The Honorable Scott Saiki, Speaker  
and Members of the House  
State Capitol, Room 431  
Honolulu, Hawaii 96813

Dear President Kouchi, Speaker Saiki and Members of the Legislature:

For your information and consideration, I am transmitting herewith the 2023 State of Hawaii Act 57, SLH 2019 Vacancy Report.

In accordance with Section 93-16, Hawaii Revised Statutes, a copy of the report is also transmitted to the Legislative Reference Bureau Library, and the report may be viewed electronically at <http://dhrd.hawaii.gov/reports/legislative-reports/>.

Sincerely,

A handwritten signature in black ink that reads "Brenna H. Hashimoto".

Brenna H. Hashimoto  
Director

# **REPORT TO THE 2024 LEGISLATURE**

AS REQUIRED BY ACT 57,  
SESSION LAWS OF HAWAII 2019

**Department of Human Resources Development  
December 2023**

## Background

The Department of Human Resources Development's (DHRD) mission is to provide timely and responsive leadership, resources, and services to fully support the State of Hawai'i in the recruitment, management, and retention of a high-performing workforce based on the merit principle as defined by [HRS §76-1](#).

Act 57, Session Laws of Hawai'i 2019, as amended by Act 151, Session Laws of Hawai'i 2023, states the Director of the Department of Human Resources Development shall:

1. Facilitate and expedite the hiring and recruitment for civil service positions under the jurisdiction of the department of human resources development; and
2. Have the authority to reclassify and abolish vacant positions within state departments and agencies that are under the jurisdiction of the department of human resources development, subject to the following conditions:
  - a. Prior to reclassifying or abolishing any vacant position as provided under this paragraph, the director shall submit a report to the legislature no later than twenty days prior to each regular session. The report shall include a list of vacant positions for reclassification or abolishment, identify the agency each position is attached to, provide reasons for reclassifying or abolishing the position, and state the duration the position has been vacant; and
  - b. The director may reclassify or abolish any vacant position as provided under this paragraph no earlier than sixty days after the report has been submitted to the legislature as provided under this paragraph.

The inaugural report was submitted to the 2020 Legislature. No actions were taken to reclassify or abolish any positions in that report in order to establish a baseline assessment of the current situation and challenges among departments in the State of Hawai'i Executive Branch.

The report submitted to the 2021 Legislature identified and recommended 46 positions, vacant prior to 2011, be abolished. Only three of those were abolished in the budget. The report to the 2022 Legislature identified and recommended 63 positions be abolished which had been vacant five years or more. Only one position was abolished by the Legislature. The 2023 Legislature received the annual report that identified 131 positions to be abolished which had been vacant for five years or more. The Legislature abolished five of the recommended positions.

## Vacancy Statistics

Requests to initiate recruitment quickly returned to pre-pandemic levels and DHRD continues to be swamped helping the Executive Branch fill vacancies. DHRD averages about 500 open recruitments on any given day. Table 1 provides the recent years' vacancy data.

**Table 1: Statewide Positions and Vacancies 2018-2023**

Departments	# of Civil Service Positions in HRMS	Filled Positions	Vacant Positions*	NEOGOV Request to Fill (DHRD)	Unaccounted for Vacant Positions^ (Departments)
Reported on 11/01/23	17,566	12,684	4,685	2,018	2,667
		73%	27%	43%	57%

\* Includes seasonal and emergency positions

^ Includes internal vacancy recruitments that departments are holding, prior to an external recruitment where the job is posted on DHRD's website

DHRD tracks the movements of employees in, within, or out of a department. Table 2 shows the statewide count of types of moves out from fiscal year 2017 through fiscal year 2023 for all Executive Branch departments. Each “move out” creates a vacancy within the state.

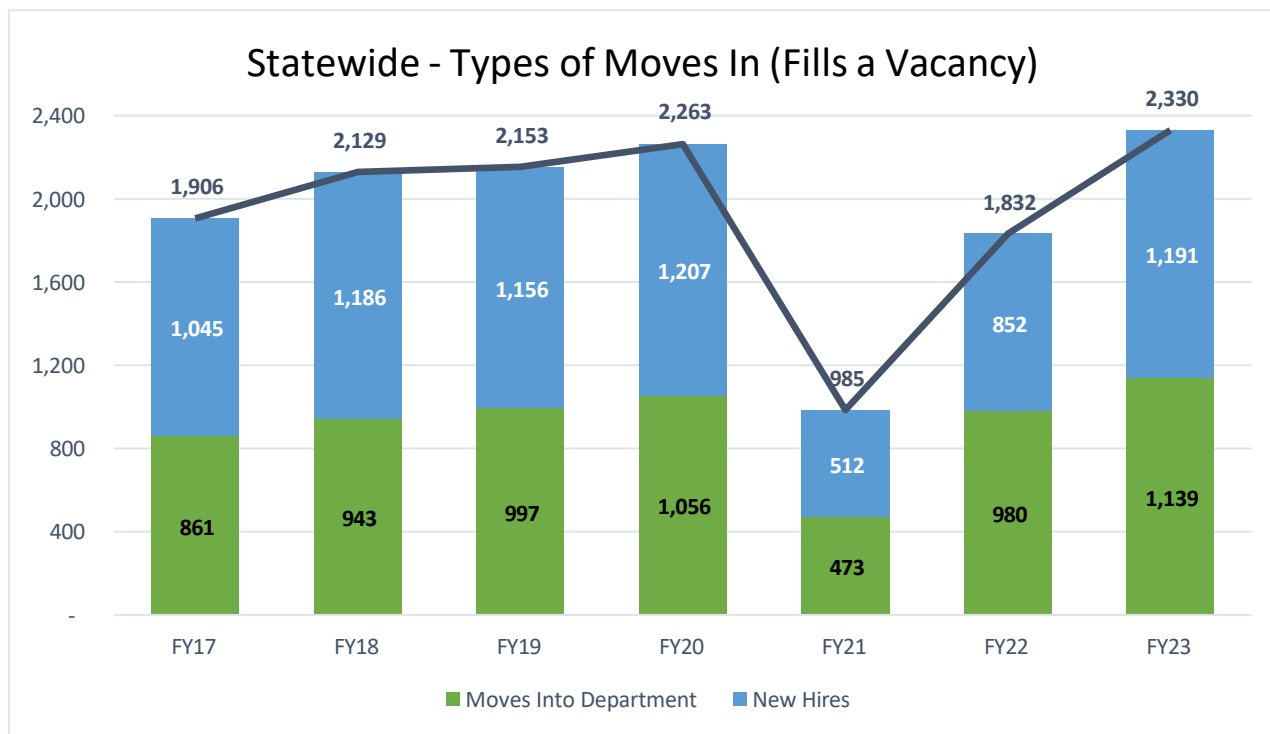

- Moves Within Department are transfers or promotions to permanent, civil service positions. This also includes movements from temporary/exempt/89-day hire appointments into permanent, civil service positions.
- Moves Out of Department means the employee moved to a different position in a different department or has left state government.
- Terminations include both voluntary and in-voluntary terminations.

**Table 2: Statewide Types of Turnover and Moves Out from FY17 – FY23**

Additionally, state employees quite often transfer to a different department for professional growth or a higher paying opportunity. Table 3 displays the statewide total of types of moves into a department, either from the same department or different department, and new hires from fiscal year 2017 to fiscal year 2023. These movements fill a vacancy. The giant dip in FY21 is attributed to the hiring freeze for funded civil service positions imposed by Governor David Ige, which was in place from April 2020 through July 2021, per [Executive Memorandum 20-01](#).

**Table 3: Statewide Types of Moves Into and New Hires from FY17 – FY23**

The breakout of the moves in and out by department can be found in Appendix A.

### Retirement Projections

DHRD’s annual State of Hawai’i Workforce Profile Report submitted to the Legislature each year projects the eligible retirements for the Executive Branch workforce over the next five fiscal years.

Most employees who are eligible to retire have decades of service with the State of Hawai’i and have been intimately involved in state operations for many years. It will be difficult, if not impossible, to easily replace this knowledge base. Additionally, when this happens, the ability of state government to provide services to the public and to other government agencies will be severely limited. This only highlights the need for succession planning to become a priority for the Executive Branch, as 29% of the workforce is eligible to retire in the next five years.

The challenge with succession planning in the Executive Branch lies with the state’s civil service merit-based system. Departments can’t hand-pick a successor for any position, even though they may be highly trained and the logical next leader, since there needs to be a competitive recruitment process for all government positions. Other ideas to provide and allow for succession planning have been floated but would need heavy financial support.

**Table 4: FY2023 – FY2028 Retirement Projections**

## Vacancies by Class of Work in Executive Branch

The State of Hawai'i continues to have a high number of vacant positions in specific classes of work. The data shows the need to ramp up recruitment and retention efforts for these positions.

**Table 5: Largest Vacancies by Class of Work/Series**

Position Title	Number Vacant (2023)	Number Vacant (2022)	% of Total Vacancies
Office Assistant	496	428	11.01%
Adult Corrections Officer III - VII	235	105	5.22%
Adult Corrections Officer Recruit	219	193	4.86%
Human Services Professional	180	142	4.00%
Engineer	143	110	3.17%
Eligibility Worker	121	104	2.69%
Psychiatric Technician	120	7	2.66%

## Recruitment Strategies

With Hawai'i facing an unprecedented labor shortage, the State Recruiting Office realized the importance of utilizing different strategies to attract prospective candidates to State employment. The following outlines a few of the methods focused on this year:

### Outreach/Marketing

In October 2023, to increase efforts to promote the State of Hawai'i Executive Branch as an employer of choice, the State Recruiting Office launched an on-screen advertising campaign with Consolidated Theatres.

A 12-week promotional campaign ran daily from October 9 through December 31, 2023, with 30-second promotional videos presented 2 – 3 times before every movie on all screens at Kāhala, Ward, Pearlridge West, Mililani Cinema 14, 'Olino by Consolidated Theatres, and Kapolei Theatres. Two recruitment videos, created by DHRD staff, were shown on a rotational basis. Each video featured state employees from various career groups such as blue collar/trades, office administration, information technology, law enforcement, and health workers.

DHRD continues to seek additional opportunities to expand our marketing and branding.

#### Targeted Recruitment

Throughout 2023, DHRD continued to utilize social media platforms such as Facebook, Instagram, X (formerly known as Twitter), and LinkedIn to promote our recruitments and job fair efforts. DHRD staff assumed control of the State of Hawai'i LinkedIn page and made the use of LinkedIn's complimentary features. Staff promoted the State of Hawai'i with a company page and utilized their service of posting one job at a time, free-of-charge.

In September and October 2023, in an effort to explore innovative ways of promoting our professional careers via social media platforms, DHRD met with LinkedIn to learn about their Talent Solutions services. The services offered include things such as career pages which allows DHRD to showcase the executive branch and positions on a larger scale; job slot postings which post a specified number of jobs at any given time; recruiter seats which allows for the recruiting team to engage directly with LinkedIn active and passive users; and an automated job wrapping process which automates and expedites postings into the job slots. DHRD is currently in the process of procuring the LinkedIn services.

#### Job Fairs

With applicants having an abundance of career opportunities to choose from, DHRD recognized the importance of having a strong presence at various career fairs and outreach events to personally meet and engage with applicants. The State Recruiting Office worked collectively with state agencies to represent and promote state jobs and benefits afforded to our employees. Having a strong visible presence at these events has helped to draw interest from the attendees.

In the first half of 2023, DHRD participated in five events, including career fairs held by the University of Hawai'i at Mānoa and the University of Hawai'i West Oahu which allowed us to engage with college graduates; as well as to coordinate State participation in events held by the Star Advertiser at the Neil Blaisdell Center, which were open to the general public. In May 2023, DHRD organized a job fair at the Hawai'i State Capitol to recruit outgoing Legislative session staffers. In June 2023, DHRD expanded recruitment efforts by holding a State Executive Branch Career Fair in Kapolei at Ka Makana Ali'i, to promote position vacancies in Central and West O'ahu, which attracted residents from the area.

In the second half of 2023, the State Recruiting Office staff collaborated with other departments to represent the State Executive Branch at 13 career fairs and outreach events to address students graduating with specific degrees. In addition to participating in career events held at the university and the Neil Blaisdell Center, staff participated in career fairs hosted by the American Job Center of Hawai'i, Schofield Barracks Career Submit, and the Hawai'i Technology Development Corporation Holiday Tech Fair. Efforts also included our attendance at two career events held at the Queen Ka'ahumanu Mall in October and November 2023 to assist residents on Maui.

DHRD continues to work with our neighbor island counterparts to partner and participate in their events to assist with filling State vacancies on the neighbor islands.

### SkillBridge

DHRD has applied to the U.S. Department of Defense's SkillBridge program on behalf of the State of Hawai'i. SkillBridge creates a partnership with employers and current active-duty service members and provides the service member an opportunity to receive specific training or participate in an internship or apprenticeship with an employer during their last three to six months of the military service. This program assists the service member with transition to civilian life and will provide training or experience, with the hopes that the service member will apply for a vacant position upon retirement or separation. If the State of Hawai'i is approved as a partner in SkillBridge, we will first focus on IT positions, looking to create partnerships and pathways from active-duty military to filling civil service vacancies. If the program is successful, DHRD plans to expand to other positions including law enforcement, health and social services, business (HR, Administration, Accounting, and Clerical), and blue collar and housing trades.

### Compensation Updates

#### Flexible Hiring Rates (FHR) – BU3 White Collar Non-supervisory, BU4 White Collar Supervisory & BU13 Professional & Scientific

Flexible hiring rates for BU13 independent worker level and above was established as a pilot project in 2013 and officially added as a policy and procedure in October 2014. Due to the difficulty in hiring qualified white collar civil service workers, DHRD developed a similar FHR program for BUs 3 and 4 in 2020 to better compete in the local labor market.

The rationale for this program is to enable State departments to have the option and flexibility to recruit and hire more experienced white-collar, white-collar supervisory, and professional employees by permitting more competitive pay ranges for hiring. Civil service appointments for BUs 3, 4, and 13, and their excluded counterparts, may be made by the appointing authority up to Step I based on the applicant's excess creditable experience.

As of November 2023, FHR has been utilized 325 times for BU13 and 56 times for BUs 3 & 4. The FHR program remains and will continue to be a key tool in the recruitment of skilled workers to the State.

#### Retention and Other Pay Programs

Retention programs are available for departments to retain a key employee who has received a bona fide job offer from another employer. The appointing authority may provide an incentive for the employee to remain with the State if the employee possesses exceptional knowledge, skills, abilities, and competencies that are critical to the department's operations. The retention programs may be used for employees in the Excluded Managerial Compensation Plan, Information Technology Broadbanding, and Licensed Health Care Professional Projects.

Other compensation tools include professional growth and equity adjustments. DHRD is working to expand these pay programs to other classes in the State.

#### Shortage Differential

When there is a labor shortage and difficulty in filling positions, shortage provides a raised hiring rate for the affected positions. On July 16, 2023, the class Building Construction Inspector was declared a shortage category due to the high vacancy rate and recruitment difficulties. Effective December 16, 2023, new entry salaries were increased for the Elevator Inspector and Elevator Inspector Supervisor classes. New entry salaries are provided to help attract qualified applicants to fill vacant positions. In addition, existing employees in the shortage group may receive a shortage differential to aid in retention.

### Hele Imua State of Hawai'i Internship Program

After being involved since the inception of Hele Imua State of Hawai'i Internship Program in September 2022, DHRD and DLIR signed a memorandum of agreement in September 2023 to outline the support that

DHRD would be providing to the internship program. With this agreement, DLIR has detailed an exempt Workforce Program Specialist to DHRD to assist with the internship program and provide supports to the interns, creating a formal training and networking program for the interns to participate in, which provides guidance on skills and qualifications necessary to obtain a civil service position. The overall intent of the internship is to provide interns with quality work experience to prepare them for a job in their desired industry.

**Recommendations**

The Act 57 Annual Report submitted to the 2021 Legislature identified 46 vacant positions in the Executive Branch that had remained unfilled for ten years or more. Of that number only three were abolished in the State Budget, Act 088 (SLH 2021). The Act 57 report submitted to the 2022 Legislature recommended abolishment of 66 positions that had been vacant for five years or more. The Legislature abolished one of those positions in Act 248 (SLH 2022). The report submitted to the 2023 Legislature recommended the abolishment of 131 positions which have been vacant for four years or more, as of December 20, 2022. Nine positions recommended were abolished in Act 164 (SLH 2023).

This year, DHRD continues to recommend various state vacancies for abolishment.

In August 2023, each Executive Branch department was provided a list of their vacant positions that have remained unfilled for more than four years. As DHRD reviewed their justifications for those vacancies, many positions were still showing up in the HR system even though they had been abolished several years prior. Departments were then asked to clean up their entries to reflect accurate position counts.

As of November 1, 2023, 420 civil service positions have been vacant for four years or more. 305 of these positions are in the process of recruiting, re-organizing, or are awaiting approval to hire. This leaves 115 vacant positions recommended for abolishment.

**Table 6: Count of Positions Recommended for Abolishment**

AGR	DEF	HHL	HMS	HSPLS	HTH	LBR	LNR	PSD	TAX	TRN	TOTAL
3	4	3	13	12	17	6	1	3	9	44	115

The specific position titles and departmental justifications for these vacancies that are recommended for abolishment can be found in Appendix B.

**Conclusion**

In recent years, State employees are changing positions or leaving state service faster than departments can fill vacancies, which has caused the State’s vacancy rate to increase. In addition, the Executive Branch faces an aging statewide workforce that is approximately 39% eligible to retire within the next five years.

DHRD is still recovering from the loss of positions and funding during the COVID-19 pandemic. Restoring those positions would better equip DHRD to continue supporting the Executive Branch agencies and increase recruitment efforts. DHRD is actively working to recruit to fill vacancies for all departments as quickly as possible and market the State of Hawai’i as an employer of choice, using a variety of methods and new recruitment tools. This coming year, with appropriate funding, DHRD hopes to conduct a workforce survey to gain better insight into our employees’ needs and ways to support them with retention efforts.

DHRD remains committed to creating and providing value to the State of Hawai’i Executive Branch by supporting State agencies with their human resources needs and supporting employees with opportunities for professional development.

TRN	Hwys Div	00008657	Highway Const Inspector IV	Vacant,Position	12/31/2017	Halaw-Kali	OAH					Yes	Yes	No	No	"HWY-O: The MQ's for the HCI IV, and the whole HCI series, is very outdated. You cannot hire a HCI IV unless they have HCI III experience, so we limit ourselves to in-house candidates only. A person outside of the State system would have to start at the HCI I entry level position, and, this has been equated to a journeyman. The pay gap is so large between a journeyman and HCI I, that within the last 5-yr's we've had no one come over from the private sector. We are currently working with HWY-SP to change and update the MQ's for the HCI series in order to attract more talent from the private sector."	Abolish
