrated in the sandbox.
M231018-1	10/18/2023	Introduction - MVSO	A meeting was held to introduce the SI FM consultant to MVSO team.
M231018-2	10/18/2023	Introduction - FM	A meeting was held to introduce the SI FM consultant to HWY-SM/SF team.
M231018-3	10/18/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss Project/Ph UAC and DOTH project scenarios.
M231019-1	10/19/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.

Meetings an	d Discussions		
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M231019-2	10/19/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M231020-1	10/20/2023	Discuss FM/GM	A meeting was held to explain the logistics of the meeting and deliverable procedures to the new FM consultant.
M231020-2	10/20/2023	Logistics Weekly Connect	A meeting was held to discuss and review the PR Workflow and Custom Fields.
M231023-1	10/23/2023	Interview with OCM consultant	An interview was conducted with a candidate for the OCM lead position.
M231023-2	10/23/2023	interview follow up	An internal DOTH meeting was convened to review and discuss the outcomes of the interviews.
M231023-3	10/23/2023	Discuss Issue 78 - AP Workflow	A meeting was held to discuss why SI proposed a custom WF solution instead of the SAP standard WF.
M231023-4	10/23/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the GL Charge Code to Cost Objects Crosswalk Table FSD, SWV-PTI, and SWV auto numbering.
M231026-1	10/26/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M231026-2	10/26/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss scenarios for DOTH sample projects and the sequence for converting data. SI demonstrated some H4 setup during the meeting.
M231026-3	10/26/2023	Weekly AR Discussion	A meeting was held to review the TDR FSD, Project/Ph Number, and Dunning Letter.
M231027-1	10/27/2023	Logistics Weekly Connect	A meeting was held to discuss and review the PR Workflow, Pcard Unit Testing, and Bank Interface.
M231030-1	10/30/2023	EGS Batch Number	A meeting was held to discuss Batch Number in the EGS file.
M231031-1	10/31/2023	Internal discussion of FM FSDs	An internal meeting was held to discuss the C-06 FSD.

VII. Appendix

A. Impact Definition

Value	Legend	Description	
N/A	N/A	Not Applicable	
No Impact	✓	No Impact	
Low	L	A priority of Low is assigned if there is a possibility of low impact to product quality, scope, cost, and/or schedule. Minimal disruption is possible and some monitoring is likely needed to ensure priority does not increase.	
Medium	M	A priority of Medium is assigned if there is a possibility of moderate impact to product quality, scope, cost, and/or schedule. Some disruption is likely and a different approach may be required. Mitigation strategies should be implemented as soon as feasible.	
High	H	A priority of High is assigned if there is a possibility of substantial impact to product quality, scope, cost, and/or schedule. A major disruption is likely and the consequences would be unacceptable. A different approach is required. Mitigation strategies should be evaluated and acted upon immediately.	

B. Status Definition

Status	Description
Open	Observation, risk, or issue is created.
In Progress	Observation, risk, or issue is addressed and is being worked on by the implementation team.
In Dispute Observation, risk, or issue is not acknowledged or accepted by the implementation team.	
Risk Accepted Observation, risk, or issue is acknowledged or accepted by implementation team but is not being worked or	
Closed Observation, risk, or issue is closed.	

C. Subject Category Definition

Subject	Subject Category	Description		
Project Management	Schedule Management	Identify and assess risks and issues that may impact the project completion schedule. This may include analysis of the scale and complexity required, work breakdown and assignments, and assessment of proper planning regarding scope, budget, resources, etc.		
	Resource Management	Identify and assess risks and issues associated with allocating proper resources (e.g. time and expertise) necessary to complete the project.		
	Quality Management	Identify and assess risks and issues to quality, specifically software, functionality, testing, documents, etc. via implementation of internal and external measures and processes established to regulate quality level as needed.		
	Risk/Issue Management	Identify and assess risks and issues to software and deliverables. This may include considering and/or implementing processes to identify, monitor, communicate regarding, and mitigate potential items that could negatively impact the project.		
	Organization Change Management	Identify and assess risks and issues involved in implementing changes necessary to optin benefits of the new system. This may include end-user education of updated procedure roles, responsibilities, technology, communication, etc.		
	Communication Management	Identify and assess risks and issues that prevent stakeholders from communicating effectively by assessing their key objectives, developing, and implementing procedures to communicate purposes clearly, and analyzing methods to obtain feedback.		
	Contract Management	Identify and assess risks and issues that could impact the project team's ability to deliver its contractual commitments such as cost, scope, size, etc.		
	External Impact Management	Identify and assess risks and issues external to DOTH, IV&V, and SI that could impact the following: subcontractors, regulatory, market, customer, weather, etc.		
Implementation	Requirement Management (Processes, Requirements and Fit/Gap)	Identify and assess risks and issues to business process, system software requirements, and fit/gap of process and available functionalities of the software.		
	Solution Design and Configuration	Identify and assess risks and issues to solution design and configuration of the software implementation of the system.		
	Interface and Integration	Identify and assess risks and issues that relate to functionalities that interact with outside system or software.		
	Reports and Analytics	Identify and assess risks and issues to reporting and analytics functionality of the system.		
	Security	Identify and assess risks and issues to security of the system such as authentication, user access control, encryption, or any other items that relate to keeping the information secure.		
	Data Conversion	Identify and assess risks and issues to data conversion process or resulting data when moving data from the old system to the new system.		

Subject	Subject Category	Description	
	Documentation	Identify and assess risks and issues in documentation deliverables.	
	System Testing	Identify and assess risks and issues related to testing the functionalities of the system for the requirements.	
	Training and Knowledge Transfer	Identify and assess risks and issues with training and knowledge transfer of the new system and its use for DOTH business.	
	Production Migration	Identify and assess risks and issues to the system migrating from test environment to production environment.	

									Observ	ation, R	isk and	d Issues (ORI) 10/31/2023					FOR DOTH Internal C
ORI ID	Type	SI Deliverable / ORI Source	Creation Date	Subject Area	Modules	Summary	Description	Responsible Party	Status	Impact	Probabili tv		Updates	Review / Target Date	Close Date	Reference ID/Doc	Comments
O-210330-01	Observation	M210330-1	3/30/2021	Schedule Management	N/A	Aggressive Project Plan and Go Live Date	The Propare Phase awa stanted in March 2021. The major activides in the Propare Phase are the Propet Charter, the Project Plan, the Communication Plan, the Project Team Training Plan, the Project Team Training, the CAD Design Workshop, the Organization Change Management Plan, and the ETV Preparation. After completion of the Prepare Plans, starting the Explore phase in June leaves only 13 months to Go-live and this can be an aggressive project plan.	DOTH/SI	Closed	N/A	N/A	AND and IGEV should check and monitor project status and activities to ensure the project is on schedule. June is the businest monitor for DOTI preparing for fiscal Year end and SI should be cognizant of it when scheduling the Explore Phase tasks.		6/30/2021	6/30/2021		
0-210407-01	Observation	Email-Ron- 210407	4/7/2021	Resource Management	N/A	Replacement of SI Project Manager	The project manager, Matthew was replaced by John on 4/7/2021. Matthew was involved in contract scope of work, project plan and discussions with DOTH until he left SI.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor if there's a smooth transition in roles and responsibility of SI PM.		5/31/2021	5/31/2021		
O-210429-01	Observation	M210429-1	4/29/2021	Resource Management	N/A	In progress of identifying SI Organization Change Management Lead	SI is currently trying to secure an Organization Change Management Lead personnel.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor to ensure SI brings the Organization Change Management Lead into the project as soon as possible according to the staffing plan (June).	7/1/2021. Organization Change Management Lead will join the implementation team on 7/6/2021.	6/30/2021	6/30/2021		
O-210429-02	Observation	M210429-1	4/29/2021	Schedule Management	N/A	Updating SI project plan	SI is currently updating project plan with correct date and resource assignment. "Updated Project Plan and implementation Schedule" was returned to SI for more completed document with updates to dates and resource assignment, etc.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor SI project plan updates.	\$1,42021-193V Mid Month Meeting. 193V and DOTh agreed that the project plan should be delivered as soon a possible for project management and schedule. Per meeting, expected updated Project Plan delivery date is \$72,12021. \$7,28,7021-1 This observation became an issue.	5/31/2021	5/31/2021	I-210531-02	
0-210505-01	Observation	M210504-1	5/5/2021	Contract Management	N/A	FMS Kick Off Meeting	Kick Off meeting was held on 5/5/2021 and the presentation was well organized and delivered nicely.	SI	Closed	N/A	N/A	N/A		5/31/2021	5/31/2021		
O-210505-02	Observation	M210504-2	5/5/2021	Training and Knowledge Transfer	GL	SAP S/4 ERP Essential Concepts for the DOTH FMS	Overall training went well, however there were some people who couldn't log in and were not able to follow the training and that was not addressed during the training. There also were some minor technical difficulty with switching screen (or may have been switching between presentation decks).	DOTH/SI	Closed	N/A	N/A	There needs to be a process in place where participants are monitored for questions or issues during training. There may need some general training for MS teams presentation (including meeting settings setup, monitoring participants, sharing screen, muting/unmuting participants) usage.		5/31/2021	5/31/2021		
0-210505-03	Observation	M210505-1	5/5/2021	Resource Management	PG	Retirement of HYWAC Resource in Dec 2021	A key DOTH personnel, Chuck for HYWAC will retire in Dec 2021.	DOTH	Closed	N/A	N/A	DOTH should ensure to have a proper knowledge transfer and transition to his successor. DOTH already hired another employee and she's getting trained and prepared to be responsible for HYWAC maintenance and support.		5/31/2021	5/31/2021		
0-210512-01	Observation	M210512-2	5/12/2021	Training and Knowledge Transfer	N/A	Generic Training without focus of DOTH requirements	Project Team Training were conducted by S based on generic functionalities of SAP. However, SF3 proposal stated "Functional project team training will take place as a Explore activity, and will be delivered by S functional consultants. This is a differentiator, because the training is not centered on a generic system with a universe of capabilities, but will be focused on DOTH's system functionality as delivered"	SI	Closed	N/A	N/A	S project manager stated that there would be more Discovery Workshop that will review and discuss DOTH's specific requirements and learn how SAP's functionalities will meet DOTH's requirements. It needs to be confirmed in which deliverable that these workshop will be performed in the plan.		5/31/2021	5/31/2021		
O-210513-01	Observation	M210513-1	5/13/2021	Resource Management	N/A	In progress of identifying SI Payroll/HR/Time & Attendance Lead	SI is currently trying to secure a SI Payroll/HR/Time & Attendance Lead.	SI	Closed	N/A	N/A	The Payroll/HR/Time & Labor Leads are currently not identified and PMO and IV&V should check and monitor to ensure SI brings resources into the project by July according to the staffing plan.		7/31/2021	7/31/2021		
0-210513-02	Observation	Email-Ron- 20210513	5/13/2021	Schedule Management	N/A	Project Team Training Plan document hasn't submitted by SL	Project Team Training (SI Wave1/Seq Id: 9) was started without Project Team Training Plan Document submitted to DOTH (SI Wave1/Seq ID: 10).	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor to ensure SI delivers Team Training Plan Document (SI Wave1/Seq ID: 10).	DOTH and SI agreed to skip the training plan since SI conducted the Project Team Training already.	5/31/2021	5/31/2021	0-210617-01	
0-210514-01	Observation	M210514-2	5/14/2021	Training and Knowledge Transfer	N/A	SAP Terminology	DOTH project team members stated that during the SAP project team training (introduction to SAP), DOTH project team members and difficulty understanding SAP's terminology and relating SAP's terminology and relating SAP's terminology and relating SAP's terminology and relating SAP's terminology and standing SAP training was mostly centered around SAP standard functional to SAP training was mostly centered around SAP standard functionality and did not strongly correlate to DOTH's requirements.	DOTH/SI	Closed	N/A	N/A	Si consultants need to learn and be more familiar with DOTH's bermis business requirements along with DOTH's bermis object and processes as listed in RPP and 55 to the proposal. Also DOTH project team members along with learn and be more familiar with 53V terminologies as well. 33 hould start to dive into DOTH's requirements and conduct the training with DOTH's spealf requirements, not only genetic EAP standard incliniss. Closs reference of terminology (SAP & DOTH terminology glossary) would help DOTH project terminology glossary) would help DOTH project terminology for member 51 to understand how SAP functionality will work for DOTH's requirements.		5/31/2021	5/31/2021		
0-210514-02	Observation	M210520-1	5/14/2021	Resource Management	N/A	DOTH Project Team Availability	DOTH project team members stated that June through September are the busiest months of the year and expressed concerns on project participation. Fiscal (HWN*59) is the busiest in June and July, Budget (HWN*59) is the busiest in September and October, and Project/Grants (HWN*50) is the busiest in August and September. Each department of DOTH has particularly busy times in a year, but not all at the same time.	DOTH/SI	Closed	N/A	N/A	S and DOTH should determine the busy season of the year and the availabilities of SMEs to shedule the meetings around those availabilities of SMEs for efficient and effective use of meeting time without impacting DOTH's regular business scielly, DOTH is waiting for the Project Plan so that DOTH can schedule their time accordingly.		6/30/2021	6/30/2021		
0-210527-01	Observation	Email-Ron- 210527	5/27/2021	Quality Management	N/A	SAP Support Website	OOTH purchased SAP software license. As of S78, there is no established account and access for SAP support website. In SAP support website, INVAV brought up that OOTH purchased software licenses and that they should be provided access to the SAP support website that including product information, troubleshooting and direct SAP support.	SI	Closed	N/A	N/A	It is recommended that SI support and follow up with SAP for DOTH to gain access to the SAP support website.	9/7/2021: Se of 9/7/2023, there is no established account and access for SAP support website. Stated that it will be available after Development environment is strailed. 9/8/2021: St provided DOTH with access to SAP support website.	9/16/2021	9/16/2021	O-210923-01	
I-210531-01	Issue	M210527-1	5/31/2021	Schedule Management	N/A	Delay in Deliverables	As of \$1/2021, the deliverables of the Communication Plan, the Chart of Accounts Design, the Business Process Organizational Change Management (DCM) Plan, the Project Management plan (PMP) and the Project Team Training PinPlan and the Project Team Training to Plan and Plan Plan Plan Plan Plan Plan Plan Plan	SI	Closed	Low	N/A	SI should complete the Communication Plan, the Chart of Accounts Design, the Business Process Organizational Change Management (OCM) Plan, and the Project Management Plan and submit to DOTH for review as soon as possible.	6/J/2021: The New Target Doses for the following deliverables are set to by \$1 - communication Plans: G11/2021: - Chair of Accounts Design: 73/2021 - Suinces Process organizational Change Management (OCM) Plan: 6/11/2021 - Project Management Plan (PMP): 6/18/2021 - Project Team Training: 6/18/2021	6/30/2021	6/30/2021	O-210615-01	Closed and recreated as I-210615-01

O-211028-08	Observation	M211028-1	10/28/2021	Training and Knowledge Transfer	N/A	Training	OOTIs reject team members are not familiar with H4 system functions and features for PD neview and having difficulty applying them to DOTH's requirements.	DOTH/SI	Closed	N/A	N/A	It is recommended that DOTH project team members request DOTH-specific one-on-one, hands-on training and question and answer sessions for more familianity with H4 because the project team training conducted by 31 in May 2021 was based on generic and high-level non- DOTH specific requirements without much detail, nor live system demo with exercises.	11/18/2013: No requests for trainings have been made. Training for the project team members should be conducted as soon as possible. 12/12/2011: No major updates. 1/31/2022: This item will be tracked with I-211021-03.	1/31/2022	1/31/2022	F211021-03	
0-211031-01	Observation	M211028-1	10/31/2021	Resource Management	N/A	Resource Qualification	There are turnovers in SI project team members. Some team members need more time to understand information related to FHWA and DOT processes.	DOTH/SI	Closed	N/A	N/A	SI and DOTH should confirm that the consultants meet the qualifications as stated in the RFP, which includes FHWA experience and DOTH equivalent work experience.	11/18/2021: No major updates. 12/2021: No major updates. 12/31/2021: No major updates. 1/31/2022: This item will be triaged to F220131-02 as issue.	1/31/2022	1/31/2022	F220131-02	
0-211103-01	Observation	M211103-1	11/3/2021	Requirement Management (Processes, Requirements and Fit/Gap)	PM	PM Implementation	Plant Maintenance implementation should not affect Go-Live on 7/1/2021.	DOTH/SI	Closed	N/A	N/A	It is recommended that Plant Malintenance development is scheduled in order to not negatively impact Go-Live date for Wave L. It can go line with Wave II (or it can have its own schedule/Wave). Meanwhile, a manual upload of plant maintenance financial data to GL may need to be considered.	12/2/2021: Si terviewing a solution for Plant Maintenance Go-Live date. 12/31/2021: No major updates. Go-live date is likely to be revised due to current standing of the project irrespective of Plant Maintenance module. This item will be closed and re- addressed if necessary in the future.	1/31/2022	1/31/2022		
+211108-01	Issue	M211108-1	11/8/2021	Requirement Management (Processes, Requirements and Fit/Gap)	BD	Budget and Planning (SBP)	Budget and Pflaming (SBP) is a part of the 144 solution and it is supposed to emorphisos budget transcrions, including DOTH's budget prep, execution, A-15, A-19, and A-21. Whowever, Si proposed that solution design for A-15, A-19, and A-21 will remain in fruids Management until Budget and A-21 will remain in fruids Management until Budget and A-21 will remain in short solution in the SBP consultant will determine the best obsolution for processing budget maintenance requirements: A-15, A-19, and A-21.	DOTH/SI	Closed	Medium	N/A	it is recommended that H4 Project Team design a permanent solution that will best if DOTH budget requirements from its first design by engaging the SBP consultant, instead of postponing designing the solution.	13/1/2011: No major updates. 1/31/2012: No major updates. 1/31/2012: No major updates and SI plans to start SBP in a later date. Wave 2 was planned to start typ mov, however chedule is postponed. SI plans to start Wave 2 after Wave 15 PDD is completed and Explore phase is done. It is recommended to engage SBP consultant in the designing Budger fetted process and module. 1/28/2022: No major updates.	2/28/2022	2/28/2022		There was a discussion session for FM and SBP and implementation will take both modules in account. More details will be discussed in the future, especially since Wave I implementation is delayed and direct coordination with Wave 2 SBP could take place.
0-211115-01	Observation	M211115-1	11/15/2021	Requirement Management (Processes, Requirements and Fit/Gap)	PG	Waterfall Funding Solution	A back-end split waterfall funding solution for PHWA billing is generally more common in the Department of Transportation Highways. However, the Department of Transportation Highways in Hawaii mun on a front-end split waterfall funding with many funds logocytistions. During the procurement on many funds logocytistions. During the procurement or process of the procurement of the process of the procurement of the process of	23	Closed	N/A	N/A	N/A	12/7/2021: No major updates. 12/33/2021: No major updates. 1/14/2022: This item is triaged to issue: F-220114-01 with the current status and update.	1/31/2022	1/31/2022	F220114-01	
F211115-01	Issue	M211115-1	11/15/2021	Resource Management	FB	Consultants for PHWA	Waterfall funding/Spilt is a core critical requirement for H4, however Waterfall funding/Spilt was not discussed as much as it should be throughout the Explore Phase. It only started to be discussed recently as an integrated solution during FHWA Billing session.	SI	Closed	Medium	N/A	It is recommended that waterfall funding/Split solution be designed by SI as soon as possible.	13/7/2021. A whiteboard session is scheduled on 12/8/7021. DOTH held a workshop and presented again how DOTH processes Watefull Inding/Epill. 1/13/7022. This idea may be a compared to the standard of the standard of the standard with 1-210/28-02. Watefull funding solution is being discussed and that will be tracked with 1-210/28-02. Watefull funding solution is being discussed is tracked with 1-220/14-01.	1/31/2022	1/31/2022	I-211028-02, I- 220114-01.	
F211115-02	Issue	M211115-1	11/15/2021	Resource Management	FB	Consultants for PHWA	Workshops related to Split/Waterfall funding require all consultants to participate because this requirement impacts the various DOIT requirements, including procurement, invoice, payroll, timesheet, project, etc. However, some consultants did not attend the Split/Waterfall-related workshops.	SI	Closed	Medium	N/A	FHWA Billing Process starts from cost collection where participation costs are incurred. It involves Fund Management, Respuisitions, purchase Orders, Accounts Psyables, and General Ledger. Therefore, respective consultants should attend FHWA related meetings to collaborate and to develop an integrated solution for waterfall funding and FHWA billing.	12/7/2021: No major updates. 12/8/2021: Not consultants attended the 12/8 Split/Waterfall whiteboard meeting. Because this topic is a ritial topic, continuous participation in the meetings related to this topic is a must. 13/12/022: No major updates. 2/28/2022: Some progress has been made. However, continuous participation is needed to keep making progress. 3/31/2022: Continuous participation is needed to keep making progress.	4/29/2022	4/29/2022		This issue is closed because progress has been made. However, H4 Project Team will keep monitoring.
R-211118-01	Risk	M211118-1	11/18/2021	Solution Design and Configuration	B	Waterfall Funding Solution	The consultants do not seem to have experience of FHWA with many appropriations and with front end split. These are unique requirements that Hawaii DOTH have that adds to the difficulty of the project for the consultants to understand the process and design the solution. Some consultants have very limited experience in those fields and it amplifies the difficulty. Some explore sessions showed that there are still areas that require better understanding of the processes.	SI	Closed	Medium	Medium	There may need to be more sessions for a better and full understanding of the FRWA Billing, front-end spill; waterfall funding, many-to-many relationship with appropriations and projects, along with any other module or area that need more information for PDD. The HP Project Fram should ensure the implementation consultants meet the qualifications discussed in the RFP.	12/J/2021: No major updates. 12/3/J/2021: No major updates. 13/3/2021: No major updates. Lack of experience with some consultants is becoming more apparent as the deliverables are submitted. This item is being triaged to Issue: i-220131-02	1/31/2022	1/31/2022	F220131-02	
F211202-01	Issue	M211202-1	12/2/2021	Quality Management	GENERAL	Errors, Omission, inaccuracy in Deliverables	Some SI Deliverables contained errors and misinformation such as incorned project name, other client's system architecture, missing/incompiler contents, etc. Eg. Technical Infrastructure Plan/Delign, Project Standard Strategy, Scope Management Strategy, etc.	SI	Closed	High	N/A	It is recommended that deliverables are more carefully prepared, reviewed and proforded by 5 document quality team before submitting to DOTH for review.	13.13/2022 ismary has been mainly focused on PDD documents, however the documents were not well standardezed. In addition, other documents showing untimely information and documents with noticeably templated information not specified for DDTH are frequently present. 27.14/2022 Technical Inforstructure Plan/Design document was submitted with very generic information and its lonfrastructure Plan/Design document was submitted with very generic information and its lonfrastructure Plan/Design document was submitted with very generic should be reworked and resubmitted. 33.11/2022 Continuous monitoring is needed to improve quality of deliverable documents. 47.29/2022 Conly PDDs and MDDs have been submitted and there has been some progress made, but other outstanding documents have not much progress. 57.11/2022 PDD and Technical Infrastructure Plan/Design were submitted and progress was made, but other outstanding documents have not made progress.	6/30/2022	6/30/2022		These issues have not been observed in recent deliverables.
I-211202-02	Issue	M211202-1	12/2/2021	Quality Management	N/A	Process Flow Formatting	Consultants worked on PDDs based on their responsible business areas. However, Process Flows Diagrams are not standardized in PDDs	SI	Closed	Low	N/A	N/A	1/31/2022: This item will closed and be tracked together with i-211021-03.	1/31/2022	1/31/2022	I-211021-03	
I-211216-01	Issue	M211216-1	12/16/2021	Requirement Management (Processes, Requirements and Fit/Gap)	N/A	Level of Detail/Accuracy on PDD	SI and DOTH had different views on what information and level of details PDO should include. Si is looking at PDO from a higher level/summary perspective compared to DOTH and DOTH is requesting PD0 to be more detailed in order to understand the document and the To-Be processes fully.	DOTH/SI	Closed	Medium	N/A	PDD should be developed and compiled based on the Deliverable Expectation Document and SI and DOTH should come to an agreement on where the discrepancies are with the expectations for the documents.	1,077/2022: The level of details and contents supposed to be included in PDD were discussed and the decision was made to follow the guidelines and instructions defined in PDD DED.	1/31/2022	1/31/2022

O-220131-01	Observation	M220127-1	1/31/2022	Schedule Management	GENERAL	System Configuration	SI started to configure H4 at risk before approval of POD.	SI	Closed	N/A	N/A	N/A	JASATOZI: No major update. 3.013/0022: No major update. 3.013/0022: According to Phase Cate approach, 5 is not supposed to configure 146 before fully completing the Explorer Phase. 5 is continuing with the configuration and that could be a risk form. 4.739/7002: No major updates. 5/31/2002: Most of the PDDs are approved at this point. Closing the observation.	5/31/2022	5/31/2022		
1-220201-04	Issue	M220201-1	2/1/2022	Requirement Management (Processes, Requirements and Fit/Gap)	РО	RTM	S missed reviewing Contract Ledger requirement during Discovery session and recently requested a discussion for this requirement. This is a result of not going over DOTH requirements first in the beginning of the project. This issue has been raised multiple times but suggesting the review of DOTH requirements before or together with PDD was not accepted. Currently PDD is being developed before RTM is completed.	SI	Closed	Medium	N/A	RTM needs to be completed as soon as possible to eliminate any requirements that may need more discovery and to confirm that all the requirements went through a proper explore process.	2/1/2022: There was a discussion on the topic and PDD is being developed.	2/28/2022	2/28/2022		
O-220216-01	Observation	M220216-2	2/16/2022	Training and Knowledge Transfer	N/A	Navigation Training	Si provided H4 Navigation training on 2/9/2022. This was the first hands on training provided by St. There were Project Team Training sessions in the beginning of the project, however these were overview of SAP (introduction to SAP) rather than hands on training for each module.	DOTH/SI	Closed	N/A	N/A	R is recommended to have continuous hands on training sessions.		2/28/2022	2/28/2022	It merged with I- 211021-03.	
R-220223-01	Risk	M220223-2	2/23/2022	Requirement Management (Processes, Requirements and Fit/Gap)	AP	Decentralizing AP Process	It was discussed that employees who initiate purchase also enter AP invoices in the Branch. There are few concerns with this approach: - training issue - employees have to learn new process and task - resource concern - resource shifting/reorganization may need to take place from change in workload or over decentralization and additional support - if there are any errors or if troubleshooting is needed then the System Accountant needs to support multiple people - control issue	ротн	Closed	Low	Low	Further discussion is recommended to ensure the new process will be manageable for the Purchase Requisitioner position.	3/31/2022: No major updates. Afa,50202: Two options for AP invoice matching were presented by SI and preferred option turned out to be very error prione, which will have a negative impact on DOTH's decentralized AP invoice entry procedure. 5/31/2022: No updates. 6/30/2022: No updates.	7/31/2022	7/31/2022		Invoice matching was addressed as an open item in AP PDD and will be discussed again during the Realize Phase.
I-220224-01	Issue	M220224-1	2/24/2022	Requirement Management (Processes, Requirements and Fit/Gap)	Ю	Accounting Assignments	The project team discovered that expenditures cannot be charged to both Cost Center and Project at the same time. The current system allows to charge both Cost Center and Project simultaneously and tracks expenditures by Appropriation, Cost Center, Object Codes, and Charge Codes.	ZI	Closed	High	N/A	Further discussions are recommended to ensure the expenditures are charged correctly according to DOTH's requirements.	3/31/2022: SI stated that Sub Division and Projects are recorded in Fund Center and WBSE respectively.	3/31/2022	3/31/2022		
0-220224-01	Observation	M220224-1	2/24/2022	Resource Management	GENERAL	Vacation Notice	Vacation notice should be provided at least two weeks in advance, if possible, to the related team members for meetings and resources planning purposes.	DOTH/SI	Closed	N/A	N/A	N/A	3/31/2022: No major updates.	3/31/2022	3/31/2022		
I-220301-01	Issue	M220301-1	3/1/2022	Requirement Management (Processes, Requirements and Fit/Gap)	AP	AP Invoice Matching	have a functionality of matching invoices to a specific PO/Contract Suffix line(s) based on the user's need. SI proposed that DOTH creates PO/Contract line with only one suffix line.	SI	Closed	High	N/A	A single suffix line approach does not appear to be a feasible workaround for DOTH business process. An enhancement is needed if a standard functionality cannot meet invoice matching requirement.	\$3.13(2022: A solution is still being developed by 3. 4/26/2022: Two options for AP invoice matching were presented by \$1. The pros and cors were discussed and the option 1 seems preferable but customization is required to put data entry validation and to make data entry more user friendly. 5/31/2022: The issue was addressed as an open item in the POD.	6/17/2022	6/17/2022		The PDDs open items will be reviewed during the realize phase.
I-220301-02	Issue	M220303-1	3/1/2022	Contract Management	GENERAL	New Go-Live Date	Original Go-Live date was no longer feasible and a new date was supposed to be set in mid-February. However, no revision has been done for the Go-Live date and currently there is no target date for Go-Live.	SI	Closed	Medium	N/A	A Go-Live date should be set to track progress and to allocate resource accordingly.		3/31/2022	3/31/2022		Consolidated with R- 211028-01

R-221006-01	Risk	M221006-1	10/6/2022	Resource Management	GENERAL	PM, HR, Timesheet Consultants	Three SI consultants are rolling off the H4 project.	SI	Closed	High	High	It is recommended that DOTH requests additional resources from SI to adequately support the project.	10/31/2022: H4 project started with 12 consultants and now there are eight consultants assigned to the H4 project even though the project's scape of work did not change. These may be insufficient records for the project. This may overfixed the remaining consultants with the quantity of work and also consultants may need to soot with thin noduce that fall outside of their expertise and may impact the project quality. 11/30/2022: It is recommended to monitor that proper knowledge transfer takes place and to find replacement records of the H4 Projects still have not been filled. 12/31/2022: The three vacant consultant positions still have not been filled. 13/31/2023: Started that resource planning and allocations is determined by the state of the project. It is recommended that 5 and COTI's should come to an agreement whether H4 needs are consultant for the vacant procurement position.	3/31/2023	3/31/2023	O-230309-01	This issues has been merged with O-230309-01.
R-221020-01	Risk	M221020-1	10/20/2022	Resource Management	GENERAL	Assistant Project Manager	Assistant Project Manager is rolling off the H4 project on 11/4/2022	SI	Closed	Medium	Medium	It is recommended that SI find replacement Assistant Project Manager.	11/30/02021: It is recommended that SI search for a replacement for Assistant Project Manager, 171/5/2022: A potential Assistant Project Manager was found but was assigned to another project. It is recommended that SI continue searching for a replacement for the Assistant Project Manager position. 12/31/2022: SI proposed an Assistant PN candidate, however qualifications were not met and SI is continuing to search for a candidate. 1/31/2023: SI submitted a resume for a deputy project manager candidate and DOTH is reviewing and changing the references. 2/28/2023: A prospective Assistant Project Manager is identified and is going through the HR process.	3/31/2023	3/31/2023		Assistant Project Manager started working with the H4 project in early March 2023.
1-221025-01	issue	M221027-1	10/25/2022	Quality Management	GENERAL	Deliverable Quality	S deliverables have tended to contain errors and ministromation such as incorrect project amm, other client's system architecture, missing/incomplete contents, etc. DOTH recently received a DDE from St, but I turned out that the DED was for another client. These errors and missing information are causing delays in the deliverable review and approval process.	SI	Closed	High	N/A	It is recommended that deliverables are more carefully prepared, reviewed and proofered by 5 document quality team before submitting to DOTH for review.	12/11/1022: Formatting and content issues that could be easily prevented (e.g., big gaps in the document without good reasons, improper ballet pointing, inconsistency between actions, and incorrect/incomplete information thus impacting legibility and accuracy) are continuously observed. 1/31/2023: No major updates. 1/31/2023: No major updates. 2/31/2023: No major updates. 4/30/2023: It has been observed that a few errors, such as duplicate information, etc. 2/31/2023: No major updates. 4/30/2023: The seen observed that a few errors, such as duplicate information, incomplete sections, and missing information discovered during the FSD sessions and CDD review, need to be addressed and corrected. 5/31/2023: Some deliverables will contain grammar, formatting, and spelling issues; this leads to needing additional help to understand and follow the contents. 6/30/2023: Some deliverables such as CDD do not meet the requirements defined in the DED and they are incomplete or missing information.	8/31/2023	8/31/2023		it was merged with R- 230228-01.
R-221031-01	Risk	M221027-1	10/31/2022	Schedule Management	GENERAL	New Go-Live Date	New Go-live date is set to 7/1/2023 but it is at high risk due to many deliverables remaining and delay in implementation.	DOTH/SI	Closed	High	High	its recommended that ODIN and SI discuss a resolution for depleyed deliverables and develop a detailed plan to meet the new Go-Live date.	11/20/20/22. New Go-live date. of 71/20/33 apreasn to be at risk; DOTH and \$5 inhould discuss feasibility of the Go-Live date. 11/21/10/20/21 its ir ecommended to discuss the Go-Live date. of 71/20/33 as it is an improbable target date to achieve. 1/31/20/32 its recommended for DOTH and \$5 to review the feasibility of 71/20/33 Go-Live date and the Project Plan to be submitted as soon as possible. 1/31/20/32: The Project Plan in/mplementation Schedule was submitted to DOTH for review and approval. DOTH reviewed it internally and scheduled an ameting for further review and discussion with \$5 on 37/1/20/32. The Project Plan/mplementation Schedule meetings held for discussion on 3/1 and 3/9/20/32. The Go-Live date of 71/20/32 seemed untatinable because of overloaded tasks and orderundender securized assignments. DOTH informed Plank during the PINNA monthly overbruited and the security of the Plank date of 71/20/32 seemed untatinable because of overloaded tasks and overbruitedent securized assignments. DOTH informed Plank during the PINNA monthly overbruited and the Plank date of 71/20/32 seemed untatinable because of overloaded tasks and reverbruited and the Plank of Plank date of Plank date. 1/31/20/32: No significant progress has been made for the new Project Plan/mplementation Schedule with a more fort or stabilish as reviewed Go-Live date. 1/31/20/32: No significant progress has been made for the new Project Plan/mplementation Schedule with a more fort or stabilish as reviewed Go-Live date. 1/31/20/32: No significant progress has been made for the new Project Plan/mplementation Schedule with a more fort or stabilish as revided Go-Live date. 1/31/20/32: No significant progress has been made for the new Project Plank date.	7/31/2023	7/31/2023		The risk is no longer applicable as it has merged with 210531-02 after the estimate Go-Iuve date of 7/11/2023 has passed.
F221031-01	bsue	M221027-1	10/31/2022	Training and Knowledge Transfer	GENERAL	Team Training	DOTH project team members haven't been sufficiently provided instruction and training to actively access H4 and familiarize themselves with H4 functions and processes.	SI	In Progress	High	N/A	It is recommended that SI provide training and instruction on how to navigate and process basic transactions so that the project team members can be more experienced with H4 and get ready for the System testing, verification, and validation.	11/15/2022: No major updates. It is recommended that DDTH test availability of Deventrol member from on and off DDTH network. 12/12/2022: Orderston meeting for Subject Matter Leader Knowledge Transfer was held. No dates for the trainings have been sit yet. 13/12/2023: Verbust sanding meetings have been started to provide project team member variety. 13/12/2023: Verbust sanding meetings have been started to provide project team member variety. 13/12/2023: Orderstone started resistons are taking place and training is being provided. 13/12/2023: Order lequested many times for documented training materials for the training variety. 13/12/2023: ORD requested many times for documented training materials to be provided for knowledge Transfer resistons and SI is working on it. 13/12/2023: ORD was been additional discussions during PMD meetings for project team member training materials and SI will follow up on it. 13/12/2023: No major updates. 13/12/12/2023: No major updates. 13/12/2023: No major updates.	10/31/2023

1-22113-043	Issue	M221117-4	11/30/2022	Documentation	GENERAL	Meeting Minutes/Follow Up Lists	It is observed that meeting minutes or action items from the project discussions are not always provide. Too Bitst and summaries of the meetings may have been gathered on individual levels, both item hasks infidition to track the progress as a project team and also challenging to collaborate between project team members.	DOTH/SI	In Progress	Medium	N/A	It is recommended to prepare meeting summaries and/or to-do lists from the meeting to efficiently prepare, plan, and navigate the follow up activities and hold efficient meetings.	13/13/1022: No major update. 13/13/	10/31/2023			
0-221206-01	Observation	M221206-1	12/6/2022	Solution Design and Configuration		FSD Review	There was a meeting to discuss how to improve FSD process, because there are more than 200 documents that need discussion and approval. The proposed method is to group similar topic FSDs in a batch to discuss in a same meeting.	DOTH/SI	Closed	N/A	N/A	It is recommended to create a plan with FSD groups in advance for efficient and prioritized reviews and meetings.	\$11,52023: No major updates. \$13,12023: \$50 comments are being reviewed by \$1 consultants who are covering multiple modules. The proposed method to group similar topic \$750; in a batch is not being utilized yet and the F50 discussions are being held as the documents are submitted and easier ones are being handled first. It will help to have F50 discussions to follow process flow instead of the current at hot payproach. \$2,28,2023: Meetings are not being grouped into similar topic \$50s.	3/31/2023	3/31/2023		It was closed because almost half of the FSDs were already discussed and grouping FSDs by process flow may not be necessary at this point.
R-230228-01	Risk	M230223-1	2/28/2023	Requirement Management (Processes, Requirements and Fit/Gap)	GENERAL	150	SEDs are prepared without in-eight discussion during the RTM and FIGKGA — AFE Dis a final downwest before the System configuration, therefore it should be as complete as possible. However, there are a lot of discoveries xtill being made during the FSD sessions.	S	In Progress	High	High	It is recommended that the 14P Project Team work on detailed and complete discovery of DVIT requirements without postponing any elements to development and testing, All the details should be discovered by the completion of FSDs.	4,03/2022: There were some meetings where detailed information for configuration or reports was suggested to be discovered surfle be estign plane. It is recommended that all granular details be discovered and documented with the FSDs now rather than postponing until the integration testing. Developers need deep guidance on creating reports and outsomining applications, which is why 1% zoucial for FSDs to be comprehensive and detailed. 53/1/2022: It is recommended that all detailed functional specifications be discussed, reviewed, agreed upon, and documented entirely before moving to the next task, such as Conference Room FIGL. 6/18/2022: The commended that all detailed functional specifications have discussed, reviewed, agreed upon, and documented entirely before moving to the next task, such as Conference Room FIGL. 6/18/2022: The conference Room FIGL. 6/18/2022: The conference Room FIGL. 6/18/2022: The detailed in the conference Room FIGL. 6/18/2022: The detailed in office of the conference Room FIGL. 6/18/2022: The detailed before the conference Room FIGL. 6/18/2022: The detailed before the conference Room FIGL. 6/18/2022: The detailed before the conference Room FIGL. 6/18/2022: The detailed for the conference Room FIGL. 6/18/2022: The major updates.	10/31/2023			
O-230228-01	Observation	M230223-1	2/28/2023	Contract Management	GENERAL	Fit/Gap	SI submitted a change order for Fit/Gap based on all requirements. DOTH and SI are reviewing and making adjustments to come to an agreement. It is observed that the credit (hours) provided to DOTH for the various requirements appear to be underestimated.	DOTH/SI	Closed	N/A	N/A	It is recommended for SI and DOTH to review Fit/Gap together and come to an agreement.		3/31/2023	3/31/2023		The Fit/Gap deliverable was conditionally approved with a change order.
O-230302-01	Observation	M230302-1	3/2/2023	Solution Design and Configuration	GL	Design of Fund Account Assignment	DOTH requested changes in the number of characters in Fund account assignment based on the FM Budgeting Knowledge Transfer meeting took place on 2/28/2023.	DOTH/SI	Closed	N/A	N/A	DOTH requested changes in the number of characters in Fund account assignment based on the FM Budgeting Knowledge Transfer meeting took place on 2/28/2023.	3/30/2023: DOTH made a decision with ten-digit fund assignment based on the discussion and analysis with 3 during the Weekly FM Budgeting Discussion & Knowledge Transfer meeting on 3/30/2023. Advange order is being prepared by St. 5/31/2023: No major updates:	6/30/2023	6/30/2023		6/8/2023: SI stated that the change order would be withdrawn.
O-230307-01	Observation	M230307-4	3/7/2023	Training and Knowledge Transfer	GENERAL	KT Sessions	There was an issue of who could participate in KT sessions. SI and DOTH decided that key project team members could attend KT sessions even though they are registered in the KT roster.	DOTH/SI	Closed	N/A	N/A	N/A		3/31/2023	3/31/2023		
1-230309-03	Issue	M230309-2	3/9/2023	Contract Management	GENERAL	Unit Testing	stated that the unit testing will be conducted by 3 consultants only after well the no participation from DOTH. S will provide reports showing test results with screenshots instead of unit testing scripts.	DOTH/SI	In Progress	High	N/A	It is recommended for \$1 and DOTH come to an agreement on how the unit testing will be conducted. It may be beneficial for DOTH to be involved in unit testing to ensure requirements are implemented as expected.	19/2023: Si stated according to its methodology: L unit testing will be conducted based on T. Codes in Busines Process Master full (PMUL), not by each requirement of DOTI with test scripts and Z. DOTI will participate in the unit testing for WRICEF, but not for standard functionalities. Other disagrees and believes that DOTI should participate in all testing regardless of standard function or WRICEF, as defined in the project documents. 4/30/2023: OTIM and 30 are in a discussion and working towards findings amutual agreement. 5/31/2023: Additional discussions are taking place for unit testing DED, however full agreement has not been reached yet. 6/30/2023: DOTI and SI are holding meetings and collaborating towards reaching a mutual agreement. 7/31/2023: Nor major updates. 8/31/2023: OTIM tournetly waiting updates from SI regarding the Unit Testing approach. 9/30/2023: No conclusion has been made yet on how the unit testing will be conducted. 10/31/2023: No major updates.	10/31/2023			
R-230309-01	Risk	M230302-1	3/9/2023	Contract Management	GENERAL	Conditional Approval	There are various deliverables that are conditionally approved due to missing or incomplete requirements analysis or process discovery and the project team has to engage in rediscover of information for the Project.	DOTH/SI	In Progress	High	High	It is recommended that DDTI avoid conditional approval on any remaining deliverables because may deliverables are interdependent, and some of them are built upon the previous ones. These conditionally approved deliverables could require rework and fixing when errors and omissions are found later, and it could further complicate the project deliverable management and updates.	4/30/2023: No major deliverables this month were impacted by this issue. However, there are few individuals 750 that are conditionally approved and this may increase project risk. 5/31/2023: No major updates. 7/31/2023: No major updates. 8/31/2023: No major updates. 9/31/2023:	10/31/2023

O-230309-01	Observation	M230309-2	3/9/2023	Resource Management	GENERAL	Resource Planning	It is observed that three SI rolled-off consultants without replacement are impacting the project deliverables and this leads to negoing rediscovery sessions and changes in solution design and processes.	DOTH/SI	Closed	N/A	ty N/A	N/A	A/30/2023: It is continuously observed that deliverables are being re-worked due to the resource change. This could potentially rate the level of risk for the project. 5/31/2023: The inject of consultant's previous leaving is continuously observed. 6/30/2023: Solution integration appears to require more resources and needs more attention because 144 requires a clearer and more concrete compendency system architecture; it should outline how different components will interact and integrate to create the desired solution compared to what its currently presented. 7/31/2023: The integration of the solution seems to demand additional resources and heightened focus. This is due to the necessity for a more robust and attentive approach, as 144 requires amore distinct and comprehensive system architecture. It should explicitly defaul the interaction and integration of various components to realize the intended solution that will meet ODIT's requirements. 8/31/2023: The typicati is experiencing another high turnover among 51 consultants. This month, a financial lead and HCM lead have left the project. It is recommended that 51 provide more resources to fif these vacant positions, as well as any other necessary positions required for the project.	9/30/2023	9/30/2023		It is escalated to I- 230930-01.
0-230331-01	Observation	M230331-5	3/31/2023	Solution Design and Configuration		Project Activities	The main project activities with DOTH were Functional Specification Document (FSD). As of \$312/023, out of 211 FSDs total, SI submitted 96 FSDs, and DOTH approved 79 FSDs. More meeting sessions, such as for Security and Definition/Roles and Responsibilities, and Knowledge Transfer took place simultaneously.	DOTH/SI	Closed	N/A	N/A	It is recommended that Project Plan and implementation Schedule be completed as soon as possible for the visibility of the timeline, Go-Live date, task dependencies, and resource plan.	4/28/2023: Out of 211 FSDs total, SI submitted 101 FSDs, and DOTH approved 79 FSDs	5/31/2023	5/31/2023		It is merged with I- 210531-02.
R-230525-01	Risk	M230525-2	5/25/2023	Contract Management		Deliverables	Some deliverables were started being worked on, submitted, and invoiced before DED was approved.	SI	Closed	Medium	Medium	after approval of DED per Contract, "Attachment S8; A Deliverable Spectation Document that describes Acceptance Criteria for each Deliverable and Service subject to Acceptance Test. Each DED is a Deliverable that must receive Acceptance prior to beginning work on the Deliverable to which it applies"	6/30/2023: DED is being prepared for Project Team Training.	7/31/2023	7/31/2023		It is closed for now but will continue to be monitored for any deviation.
O-230524-01	Observation	M230524-3	5/24/2023	Solution Design and Configuration		Deliverables	There was a disagreement on the level of detail and how to review and confirm the Configuration Design Document (CDD), DOTH had questions on the CDDs, however not all modules contained detailed enough answers for DOTH to understand them.	DOTH/SI	In Progress		N/A	S will do a walkthrough of the Configuration Design Document with DOTH in the upcoming meetings. It is recommended that SI provide enough details in CDDs and in responses to the questions for DOTH to be able to understand the concept of the design and to be able to do maintenance in the future.	6/30/2023: CDD review meetings have not been scheduled or held yet. 7/31/2023: It is recommended that 3 and DOTH review CDD as soon as possible because a CDD validates the baseline setup for the requirements met by the H4 standard functionalities. 8/31/2023: Non payor updates. 10/31/2023: No najor updates. 10/31/2023: No activities related to CDD occurred.	10/31/2023			
R-230930-01	Risk	M230915-2	9/30/2023	Organization Change Management	GENERAL	OCM Activities	The OCM lead has left the H4 project, leaving no one to continue to conduct OCM activities.	SI	In Progress	High	High	It is recommended that SI fill the position as soon as possible and/or provide a TA in the meantime to ensure a seamless OCM operation without any interruptions.	10/31/2023: DOTH conducted an interview with an OCM consultant candidate.	10/31/2023			
1-230930-01	Issue	M230928-1	9/30/2023	Resource Management	GENERAL	Resource Planning	Two lay consultants, the financial/integration lead and the HKM lead, left the Hyopicch in Augus 2022, and three more key consultants, the FM/GM consultant, the COM lead, and the Infrastructure lead departed in September 2023. These consultants have dedicated over two years of their expertise to the H4 project, and the transition process may on the we been excurded as thoroughly as needed to ensure a semiles transfer of expossibilities, howerdege preservation, and uninterrupted flow of operations within the team, primarily because their positions were left vacant after their departure from the project.	ротн/ѕі	In Progress	High	N/A	To ensure project continuity and success, it is recommended that Spromptly assign new resources to fill these vacant positions, as well as any other essential roles that are still vacant from previous departures.	9,89/2023: After al thorough review and assessment, DOTH has declined \$1's proposal to assign the current PSP/HAV consultant as the financial/Integration lead, DOTH conscided an interview with the NR lead candidate proposed by S but chose not to proceed with the candidate due to concern saked by solve the interview responses and the assessment. 10,731,7023: One additional consultant covering GL/AP/CQ/FAMIS interface left the project in Orchers, 1's in the process of filling in the vocart positions and DOTH conducted interviews with a few candidates, it is observed that the immediate positions to fill are Financial/Integration Lead, OCM Lead, HCM Lead, FM/GM Consultant, and GL/AP/CQ/FAMIS interface Consultant.	10/31/2023		O-230309-01	It is changed to an issue from 0-230309.
+230930-01	tsue	M230928-1	9/30/2023	Documentation	GENERAL	Deliverable Updates	It is observed that some conditionally approved deliverables are not currently up-to-date, especially PODs.	DOTH/SI	In Progress	High	N/A	It is recommended to update conditionally approved PODs, considering the changes and corrections that have been identified and discussed during the H4 deliverable meetings.	19/13/2023. As new consultants join the team and familiative thremselves with DOTH's processes and requirements. It is suggested that all consultants reviews, understand, and update the previous documents including PDDs with the most up to date information in collaboration with DOTH to ensure that all details are properly understood and captured.	10/31/2023			
I-231031-01	Issue		10/31/2023	Quality Management	GENERAL	Deliverable Quality	Some deliverables continue to exhibit recurring issues, such as containing non dOTH-related information and deviating from the DE, resulting in missing, incomplete, or incorrect information. These persistent issues, which have been previously highlighted, are causing delays in the deliverable review and approval process.	SI	In Progress	High	N/A	It is recommended that deliverables comply with approved DEDs and undergo thorough preparation, review, and proofersding by SI before submission to DOTH for review.		10/31/2023		I-221025-01,I- 211202-01
