P.O. BOX 119, HONOLULU, HAWAI'I 96810-0119 Ph: (808) 586-6000 | Fax: (808) 586-1922 FTS HAWAII GOV

October 18, 2023

The Honorable Ronald D. Kouchi President of the Senate and Members of the Senate Thirty-Second State Legislature State Capitol, Room 409 Honolulu, Hawai'i 96813 The Honorable Scott K. Saiki Speaker and Members of the House of Representatives Thirty-Second State Legislature State Capitol, Room 431 Honolulu, Hawai'i 96813

Aloha Senate President Kouchi, Speaker Saiki, and Members of the Legislature:

Pursuant to HRS section 27-43.6, which requires the Chief Information Officer to submit applicable independent verification and validation (IV&V) reports to the Legislature within ten days of receiving the report, please find attached the report the Office of Enterprise Technology Services received for the State of Hawai'i, Department of Transportation, Highways Division, Financial Management System Project.

In accordance with HRS section 93-16, this report may be viewed electronically at <a href="http://ets.hawaii.gov">http://ets.hawaii.gov</a> (see "Reports").

Sincerely,

Douglas Murdock (Oct 18, 2023 14:24 HST)

Douglas Murdock Chief Information Officer State of Hawai'i

## I. Introduction and Summary

#### A. Introduction

Department of Transportation Highways (DOTH) manages the planning, construction, and maintenance of the State of Hawaii's approximate 2,675 lane miles of highway on Oahu, Kauai, Maui, Lanai, Molokai, and Hawaii. DOTH's mission is to provide a safe, efficient, and accessible highway system through the utilization of available resources in the maintenance, enhancement, and support of land transportation facilities. DOTH's primary function is to plan, design, and supervise the construction and maintenance of the State's highway system.

DOTH commissioned an ERP System Integrator (hereinafter referred to as "SI"), in March 2021 to provide an accounting system solution that would modernize certain State of Hawaii, Department of Transportation, Highways Division (DOTH) IT systems, associated systems, and business processes, including fully replacing DOTH's legacy Highways Financial Accounting System (HWYAC) and certain software components of DOTH Districts' AS400 systems.

The new DOTH Financial Management System (H4) will utilize SAP S/4HANA Cloud ERP and will cover DOTH Business Processes of Budget, General Ledger, Accounts Payable, Accounts Receivable, Lease Management, Fixed Assets, Procurement, Project & Grant, Federal Billing, Human Resources, Time and Labor, Payroll, Inventory Management, Plant Maintenance, Reporting, and Analytics.

DOTH also acquired a contract with IT Management Consulting Firm, Ohanasoft (hereinafter referred to as "IV&V"), to provide information technology independent verification and validation consulting services for the implementation of the DOTH Highways Financial Management System. The IV&V contractor's role is to provide an objective, neutral, third-party view of the implementation of the Highways Financial Management System with the intent of protecting the State's interests for success of the project. Throughout the system implementation, the IV&V team will perform ongoing project IV&V activities and will identify issues/deficiencies/risks with the System implementation project, provide feedback and recommendations for mitigation and improvement, and provide on-going reporting on project activities.

The observation, feedback, and recommendations provided by IV&V are IV&V's own opinions, and IV&V is not a decision-maker of any activities in the H4 project implementation. IV&V makes no assurance, guarantee, or other promises as to the success of H4 project and is not responsible and not liable for the outcome of the H4 Project.

### B. Summary

Throughout the month of August 2023, the focused activities continued to revolve around Functional Specification Documents (FSDs). The overall project status remained relatively unchanged. The total number of FSD submissions increased by ten, and meetings were held for all modules to review and validate these submissions. However, there has not been a renewed target Go-Live date set since the previous deadline of August 1st, 2023, has passed. One crucial aspect yet to be established is the Project Plan, and it should be regarded as a top priority for the H4 project. Currently, DOTH is awaiting the submission of an updated Project Plan from SI.

Since the beginning of the H4 project, the absence of a mutually agreed-upon and authorized Project Plan has presented a significant and ongoing challenge that remains unresolved. The absence of a project plan has limited the ability to have clear visibility regarding project resources and timelines. There is a substantial number of outstanding tasks and incomplete deliverables, and given the current pace of project progress, it is the opinion of IV&V that establishing a Go-Live date earlier than July 1st, 2024, will be a formidable challenge. Once the project plan, reflecting the current status, is finalized and a definitive Go-Live date is set, it is recommended to initiate a written change order to document the revised project plan, schedule, requirements, scope, training, and any contractual implications.

Regarding Functional Specification Documents (FSDs), the ongoing review and updates continue for all WRICEF items. At the end of August, 138 FSDs had been submitted for review, and DOTH conditionally approved 96 of them. It is worth noting that functional FSDs heavily rely on prior deliverables such as the Process Design Document (PDD), Data Conversion Plan, Requirement Traceability Matrix (RTM), and Fit/Gap analysis. It is consistently observed that some FSDs require additional time and discussions due to insufficient details or missing information from the aforementioned dependent work products. The walkthrough review for the Configuration Design Document (CDD) is scheduled to take place once the majority of Functional Specification Documents (FSDs) have been completed. However, it is advisable that DOTH and SI review and validate CDDs in conjunction with FSDs. This approach is recommended because CDDs encompass the configuration of standard functions critical for establishing a system baseline and providing solutions for over 480 requirements in Wave I.

System setup and development activities are currently underway in various areas, and comprehensive and detailed information about these processes is crucial. In light of this, it is recommended to incorporate all discussed details and document them in accordance with the Deliverable Expectation Documents (DED). It is also advised to avoid granting conditional approval for any outstanding deliverables. Reviewing deliverables remain a challenge due to lack of familiarity with SAP knowledge, terminology, and processes. Despite DOTH's earlier request for training, project team training materials have not been provided yet. Consequently, DOTH personnel are required to rely on their recollection and notes or extensive and time-consuming review of the meeting recordings to refresh their understanding and verify the accuracy of the contents discussed in those meetings. No Knowledge Transfer/Training sessions took place in August 2023.

SI and DOTH should engage in a discussion to reach an agreement on their Unit Testing methodologies and its assigned tasks. DOTH emphasizes the importance of its involvement in Unit Testing, which entails the use of structured test cases and scripts aligned with requirements. In contrast, SI's perspective is that SI should handle the testing process and subsequently present the results to DOTH. Resolving these differing viewpoints through discussion and consensus is essential.

In August, two key SI consultants departed from the H4 project: one served as the financial and integration lead, also covering Fixed Assets (FA), and the other worked as the HCM lead, responsible for Human Capital Management (HCM), Timesheet, and Payroll functions. This development intensifies the concerns raised in previous reports, indicating that the H4 project remains understaffed in comparison to the initial resource plan. These departures have the potential to result in a substantial depletion of institutional knowledge and could cause disturbances in the team dynamics and unity within the H4 project. Instead of hiring a new consultant to replace the departing one, SI proposed that the workload of the FA and Financial/Integration lead be distributed among the current consultants. However, this approach could potentially overburden the existing consultants, leading to project delays and slowdowns.

Section: IV&V Dashboard

### B. Observation, Risk, Issues, Subject Category

Section: IV&V Dashboard

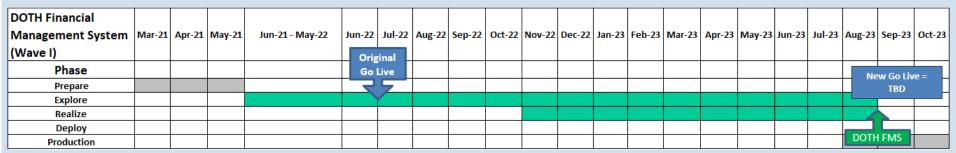

#### C. Total Budget vs. Inception to Date Expenditure, Project Timeline

# Number of Observation, Risk, and Issues by Status

- Original Go-Live date: 7/1/2022
- New Go-Live date: TBD
- Remaining Months (including post-Go-Live support): 2
- Completed Months: 28
- Percentage of Completed Months vs. Total Months: 93.33%
- Percentage of ITD Expenditure vs. Total Budget: 29.78%
- Remaining Budget Balance: \$7,692,763

## **Project Timeline**

H4 is currently in the Explore and Realize Phases. The Explore Phase has been extended with an "ASAP" target date, while the New Go-Live date has yet to be determined. A few Realize Phase activities are ongoing, and Wave 2 (SBP) activities are on hold until the Wave 1 Project Plan is completed.

- Prepare Phase: Define Strategy, Project Initiation, Project Standards, Technical Requirements.
- Explore Phase: Business Workshops and Requirements, Fit-Gap Analysis, Technical Solution Design, Testing Strategy, Training Strategy
- Realize Phase: Functional Specification, Organization Alignment, Knowledge Transfer, Build, Development, Unit Test, Integration Test
- Deploy Phase: Support Plan, Training Delivery, Cutover Plan, User Acceptance, Simulations, Go/No-Go Decision
- Production: Cutover, Go-Live, Hypercare Support, Transition to Operations, Project Closeout

## III. IV&V Findings – Observations, Risk, Issue and Feedback/Mitigation

A. Subject Category: Schedule Management

### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

## Issue

#### ORI ID: I-210531-02

The final Project Plan/Implementation Schedule has not been approved by DOTH and the deliverable is not completed. This is a foundational document for a project management and scheduling, and it is one of the most critical deliverables. Delay in the Project Plan and Implementation Schedule pose decreased confidence in being able to manage project resources efficiently and meet the final Go-Live date. Also, without the Project Plan and the Implementation Schedule DOTH has limited project visibility and it will impact schedule and resource management. It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e., one consultant or DOTH team member working more than 40 hours in a week, etc.)

#### **Feedback/Mitigation/Updates**

It is recommended that SI complete Project Plan/Implementation Schedule as soon as possible.

Project Plan/Implementation Schedule Submission History:

11/16/2020, 12/21/2020, 4/26/2021: The initial project plan was submitted and returned back to SI after DOTH review due to incompleteness.

6/3/2021: The New Target Date for Project Plan/Implementation Schedule is set to 6/11/21 by SI.

6/14/2021: Updated project plan was submitted by SI but returned back to SI due to incompleteness.

7/1/2021: It is currently unknown, at a detail level, if the number of resources are adequate to complete the project on schedule. Earlier versions of the Project Plan were not accepted partly because of oversubscribed resources and incorrect dates (i.e. one consultant or DOTH team member working more than 40 hours in a week, etc.). Updated project plan was submitted by SI but returned back to SI after DOTH review due to incompleteness. Revised Acceptance Date: 8/31/2021

9/02/2021: No updates have been submitted to DOTH.

9/16/2021: DOTH interviewed an assistant project manager candidate on 9/7/2021.

9/30/2021: No updates have been submitted to DOTH.

10/5/2021: SI Assistant Project Manager submitted the revised project plan. DOTH has a meeting with the SI Assistant Project Manager and requested a revision due to the project plan being incomplete.

10/13/2021: SI Assistant Project Manager submitted the revised project plan and DOTH will hold a review meeting on 10/22/2021.

10/25/2021: DOTH had a meeting with the SI Assistant Project Manager to review Project Plan/Implementation Schedule. Progress has been made, however some data such as the dates and % completion need to be corrected.

11/10/2021: SI Assistant Project Manager submitted the revised project plan and DOTH will hold a review meeting on 11/24/2021.

11/24/2021: SI Assistant Project Manager and DOTH Project Manager worked together via Teams and updated and fixed the Project Plan. There will be a follow up meeting.

12/31/2021: SI Assistant Project Manager and DOTH Project Manager worked together via Teams and updated and fixed the Project Plan. It is still not complete.

1/31/2022: No new major update. The document is making incremental progress, however it is not completed yet.

2/28/2022: No new major update. It is still incomplete.

#### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

3/31/2022: The Assistant Project Manager left H4 implementation project. The Project Manager will continue to work on Project Plan/Implementation Schedule.

4/29/2022: No major updates. A new Go-Live date will be set after PDDs are approved by DOTH.

5/31/2022, 6/30/2022, 7/31/2022: No major updates.

8/31/2022: The new assistant project manager will be revising Project Plan/Implementation Schedule with updated Go-Live Date of 7/1/2023. 9/30/2022: No major updates. 10/31/2022: It is recommended that SI complete the Project Plan/Implementation Schedule as soon as possible since the absence of the Project Plan/Implementation Schedule prevents from proper resource planning, meeting schedules, and integrated solution development and this causes issues and inefficiency. The project meetings are not being held cohesively and the project focus is scattered.

11/30/2022: It was expected that after the new Go-Live date was set a revised Project Plan/Implementation Schedule would be prepared, however there is no update to the Project Plan. It is recommended that SI complete the Project Plan/Implementation Schedule as soon as possible. 12/31/2022: Project Plan/Implementation Schedule still has not been submitted to DOTH.

1/31/2023: A high-level project plan was presented during the PMO on 1/26/2023 but the detailed Project Plan/Implementation Schedule has not been submitted to DOTH.

2/28/2023: The Project Plan/Implementation Schedule was submitted to DOTH for review and approval. DOTH reviewed it internally and scheduled a meeting for further review and discussion with SI on 3/1/2023.

3/31/2023: SI submitted the Project Plan/Implementation Schedule for discussion on 3/1/2023 and it was observed that task durations and dates need to be completed based on the current availability of resources and time constraints. DOTH and SI disagree with approaches regarding the resource loading to the Project Plan. They are in the process of working through the details and finalizing the Project Plan/Implementation Schedule.

4/30/2023: There are still disagreements between DOTH and SI regarding the resource plan, task duration and deliverables due dates, as well as the Go-Live date.

5/31/2023: DOTH and SI have been working together to agree on the Project Plan/Implementation Schedule, but an agreement has not been reached. This is an important deliverable that requires both parties' attention and it should be completed as soon as possible.

6/30/2023: DOTH and SI planned to meet to work on the Project Plan/Implementation Schedule and it should be completed asap.

7/31/2023: DOTH is waiting for SI's submission of the updated Project Plan/Implementation Schedule. Timely attention from both parties is imperative for the completion of this crucial deliverable at the earliest opportunity.

8/31/2023: DOTH is currently awaiting submission of the updated Project Plan/Implementation Schedule from SI.

#### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

ORI ID: I-220331-02

The Go-Live date of Wave 2 for Budget and Planning (SBP) has not been set yet.

**Impact** 

## Feedback/Mitigation/Updates

The Go-Live of Wave 2 for Budget and Planning (SBP) needs to be set as soon as possible because it impacts the project plan, resource scheduling, and project management. It is recommended to weigh the pros and cons of merging Wave 1 and Wave 2 given that there is significant delay in the project progress.

#### Schedule Management: Observation, Risk, Issue and Feedback/Mitigation

4/29/2022: No major updates. In accordance with meetings and discussions, it should be carefully considered that SBP goes live with other modules at once because it will eliminate any additional reconciliation process and streamline the whole end-to-end budget procedures if SBP goes live at the same time as FM.

5/31/2022: The issue of not discovering SBP functions and incorporating them into the current solution design was discussed again during the Project System PDD review. It is recommended that SBP functions and features need to be reviewed and considered when developing solution designs for Fund Management, Project System, FHWA requirements.

6/30/2022: No major updates.

7/31/2022: No major updates.

8/31/2022: No major updates.

9/30/2022: SI will provide additional information for SBP or its replacement application, because SBP is planned to be unsupported in the near future.

10/14/2022: SI stated that Wave 2 would start in November 2022. However, the Go-Live date of Wave 2 has yet to be determined.

11/15/2022: SI is working with DOTH resources and preparing for a Kickoff meeting.

12/21/2022: Wave 2 SBP Budgeting Kick-off meeting was held.

1/31/2023: SI is working on the Prepare Phase deliverables and preparing project team member training, however the Project Plan for Wave 2 has not been submitted yet and Go-Live date still has not been determined.

2/28/2023: SI provided training on 2/23/2023. No SBP project plan has been submitted to DOTH.

3/31/2023: SI submitted the Project Plan/Implementation Schedule for the Wave 2 Budget and Planning (SBP). It is being reviewed and updated.

4/30/2023: Project Plan/Implementation Schedule for Wave 2 is still being reviewed and updated.

5/31/2023: The Go-Live date of Wave 2 for Budget and Planning (SBP) will not be set until the Project Plan/Implementation Schedule for Wave 1 is completed.

6/30/2023: The Project Plan/Implementation Schedule for Wave 1 has not been completed. Therefore, the Go-Live date of Wave 2 for Budget and Planning (SBP) is not set.

7/31/2023: The Go-Live date of Wave 2 for Budget and Planning (SBP) has yet to be established because the H4 Project Team is waiting for the completion of the Project Plan/Implementation Schedule for Wave 1.

8/31/2023: No major updates.

#### B. Subject Category: Resource Management

## Resource Management: Observation, Risk, Issue and Feedback/Mitigation

#### **Observation**

ORI ID: O-230309-01

It is observed that three SI rolled-off consultants without replacement are impacting the project deliverables and this leads to ongoing rediscovery sessions and changes in solution design and processes.

#### Resource Management: Observation, Risk, Issue and Feedback/Mitigation

#### Feedback/Mitigation/Updates

4/30/2023: It is continuously observed that deliverables are being re-worked due to the resource change. This could potentially raise the level of risk for the project.

5/31/2023: The impact of consultants' previous leaving is continuously observed.

6/30/2023: Solution integration appears to require more resources and needs more attention because H4 requires a clearer and more concrete comprehensive system architecture; it should outline how different components will interact and integrate to create the desired solution compared to what is currently presented.

7/31/2023: The integration of the solution seems to demand additional resources and heightened focus. This is due to the necessity for a more robust and attentive approach, as H4 requires a more distinct and comprehensive system architecture. It should explicitly detail the interaction and integration of various components to realize the intended solution that will meet DOTH's requirements.

8/31/2023: The H4 project is experiencing another high turnover among SI consultants. This month, a financial lead and HCM lead have left the project. It is recommended that SI provide new resources to fill these vacant positions, as well as any other necessary positions required for the project.

#### C. Subject Category: Risk/Issue Management

## Risk/Issue Management: Observation, Risk, Issue and Feedback/Mitigation

Issue

#### ORI ID: I-221130-02

Some items from Issue/Risk Log are being discussed without detailed resolution or follow-up.

**Impact** 

## Feedback/Mitigation/Updates

The risks and issues of the H4 Project need to be more proactively managed and respective SMEs should be more engaged regarding the details to ensure the success of the project.

12/31/2022: No major updates.

1/31/2023: It is recommended that all outstanding issues and risks be discussed during the PMO meeting, not just new items.

2/28/2023: No major updates.

3/15/2023: There are 13 unresolved outstanding issues and one new issue found.

4/30/2023: Progress has been made, however there are items that are aging and a quicker follow up and resolution to those issues will help with the project timeline.

5/31/2023: There are 37 items that need to be reviewed - 15 resolved and 22 in progress. There are still old items that need follow up.

6/30/2023: There are 38 items that need to be reviewed - 15 resolved and 23 in progress. There are still old items that need follow up.

7/31/2023: There are 41 items that need to be reviewed - 15 resolved and 26 in progress. There are still old items that need follow up.

8/31/2023: There are 45 items that need to be reviewed - 19 resolved and 26 in progress. There are still old items that need follow up.

#### D. Subject Category: Communication Management

#### Communication Management: Observation, Risk, Issue and Feedback/Mitigation

#### Issue

### ORI ID: I-220131-08

n often are mation on

**Impact** 

There are some requirements and processes that impact multiple modules, including waterfall funding, FHWA, etc. However, information often are siloed and it seems to be not communicated to the other consultants frequently. This results in multiple consultants asking for the information on a same topic each time at different meetings. This item also impacts the subject category of Solution Design and Configuration.

### Feedback/Mitigation/Updates

It is recommended: More coordination and collaboration is needed to design and develop an integrated solution. Proactively communicate with other consultants on topics that may be relevant for another consultant. Meeting recordings should be utilized to understand the relevant topic for the related process in another module. All key project team members to attend the meetings related to critical core requirements such as waterfall funding. Analyze each meeting's agenda to see if there are other consultants that should attend for related information.

2/28/2022: There is another consultant who is leaving the project and a replacement consultant has not participated in a meeting, and these turnovers are adding difficulty to the current communication issue.

3/31/2022: More collaboration is expected among SI consultants where it requires integrated solutions such as Waterfall Funding, FHWA Billing, Labor, etc. When DOTH staff inquiries about solutions that integrate across two or more functions between H4 modules, DOTH staff should also be provided with the integrated solution answer as opposed to separate or siloed bits of information of each H4 module.

4/29/2022: Efforts were made to improve communication and collaboration. (E.g., Rules of Engagement prepared by SI)

5/31/2022: Collaboration made progress. For example, some requirements that impact multiple areas have been referenced by multiple PDDs of different areas. However, there are still some communication improvements to be made between SI consultants.

6/30/2022: More coordination and collaboration could be made where cross module interaction is needed.

7/31/2022: More coordination and collaboration were present during the PDD reviews.

8/31/2022: Some DOTH requirements that were presented and discussed previously were asked to be revisited again in the meetings.

9/30/2022: Improvements still need to be made in communication and collaboration between SI consultants.

10/31/2022: Communication and collaboration still need to improve between SI consultants, especially with three consultants leaving the project.

11/30/2022: It has been observed that during FSD meetings information is not being shared between modules, including basic information which impacts multiple modules. Since this information is not being shared among team members, DOTH has to re-explain basic information multiple times.

12/31/2022: More communication and collaboration are needed for integrated solution design. There have been siloed activities and approaches observed.

1/31/2023: Designing an integrated solution for FHWA and other modules will require additional collaboration effort, teamwork, and cooperation. The issues of siloed information and ununified solution design are still observed between models and cross-business areas where tight integration is needed.

2/28/2023: It is observed that more communication and collaboration are still needed for an integrated solution design. DOTH is still not clear on the end-to-end FHWA System solution.

3/31/2023: The issue regarding an integrated solution design was brought up in a PMO meeting. It was decided that there will be an integration checklist developed to keep track of issues and action items coming out of meetings that impact integration of modules.

#### Communication Management: Observation, Risk, Issue and Feedback/Mitigation

4/30/2023: It is observed that additional communication, collaboration, and comprehensive solution architecture are necessary to achieve a fully integrated solution design as there are information gaps between the modules where the transactions impact each other.

5/31/2023: The lack of an integrated and comprehensive solution design still remains a concern. It is recommended that SI and DOTH work together to resolve this ongoing issue.

6/30/2023: There is an ongoing concern regarding the absence of an integrated and comprehensive solution design. When a meeting is held, it is recommended that all responsible parties join the meeting for best facilitation.

7/31/2023: Some progress has been made through consultants attending meetings of cross-functional areas for integration efforts. For a fully integrated solution design, continuous communication, collaboration, and comprehensive architecture are needed to bridge information gaps between modules and interdependent transactions.

8/31/2023: It is observed that some cross-module dependencies were not fully explored and they may not function as anticipated; inter-module discussion is needed. The challenges of isolated information and a fragmented solution design persist across modules and cross-business areas where seamless integration is crucial.

### E. Subject Category: Contract Management

#### Contract Management: Observation, Risk, Issue and Feedback/Mitigation

Contract Management. Observation, hisk, issue and reeuback/initigation

#### ORI ID: I-230309-03

Issue

SI stated that the unit testing will be conducted by SI consultants only and there will be no participation from DOTH. SI will provide reports showing test results with screenshots instead of unit testing scripts.

**Impact** 

#### Feedback/Mitigation/Updates

It is recommended for SI and DOTH come to an agreement on how the unit testing will be conducted. It may be beneficial for DOTH to be involved in unit testing to ensure requirements are implemented as expected.

3/9/2023: SI stated according to its methodology: 1. unit testing will be conducted based on T-Codes in Business Process Master List (BPML), not by each requirement of DOTH with test scripts and 2. DOTH will participate in the unit testing for WRICEF, but not for standard functionalities. DOTH disagrees and believes that DOTH should participate in all testing regardless of standard function or WRICEF, as defined in the project documents.

4/30/2023: DOTH and SI are in a discussion and working towards finding a mutual agreement.

5/31/2023: Additional discussions are taking place for unit testing DED, however full agreement has not been reached yet.

6/30/2023: DOTH and SI are holding meetings and collaborating towards reaching a mutual agreement.

7/31/2023: No major updates.

8/31/2023: DOTH is currently awaiting updates from SI regarding the Unit Testing approach.

#### Contract Management: Observation, Risk, Issue and Feedback/Mitigation

#### Risk

#### **Impact**

#### ORI ID: R-230309-01

There are various deliverables that are conditionally approved due to missing or incomplete requirements analysis or process discovery and the project team has to engage in rediscover of information for the Project.

#### Feedback/Mitigation/Updates

It is recommended that DOTH avoid conditional approval on any remaining deliverables because many deliverables are interdependent, and some of them are built upon the previous ones. These conditionally approved deliverables could require rework and fixing when errors and omissions are found later, and it could further complicate the project deliverable management and updates.

4/30/2023: No major deliverables this month were impacted by this issue. However, there are few individual FSDs that are conditionally approved and this may increase project risk.

5/31/2023: No major updates.

6/30/2023: No major updates.

7/31/2023: No major updates.

8/31/2023: No major updates.

## F. Subject Category: Requirement Management (Processes, Requirements and Fit/Gap)

## Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

#### Risk

### Impact

#### ORI ID: R-230228-01

FSDs are prepared without in-depth discussion during the RTM and Fit/GAP. An FSD is a final document before the System configuration, therefore it should be as complete as possible. However, there are a lot of discoveries still being made during the FSD sessions.

### Feedback/Mitigation/Updates

It is recommended that the H4 Project Team work on detailed and complete discovery of DOTH requirements without postponing any elements to development and testing. All the details should be discovered by the completion of FSDs. This also impacts Quality Management.

4/30/2023: There were some meetings where detailed information for configuration or reports was suggested to be discovered during the testing phase. It is recommended that all granular details be discovered and documented with the FSDs now rather than postponing until the integration testing. Developers need clear guidance on creating reports and customizing applications, which is why it's crucial for FSDs to be comprehensive and detailed.

5/31/2023: It is recommended that all detailed functional specifications be discussed, reviewed, agreed upon, and documented entirely before moving to the next task, such as Conference Room Pilot.

6/30/2023: Progress is being made on all modules. However, there are some FSDs that need to provide more details and more requirements; processes discussion is needed.

7/31/2023: No major updates.

#### Requirement Management: Observation, Risk, Issue and Feedback/Mitigation

8/31/2023: It is advisable to identify and document all specific details within FSDs at this stage rather than deferring them to the integration testing phase. Reviewing FSDs continues to pose difficulties due to the fragmented and isolated presentation of information. Furthermore, understanding the logic can be quite challenging, particularly due to the limited understanding of SAP processes and functions.

## G. Subject Category: Solution Design and Configuration

#### Solution Design and Configuration: Observation, Risk, Issue and Feedback/Mitigation

#### Observation

#### ORI ID: 0-230524-01

There was a disagreement on the level of detail and how to review and confirm the Configuration Design Document (CDD). DOTH had questions on the CDDs, however not all modules contained detailed enough answers for DOTH to understand them.

## Feedback/Mitigation/Updates

SI will do a walkthrough of the Configuration Design Document with DOTH in the upcoming meetings. It is recommended that SI provide enough details in CDDs and in responses to the questions for DOTH to be able to understand the concept of the design and to be able to do maintenance in the future.

6/30/2023: CDD review meetings have not been scheduled or held yet.

7/31/2023: It is recommended that SI and DOTH review CDDs as soon as possible because a CDD validates the baseline setup for the requirements met by the H4 standard functionalities.

8/31/2023: No major updates.

## H. Subject Category: Reports and Analytics

#### Reports and Analytics: Observation, Risk, Issue and Feedback/Mitigation

## Risk

#### ORI ID: R-221130-03

RTM and FSD are being prepared without in-depth reports discussion and Analysis of Reporting Requirements (ARR) does not provide sufficient information to cover all the details of the reports. Reports are often the final desired outcome of an activity and detail discovery is essential.

#### Feedback/Mitigation/Updates

It is recommended that SI conduct detailed discovery of DOTH reports to ensure all the necessary information for input and output are covered.

12/31/2022: During the FSD discussions, additional details that need to be on the reports have been discovered.

1/31/2023: H4 project team is having deep-dive discussions on WRICEF's requirements, processes, and functional specifications.

2/28/2023: Reports WRICEF FSDs are being reviewed and new discoveries are being made. FSDs are being updated based on discussions.

3/31/2023: New discoveries on reports requirements continue to be found.

4/30/2023: Reports are constantly undergoing new discoveries.

#### Reports and Analytics: Observation, Risk, Issue and Feedback/Mitigation

- 5/31/2023: Further details about the reports have been uncovered and discussed.
- 6/30/2023: WRICEF Reports are being discussed during the FSD sessions but other standard reports in H4 also need to be reviewed.
- 7/31/2023: While WRICEF Reports are reviewed and discussed, it is equally essential to examine the standard reports within H4.
- 8/31/2023: A few standard reports for AP were reviewed during the FSD meetings. Standard report review activities should continue throughout all modules.

### I. Subject Category: Data Conversion

#### Data Conversion: Observation, Risk, Issue and Feedback/Mitigation

Risk

#### **Impact**

#### ORI ID: R-221130-04

Data Conversion strategy and plan documents have not covered the details such as source/target, cleansing, dependencies, and validations. These activities have been deferred to the Realize Phase from the Explore Phase causing delays, rework, or additional work later. WRICEF and detailed data conversion work deferred from the Explore Phase are discussed and performed during FSD sessions.

#### Feedback/Mitigation/Updates

It is recommended to catch up on work deferred from the Explore Phase and to explore Data Conversion materials in detail to finalize the Data Conversion WRICEF in FSD.

12/31/2022: Data conversion discussions are making progress. However, familiarity of H4 terminologies, functions, and processes by DOTH will be needed to adequately review and complete data conversion FSDs.

1/31/2023: FSD meetings are continuously being held to review data conversion specifications, especially to identify source of data that needs to be extract from.

2/28/2023: Data conversion discussions have been held and are making progress.

3/31/2023: It is observed that more explanation and data conversion details, such as sequences and impacts of data conversion upload from various modules, need to be provided by SI for DOTH's better understanding and preparation.

4/30/2023: As FSDs and data conversion are being reviewed, new information about data conversion is constantly being discovered and revealed. However, it is important to note that certain details should have been discussed and clarified during the Explore Phase.

5/31/2023: More details and information regarding Data conversion have been found and discussed.

6/30/2023: AR Customer and GL data conversion FSD were discussed, reviewed, and submitted for questions and comments. Data conversion needs to be performed in an integrated manner and it is recommended that various modules engage in integration discussion for a successful data conversion.

7/31/2023: No major updates.

8/31/2023: Several FM data conversion meetings were convened, during which it became evident that fostering enhanced direct communication among cross-functional business areas was imperative. Consequently, it is recommended that various module leads actively engage in collaborative discussions to guarantee a seamless and successful data conversion process.

#### J. Subject Category: Documentation

#### Documentation: Observation, Risk, Issue and Feedback/Mitigation

#### Issue

#### Impact

#### ORI ID: I-221130-03

It is observed that meeting minutes or action items from the project discussions are not always provided. To-Do lists and summaries of the meetings may have been gathered on individual levels, but this makes it difficult to track the progress as a project team and also challenging to collaborate between project team members.

#### Feedback/Mitigation/Updates

It is recommended to prepare meeting summaries and/or to-do lists from the meetings to efficiently prepare, plan, and navigate the follow up activities and hold efficient meetings.

12/31/2022: No major updates.

1/31/2023: PMO meeting minutes and agenda for weekly standing meetings have been provided. It will help to have meeting minutes for other Realize Phase meetings as well.

2/28/2023: Meeting minutes are required to track action items and to-do tasks. For example, PO match options, H4 values for FAMIS project/Ph/Act fields, Workflow routings, source/object codes, fixed asset funds, payroll accounting entries, etc. Currently, it is difficult to track who needs to perform what task by when without meeting minutes.

3/31/2023: A document such as meeting minutes or an action items list should be compiled after each meeting--as opposed to each individual tracking their own tasks--to share with DOTH and have a cohesive follow up for the various meetings that are taking place.

4/30/2023: No major updates. It is recommended that DOTH and SI develop a standardized procedure for meeting minutes or task lists to track action items effectively.

5/31/2023: Some progress has been made, but it is recommended that meeting minutes and action items be shared on a centralized platform like Teams and ensure they are monitored and followed up.

6/30/2023: No major updates.

7/31/2023: It is recommended to distribute meeting minutes via Word documents and gather action items of various modules in one place using master tracking Excel sheets with details such as due dates and responsible parties through the centralized Teams platform while also ensuring vigilant oversight and prompt follow-up.

8/31/2023: No major updates.

### K. Subject Category: Training and Knowledge Transfer

#### Training and Knowledge Transfer: Observation, Risk, Issue and Feedback/Mitigation

Issue

#### **Impact**

#### ORI ID: I-221031-01

DOTH project team members have not been sufficiently provided instruction and training to actively access H4 and familiarize themselves with H4 functions and processes.

#### Training and Knowledge Transfer: Observation, Risk, Issue and Feedback/Mitigation

### Feedback/Mitigation/Updates

It is recommended that SI provide training and instruction on how to navigate and process basic transactions so that the project team members can be more experienced with H4 and get ready for the System testing, verification, and validation.

11/15/2022: No major updates. It is recommended that DOTH test availability of Dev environment from on and off DOTH network.

12/21/2022: Orientation meeting for Subject Matter Leader Knowledge Transfer was held. No dates for the trainings have been set yet.

1/31/2023: Weekly standing meetings have been started to provide project team member trainings.

2/28/2023: Knowledge Transfer sessions are taking place and training is being provided. However, it is observed that there is a lack of instruction (training material) for the training sessions.

3/31/2023: DOTH requested many times for documented training material to be provided for Knowledge Transfer sessions and SI is working on it.

4/30/2023: There have been additional discussions during PMO meetings for project team member training materials and SI will follow up on it.

5/31/2023: No major updates.

6/30/2023: No major updates.

7/31/2023: No major updates.

8/31/2023: No major updates.

#### L. Subject Category: Production Migration

#### Production Migration: Observation, Risk, Issue and Feedback/Mitigation

Issue

#### ORI ID: I-211028-07

The Initial Deployment Plan was delayed and has not been completed.

**Impact** 

## Feedback/Mitigation/Updates

It is recommended that SI complete the deliverable as soon as possible.

11/18/2021: No major updates. 12/2/2021: No major updates.

12/31/2021: No major updates.

1/31/2022: No major updates.

2/28/2022: No major updates.

3/31/2022: No major updates.

4/29/2022: No major updates.

5/31/2022: No major updates.

6/30/2022: No major updates.

7/31/2022: No major updates.

8/31/2022: No major updates.

### Production Migration: Observation, Risk, Issue and Feedback/Mitigation

9/30/2022: No major updates.

10/31/2022: SI stated that they will follow up and get back to DOTH with updates.

11/30/2022: No major updates.

12/31/2022: The Initial Deployment Plan still has not been submitted to DOTH.

1/31/2023: No major updates.

2/28/2023: No major updates.

3/31/2023: No major updates.

4/30/2023: No major updates.

5/31/2023: : No major updates.

6/30/2023: : No major updates.

7/31/2023: : No major updates.

8/11/2023: : SI submitted the DED.

## IV. Meetings and Discussions Participated for the Month of August 2023

Meetings an	d Discussions		
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230802-1	8/2/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss and review the Funds Reservation process.
M230802-2	8/2/2023	Weekly MVSO GM Discussion	A meeting was held to discuss and review AP invoice process.
M230802-3	8/2/2023	Weekly AR Discussion	A meeting was held to review the TDR FSD.
M230802-4	8/2/2023	Weekly Fixed Asset discussion	A meeting was held to discuss and review the Inventory and Asset Details Report FSDs.
M230803-1	8/3/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230803-2	8/3/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review FSDs with demo: FMIS Inbound Interface, In-Kind Bank, and Payroll.
M230807-1	8/7/2023	Onsite - Discuss Fixed Asset FSD - 17A	A meeting was held to review 17A FSD.
M230807-2	8/7/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the reports FSDs: Contract Ledger, Incomplete Invoice and Payment Transaction, Payroll and Work Order Equipment Cost Distribution, Payroll Variance reports.
M230808-1	8/8/2023	H4 Project Conversion Meeting	An internal DOTH meeting was held to discuss project conversion.
M230808-2	8/8/2023	IV&V report Discussion	A meeting was held for Q&A.
M230808-3	8/8/2023	Onsite - Discuss Fixed Asset FSD - Unit test custom fields on asset master record	A meeting was held to review and discuss FA custom fields.
M230808-4	8/8/2023	Internal Review EGS FSD	An internal DOTH meeting was held to discuss EGS FSDs.
M230808-5	8/8/2023	DOTH SAP Project Discussion	A meeting was held with ETS to discuss the project overview and status.
M230809-1	8/9/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss whether to centralize or decentralize the process of entering Blanket Encumbrance data.
M230809-2	8/9/2023	Weekly MVSO GM Discussion	A meeting was held to discuss and review AP invoice process.
M230809-3	8/9/2023	onsite - Discuss Fixed Asset FSD - Asset Conversion	A meeting was held to review and discuss FA Asset Conversion.
M230809-4	8/9/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.
M230810-1	8/10/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230810-2	8/10/2023	Onsite - Discuss Fixed Asset FSD - Asset Rollforward	A meeting was held to review and discuss FA Asset Rollforward.
M230810-3	8/10/2023	Continued - Discuss Blanket Encumbrance Issue with Tammy	A meeting was held to discuss Blanket Encumbrance process.

	d Discussions	1	1.
Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230810-4	8/10/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss the FSDs for Edit Check/Split Entries and Statistics report.
M230810-5	8/10/2023	Weekly AR Discussion	A meeting was held to review the TDR FSD.
M230811-1	8/11/2023	Review Logistics FSDs	A meeting was held to discuss and review the Purchase Requisition Workflow FSD.
M230814-1	8/14/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the Payroll Variance report.
M230814-2	8/14/2023	Discuss Fund Data Master Conversion	A meeting was held to discuss and review Fund Master Data Conversion.
M230815-1	8/15/2023	H4 Project Conversion Meeting	An internal DOTH meeting was held to discuss project conversion.
M230815-2	8/15/2023	Weekly Fixed Asset discussion	A meeting was held to review 17A FSD.
M230815-3	8/15/2023	HCM Overview	A meeting was held to review and discuss the DMR, TA FSDs.
M230816-1	8/16/2023	Weekly MVSO GM Discussion	A meeting was held to discuss and review AP invoice process.
M230816-2	8/16/2023	FM Budgeting Discussion - FSD FM-	A meeting was held to discuss whether to centralize or decentralize the process of
		C001_FM Budget Balance Conversion	entering Blanket Encumbrance data.
M230816-3	8/16/2023	Review Logistics FSDs	A meeting was held to discuss and review the EGS FSDs.
M230816-4	8/16/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.
M230817-1	8/17/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230817-2	8/17/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss the FSDs of Waterfall Funding Table Maintenance and In-Kind Matching.
M230817-3	8/17/2023	Discuss Deliverable #37 Internal Controls and System Security Plan	A meeting was held to discuss Deliverable #37 Internal Controls and System Security Plan and find a way to obtain an old draft from another project.
M230817-4	8/17/2023	Weekly AR Discussion	A meeting was held to review the FSDs of TDR and Deposit Slip, and Aging report.
M230818-1	8/18/2023	Logistics Weekly Connect	
M230821-1	8/21/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the incomplete invoice/payment transaction reports.
M230821-2	8/21/2023	Discuss FA FSDs Internal	An internal DOTH meeting was held to discuss FA FSDs.
M230822-1	8/22/2023	H4 Project Conversion Meeting	An internal DOTH meeting was held to discuss project conversion.
M230822-2	8/22/2023	Weekly Fixed Asset discussion	An internal DOTH meeting was held to discuss FA FSDs: inventory, Asset Detail, and Roll Forward reports.
M230822-3	8/22/2023	HCM Overview	A meeting was held to review and discuss the TA FSDs.
M230823-1	8/23/2023	Weekly MVSO GM Discussion	A meeting was held to discuss and review AP invoice process.
M230823-2	8/23/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss the FM Budget Balance Conversion FSD.
M230823-3	8/23/2023	Internal pre-interview call	An internal DOTH meeting was held to discuss topics for interview.

Meeting ID	Meeting Date	Meeting Title	Meeting Description
M230823-4	8/23/2023	PMO interview	A interview took place to fill in the HCM vacant position.
M230824-1	8/24/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.
M230824-2	8/24/2023	Discuss FHWA Statistics requirements	A meeting was held to discuss FHWA Statistics Requirements.
M230825-1	8/25/2023	HCM Overview	A meeting was held to review and discuss the Time Entry Validations FSD.
M230825-2	8/25/2023	Logistics Weekly Connect	A meeting was held to discuss and review the PO and Contract Reports FSD.
M230825-3	8/25/2023	Weekly AR Discussion	A meeting was held to review the District TDR process and FSD.
M230825-4	8/25/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss the FHWA Edit Check FSDs.
M230825-5	8/25/2023	Internal PMO	An internal DOTH meeting was held to discuss the current issues of the project.
M230828-1	8/28/2023	Continued - Federal Billing & Project Systems Design Review	A meeting was held to review and discuss Utility Agreement.
M230828-2	8/28/2023	Weekly Meeting for GL/CM/CO/AP	A meeting was held to discuss and review the FAMIS Reconciliation report.
M230828-3	8/28/2023	Discuss FHWA Statistics requirements	A meeting was held to discuss FHWA Statistics Requirements.
M230829-1	8/29/2023	H4 Project Conversion Meeting	An internal DOTH meeting was held to discuss project conversion.
M230829-2	8/29/2023	Weekly Fixed Asset discussion	An internal DOTH meeting was held to discuss FA FSDs: Roll Forward, Vehicles and Equipment Disposals, 17A reports.
M230829-3	8/29/2023	Discuss FHWA Statistics requirements	A meeting was held to discuss FHWA Statistics Requirements.
M230830-1	8/30/2023	Budget Fields Internal	An internal DOTH meeting was held to discuss budget data conversion.
M230830-2	8/30/2023	Weekly MVSO GM Discussion	A meeting was held to discuss and review AP invoice process.
M230830-3	8/30/2023	Weekly FM Budgeting Discussion	A meeting was held to discuss the FM Budget Balance Conversion FSD.
M230830-4	8/30/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss In-Kind Matching, Utility Agreement.
M230831-1	8/31/2023	Weekly Federal Billing & Project Systems Discussion	A meeting was held to review and discuss In-Kind Matching, Utility Agreement, Emergency projects, and CFL project.
M230831-2	8/31/2023	FMS weekly PMO Huddle	A Weekly Project Status meeting was held to report project management status, key milestones, high-level activities, and deliverable status.

## VII. Appendix

## A. Impact Definition

Value	Legend	Description
N/A	N/A	Not Applicable
No Impact	<b>✓</b>	No Impact
Low	L	A priority of <b>Low</b> is assigned if there is a possibility of low impact to product quality, scope, cost, and/or schedule. Minimal disruption is possible and some monitoring is likely needed to ensure priority does not increase.
Medium	M	A priority of <b>Medium</b> is assigned if there is a possibility of moderate impact to product quality, scope, cost, and/or schedule. Some disruption is likely and a different approach may be required. Mitigation strategies should be implemented as soon as feasible.
High	H	A priority of <b>High</b> is assigned if there is a possibility of substantial impact to product quality, scope, cost, and/or schedule. A major disruption is likely and the consequences would be unacceptable. A different approach is required. Mitigation strategies should be evaluated and acted upon immediately.

## B. Status Definition

Status	Description
Open	Observation, risk, or issue is created.
In Progress	Observation, risk, or issue is addressed and is being worked on by the implementation team.
In Dispute	Observation, risk, or issue is not acknowledged or accepted by the implementation team.
Risk Accepted	Observation, risk, or issue is acknowledged or accepted by implementation team but is not being worked on now.
Closed	Observation, risk, or issue is closed.

## C. Subject Category Definition

Subject	Subject Category	Description					
Project Management	Schedule Management	Identify and assess risks and issues that may impact the project completion schedule. This may include analysis of the scale and complexity required, work breakdown and assignments, and assessment of proper planning regarding scope, budget, resources, etc.					
	Resource Management	Identify and assess risks and issues associated with allocating proper resources (e.g. time and expertise) necessary to complete the project.					
	Quality Management	Identify and assess risks and issues to quality, specifically software, functionality, testing, documents, etc. via implementation of internal and external measures and processes established to regulate quality level as needed.					
	Risk/Issue Management	Identify and assess risks and issues to software and deliverables. This may include considering and/or implementing processes to identify, monitor, communicate regarding, and mitigate potential items that could negatively impact the project.					
	Organization Change Management	Identify and assess risks and issues involved in implementing changes necessary to optimize benefits of the new system. This may include end-user education of updated procedures, roles, responsibilities, technology, communication, etc.					
	Communication Management	Identify and assess risks and issues that prevent stakeholders from communicating effectively by assessing their key objectives, developing, and implementing procedures to communicate purposes clearly, and analyzing methods to obtain feedback.					
	Contract Management	Identify and assess risks and issues that could impact the project team's ability to deliver on its contractual commitments such as cost, scope, size, etc.					
	External Impact Management	Identify and assess risks and issues external to DOTH, IV&V, and SI that could impact the following: subcontractors, regulatory, market, customer, weather, etc.					
Implementation	Requirement Management (Processes, Requirements and Fit/Gap)	Identify and assess risks and issues to business process, system software requirements, and fit/gap of process and available functionalities of the software.					
	Solution Design and Configuration	Identify and assess risks and issues to solution design and configuration of the software implementation of the system.					
	Interface and Integration	Identify and assess risks and issues that relate to functionalities that interact with outside system or software.					
	Reports and Analytics	Identify and assess risks and issues to reporting and analytics functionality of the system.					
	Security	Identify and assess risks and issues to security of the system such as authentication, user access control, encryption, or any other items that relate to keeping the information secure.					
	Data Conversion	Identify and assess risks and issues to data conversion process or resulting data when moving data from the old system to the new system.					

Subject	Subject Category	Description						
	Documentation	Identify and assess risks and issues in documentation deliverables.						
	System Testing	Identify and assess risks and issues related to testing the functionalities of the system for the requirements.						
	Training and Knowledge Transfer	Identify and assess risks and issues with training and knowledge transfer of the new system and its use for DOTH business.						
	Production Migration	Identify and assess risks and issues to the system migrating from test environment to production environment.						

	Observation, Risk and Issues (ORI) 8/31/2023																
ORI ID	Type	SI Deliverable / ORI Source	Creation Date	Subject Area	Modules	Summary	Description	Responsible Party	Status	Impact	Probab ility	Feedback / Mitigation	Updates	Review / Target Date	Close Date	Reference ID/Doc	Comments
0-210330-01	Observation	M210330-1	3/30/2021	Schedule Management	N/A	Aggressive Project Plan and Go Live Date	The Prepare Phase was started in March 2011. The major activation in the Propert Phase are the Project Charter, the Project Plan, the Communication Plan, the Project Team Training Plan, the Project Team Training, the CAD Design Workshop, the Organization Change Management Plan, and the ETV Preparation. After completion of the Prepare Plans, starting the Epidore phase in June leaves only 13 months to Go-live and this can be an aggressive project plan.	DOTH/SI	Closed	N/A	N/A	AND and NEW should check and monitor project status and activities to ensure the project is on schedule. June is the busiest month for DOTH preparing for fiscal Year end and SI should be cognizant of it when scheduling the Explore Phase tasks.		6/30/2021	6/30/2021		
O-210407-01	Observation	Email-Ron- 210407	4/7/2021	Resource Management	N/A	Replacement of SI Project Manager	The project manager, Matthew was replaced by John on 4/7/2021. Matthew was involved in contract scope of work, project plan and discussions with DOTH until he left SI.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor if there's a smooth transition in roles and responsibility of SI PM.		5/31/2021	5/31/2021		
O-210429-01	Observation	M210429-1	4/29/2021	Resource Management	N/A	In progress of identifying SI Organization Change Management Lead	SI is currently trying to secure an Organization Change Management Lead personnel.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor to ensure SI brings the Organization Change Management Lead into the project as soon as possible according to the staffing plan (June).	7/2/2011. Organization Change Management Lead will join the implementation team on 7/6/2011.	6/30/2021	6/30/2021		
0-210429-02	Observation	M210429-1	4/29/2021	Schedule Management	N/A	Updating SI project plan	Si is currently updating project plan with correct date and resource assignment. "Updated Project Plan and implementation Schedule" was returned to SI for more completed document with updates to dates and resource assignment, etc.	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor SI project plan updates.	\$1,44/2021. WWW Mid Month Meeting. WWW and DOTH agreed that the project plan should be delivered as soon apossible for project management and schedule. Per meeting, expected updated Project Plan delivery date is \$721/2021.  \$7,88/2021: This observation became an issue.	5/31/2021	5/31/2021	I-210531-02	
0-210505-01	Observation	M210504-1	5/5/2021	Contract Management	N/A	FMS Kick Off Meeting	Kick Off meeting was held on 5/5/2021 and the presentation was well organized and delivered nicely.	SI	Closed	N/A	N/A	N/A		5/31/2021	5/31/2021		
0-210505-02	Observation	M210504-2	5/5/2021	Training and Knowledge Transfer	GL	SAP S/4 ERP Essential Concepts for the DOTH FMS	Overall training went well, however there were some people who couldn't log in and were not also to follow the training and that was not addressed during the training. There also were some minor technical difficulty with switching screen (or may have been switching between presentation decks).	DOTH/SI	Closed	N/A	N/A	There needs to be a process in place where participants are monitored for questions or issues during training. There may need some general training for MS teams presentation (including meeting settings setup, monitoring participants, sharing screen, muting/unmuting participants) usage.		5/31/2021	5/31/2021		
O-210505-03	Observation	M210505-1	5/5/2021	Resource Management	PG	Retirement of HYWAC Resource in Dec 2021	A key DOTH personnel, Chuck for HYWAC will retire in Dec 2021.	DOTH	Closed	N/A	N/A	DOTH should ensure to have a proper knowledge transfer and transition to his successor. DOTH already hired another employee and she's getting trained and prepared to be responsible for HYWAC maintenance and support.		5/31/2021	5/31/2021		
0-210512-01	Observation	M210512-2	5/12/2021	Training and Knowledge Transfer	N/A	Generic Training without focus of DOTH requirements	Project Team Training were conducted by \$1 based on generic functionalities of \$8P. However, \$18 proposal stated "Functional project team training will take place as a Explore activity, and will be delivered by \$1 functional consultants.  This is a differentiator, because the training is not centered on a generic system with a universe of capabilities, but will be focused on DOTIY's system functionality as delivered"	SI	Closed	N/A	N/A	S project manager stated that there would be more Oiscovery Workshop that will review and discuss DOTH's specific requirements and learn how SAP's functionalities will meet DOTH's requirements. It needs to be confirmed in which deliverable that these workshop will be performed in the plan.		5/31/2021	5/31/2021		
O-210513-01	Observation	M210513-1	5/13/2021	Resource Management	N/A	In progress of identifying SI Payroll/HR/Time & Attendance Lead	SI is currently trying to secure a SI Payroll/HR/Time & Attendance Lead.	SI	Closed	N/A	N/A	The Payroll/HR/Time & Labor Leads are currently not identified and PMO and IV&V should check and monitor to ensure SI brings resources into the project by July according to the staffing plan.		7/31/2021	7/31/2021		
O-210513-02	Observation	Email-Ron- 20210513	5/13/2021	Schedule Management	N/A	Project Team Training Plan document hasn't submitted by SL	Project Team Training (SI Wave1/Seq Id: 9) was started without Project Team Training Plan Document submitted to DOTH (SI Wave1/Seq ID: 10).	SI	Closed	N/A	N/A	PMO and IV&V should check and monitor to ensure SI delivers Team Training Plan Document (SI Wave1/Seq ID: 10).	DOTH and SI agreed to skip the training plan since SI conducted the Project Team Training already.	5/31/2021	5/31/2021	O-210617-01	
0-210514-01	Observation	M210514-2	5/14/2021	Training and Knowledge Transfer	N/A	SAP Terminology	DOTH groyect team members stated that during the SAP project team time (introduction to SAP). DOTH project team members had difficulty understanding SAP's terminology and retings SAP's terminology and retings SAP's terminology and standard functions to DOTH's requirements. The introduction to SAP training was mostly centered around SAP standard functionality and did not strongly correlate to DOTH's requirements.	DOTH/SI	Closed	N/A	N/A	Sconsitizants need to learn and be more familiar with DOTH's business requirements along with DOTH's terminology and processes a listed in RP and 5's proposal. Also DOTH project team members should learn and be more familiar with SAP terminologies as well. SI should start to due into DOTH's requirements and conduct the training with DOTH's specific requirements, not only generic SAP standard functions. Cross reference of terminology (SAP & DOTH terminology (SAP) with OTH's requirements, only generic SAP standard functions. Cross reference of terminology (SAP & DOTH terminology (SAP) with OTH's requirements to understand how SAP functionality will work for DOTH's requirements.		5/31/2021	5/31/2021		
O-210514-02	Observation	M210520-1	5/14/2021	Resource Management	N/A	DOTH Project Team Availability	DOTH project team members stated that June through September are the busiest months of the year and expressed concerns on project participation. Fiscal (HWN-59) is the busiest In June and July, Budget (HWN-59) is the busiest in September and October, and Project/Grants (HWN-50) is the busiest in August and September. Each department of DOTH has particularly busy times in a year, but not all at the same time.	DOTH/SI	Closed	N/A	N/A	SI and DOTH's should determine the busy season of the year and the availabilities of SMEs to schedule the meetings around those availabilities of SMEs for efficient and effective use of meeting time without impacting DOTH's regular business scielly. DOTH is waiting for the Project Plan so that DOTH can schedule their time accordingly.		6/30/2021	6/30/2021		
O-210527-01	Observation	Email-Ron- 210527	5/27/2021	Quality Management	N/A	SAP Support Website	ODTI purchased SAP software Icense. As of S76, there is no established account and access for SAP support website. In SAP support website, INSAP brought up that DOTI purchased software Icenses and that they should be provided access to the SAP support website that including product information, troubleshooting and direct SAP support.	SI	Closed	N/A	N/A	It is recommended that SI support and follow up with SAP for DOTH to gain access to the SAP support website.	9/7/2011. Act 98/7/2021, there is no established account and access for SAP support website. Stated that it will be evaluable after Development enrormment is intalled. 9/8/2021: SI provided DOTH with access to SAP support website.	9/16/2021	9/16/2021	O-210923-01	
I-210531-01	Issue	M210527-1	5/31/2021	Schedule Management	N/A	Delay in Deliverables	As of \$131/2021, the deliverables of the Communication Plan, the Chart of Accounts Design, the Business Process Organizational Change Management (DCM) Plan, the Project Management (pMP) and the Project Team Training have not been submitted to DOTH or completed yet. They were due on or prior to \$731/2021, which was the end of the Prepare Phase.	SI	Closed	Low	N/A	Is should complete the Communication Plan, the Chart of Account Design, the Business Process Organizational Change Management (OCM) Plan, and the Project Management Plan and submit to DOTH for review as soon as possible.	6/3/2021: The New Target Dates for the following deliverables are set to by S: - Communication Pain. 6/11/2021 - Chair of Accounts Design. 77/2022 - Business Process Organizational Change Management (OCM) Plan: 6/11/2021 - Project Management Plan (PMP): 6/18/2021 - Project Team Training. 6/18/2021	6/30/2021	6/30/2021	0-210615-01	Closed and recreated as I-210615-01

O-211028-08	Observation	M211028-1	10/28/2021	Training and Knowledge Transfer	N/A	Training	DOTH project team members are not familiar with H4 system functions and features for PID review and having difficulty applying them to DOTH's requirements.	DOTH/SI	Closed	N/A	N/A	It is recommended that DOTH project team members request DOTH-specific one-on-one, hands-on trainling and question and asswer sessions for more familiarity with 148 beause the project team training conducted by \$1 in May 2022 was based on generic and high-level non- DOTH specific requirements without much detail, nor live system demo with exercises.	11/18/2021: No requests for trainings have been made. Training for the project team members should be conducted as soon as possible. 12/12/2021: No major updates. 12/13/10021: This litem will be tracked with I-211021-03.	1/31/2022	1/31/2022	F-211021-03	
0-211031-01	Observation	M211028-1	10/31/2021	Resource Management	N/A	Resource Qualification	There are turnovers in SI project team members. Some team members need more time to understand information related to FHWA and DOT processes.	DOTH/SI	Closed	N/A	N/A	SI and DOTH should confirm that the consultants meet the qualifications as stated in the RFP, which includes FHWA experience and DOTH equivalent work experience.	11/18/2021: No major updates. 12/2/2021: No major updates. 12/3/2021: No major updates. 1/31/3/2022: This item will be triaged to I+220131-02 as issue.	1/31/2022	1/31/2022	I-220131-02	
0-211103-01	Observation	M211103-1	11/3/2021	Requirement Management (Processes, Requirements and Fit/Gap)	PM	PM Implementation	Plant Maintenance implementation should not affect Go-Live on 7/1/2021.	DOTH/SI	Closed	N/A	N/A	It is recommended that Plant Maintenance development is scheduled in order to not negatively impact Go-Live date for Wave I. It can go live with Wave II (or it can have its own schedule/Wave). Meanwhile, a manual upload of plant maintenance financial data to GL may need to be considered.	12/12/2012: Si reviewing a solution for Plant Maintenance Go-Live date. 12/31/2021: No major updates. 1/31/2022: No major updates. Go-live date is likely to be revised due to current standing of the project irrespective of Plant Maintenance module. This item will be closed and readdressed if necessary in the future.	1/31/2022	1/31/2022		
F211108-01	Issue	M211108-1	11/8/2021	Requirement Management (Processes, Requirements and Fit/Gap)	BD	Budget and Planning (SBP)	Budget and Planning (SBP) is a part of the H4 solution and it is supported to employees budget transcritons, including ODITh's budget prep, execution, A-15, A-19, and A-21. Will remain in Funds Management until Budget and A-21 will remain in Funds Management until Budget and A-21 will remain in Funds Management until Budget and A-21 will remain in Swalphing to A-15, A-19, and A-21 will remain in Swalphing to A-15, A-19, and A-21. Will remain sometime to swalphing to A-15, A-19, and A-21.	DOTH/SI	Closed	Medium	N/A	It is recommended that H4 Project Team design a permanent solution that will best if FOOTh budget requirements from its first design by engaging the SBP consultant, instead of postponing designing the solution.	12/J/2012: No major updates. 1/31/3021: No major updates and SI plans to start SBP in a later date. Wave 2 was planned to start SBP in a later date. Wave 2 was planned to start by now, however schedule is postponed. SI plans to start Wave 2 after Wave 1s POD is completed and Explore phase is done. It is recommended to engage SBP consultant in the designing Budger fattled process and module. 2/28/2022: No major updates.	2/28/2022	2/28/2022		There was a discussion session for RM and SBP and implementation will take both modules in account. More details will be discussed in the future, especially since Wave I implementation is delayed and direct coordination with Wave 2 SBP could take place.
0-211115-01	Observation	M21115-1	11/15/2021	Requirement Management (Processes, Requirements and Fit/Gap)	PG	Waterfall Funding Solution	A back-end split waterfall funding solution for PHWA billing is generally more common in the Department of Transportation Highways. However, the Department of Transportation Highways in Hawaii runs on a front-end split waterfall funding with many funds/paperpositions. During the procurement process of a new DOTH Financial Management Systems, SI orroposed and confirmed that a front-end split waterfall funding would fit DOTH's requirements the best. When H4 project started, the financial lead took leadership and discussed a broad overview of how the future front-end split waterfall funding could work in SAP. Son after, the financial lead left 144 project and SI confirmed again that a front-end split waterfall funding is still the best solution for DOTH.	SI	Closed	N/A	N/A	N/A	12/2/2021: No major updates. 12/31/2021: No major updates. 11/31/2022: This Item is triaged to issue: I-220114-01 with the current status and update.	1/31/2022	1/31/2022	1-220114-01	
I-211115-01	Issue	M211115-1	11/15/2021	Resource Management	FB	Consultants for PHWA	Waterfall funding/Spilt is a core critical requirement for H4, however Waterfall funding/Spilt was not discussed as much as it should be throughout the Explore Phase. It only started to be discussed recently as an integrated solution during FHWA Billing session.	SI	Closed	Medium	N/A	It is recommended that waterfall funding/Split solution be designed by SI as soon as possible.	13D/2011.4 whiteboard session is scheduled on 21B/2011. DOTH held a workshop and presented again how DOTH processes Waterfall funding/spit. 131/2022. This item stems from Requirements not being discussed and that will be tracked with 1-210/28-02. Waterfall funding solution is being discussed is tracked with 1-20014-01.	1/31/2022	1/31/2022	I-211028-02, I- 220114-01.	
1-211115-02	Issue	M211115-1	11/15/2021	Resource Management	FB	Consultants for PHWA	Workshop related to Split/Waterfall funding require all consultants to participate because this requirement impacts the various DOTI requirements, including procurement, invoice, psyroll, timesheet, project, etc. However, some consultants did not attend the Split/Waterfall-related workshops.	SI	Closed	Medium	N/A	FIMVA Billing Process starts from cost collection where participation costs are incurred. It involves Fund Management, Requisitions, Purchase Orders, Accounts Payables, and General Ledger. Therefore, respective consultants should atten GFMWA related meetings to collaborate and to develop an integrated solution for waterfall funding and FHWA billing.	13/12/021: No major updates. 12/R/021: No consultants attended the 12/8 Split/Waterfall whiteboard meeting. Because this topic is a critical topic, continuous participation in the meetings related to this topic is a mut. 1/13/1202: No major updates. 1/13/1202: No major updates. 1/2/R/021: Some progress has been made. However, continuous participation is needed to keep making progress. 3/3/12022: Continuous participation is needed to keep making progress.	4/29/2022	4/29/2022		This issue is closed because progress has been made. However, H4 Project Team will keep monitoring.
R-211118-01	Pisk	M211118-1	11/18/2021	Solution Design and Configuration	FB	Waterfall Funding Solution	The consultants do not seem to have experience of FHWA with many appropriations and with front end pslt. These are unique requirements that Hawaii DOTH have that adds to the difficulty of the project for the consultants to understand the process and design the solution. Some consultants have very limited experience in those fields and it amplifies the difficulty. Some explore sessions showed that there are still areas that require better understanding of the processes.	SI	Closed	Medium	Mediu m	There may need to be more sessions for a better and full understanding of the FRMA Billing, front-end split, waterfall funding, many-to-many relationship with appropriations and projects, along with any other module or area that need more information for PDD. The HA Project Team should ensure the implementation consultants meet the qualifications discussed in the RPP.	12/J/2021: No major updates. 12/J/2022: No major updates. 1/3/J/2022: No major updates. Lack of experience with some consultants is becoming more apparent as the deliverables are submitted. This item is being triaged to Issue: F-220131-02	1/31/2022	1/31/2022	I-220131-02	
F-211202-01	issue	M211202-1	12/2/2021	Quality Management	GENERAL	Errors, Omission, inaccuracy in Deliverables	Some ST Deliverables contained errors and misinformation such as incorrect project name, other dism's system architecture, missing/incomplete contents, etc. Eg. Technical Infrastructure Plan/Delign, Project Standard Strategy, Scope Management Strategy, etc.	z	Closed	High	N/A	It is recommended that deliverables are more carefully prepared, reviewed and proofread by 3 document quality team before submitting to DOTH for review.	13.13/2022 ismany has been mainly focused on PDD documents, however the documents were not well standardee. In addition, other documents showing untimely information and documents with noticeably templated information not specified for DDTH are frequently present. 27.14/2022 Technical Infrastructure Plan/Design document was submitted with very generic information and rid also included another client's implementation information. The document should be reworked and resubmitted. 33.13/2022 Continuous monitoring is needed to improve quality of deliverable documents. 47.19/2022 Conly PDDs and MDDS have been submitted and there has been some progress made, but other outstanding documents have not made progress. 57.13/2022: PDD and Technical Infrastructure Plan/Design were submitted and progress was made, but other outstanding documents have not made progress.	6/30/2022	6/30/2022		These issues have not been observed in recent deliverables.
I-211202-02	Issue	M211202-1	12/2/2021	Quality Management	N/A	Process Flow Formatting	Consultants worked on PDDs based on their responsible business areas. This is a result of not going over DOTH requirements first at the beginning of the project. This issue has been raised multiple times but was not resolved. Currently PDD is being developed before RTM is completed.	SI	Closed	High	N/A	RTM needs to be completed as soon as possible to eliminate any requirements that may need more discovery and to confirm that all the requirements went through a proper explore process.	1/31/2022: There was an Utility Agreement meeting and DOTH explained the Utility Agreement requirements and processes.	2/28/2022	2/28/2022		Project team needs to ensure that all the requirements have been covered.
I-220114-04	Issue	M220127-1	1/14/2022	Requirement Management (Processes, Requirements and Fit/Gap)	N/A	PDD/RTM	There are more than 40 PDDs by processes and each module has multiple PDD in four der to understand processes of one module, multiple PDD should be reviewed and validated, which makes it difficult to get a full picture of each module and end-to-end process integration. PDD focused on processes and DDT requirements were not necessarily referenced by PDD documents. With multiple PDD documents covering each module, it is very difficult to know which requirements are covered by a PDD document and it makes it easy to miss a requirement.	ротн/ѕі	Closed	High	N/A	It is suggested that Requirements are fully reviewed and RTM be completed first, or at least parallel to PDO. There are multiple requirements that were missed and had to have late septore sessions because the requirements were not reviewed in full and RTM was not completed.	1,91,7022: There are additional requirements still being discovered as addressed in 1-20111- 03, 1-20131-04. Full review of requirements along with RTM should be treated as a high priority.	2/28/2022	2/28/2022		RTM is in progress and will be reviewed to ensure that all the requirements have been covered.
I-220131-05	Issue	0-210729-05	1/31/2022	Requirement Management (Processes, Requirements and Fit/Gap)	GENERAL	DOTH Critical Core Requirement	A high-level solution for the DOTH critical core requirement, "Accounting for Appropriated, Allotted, and Cash Authority," is still being developed by SI and not approved by DOTH.	DOTH/SI	Closed	Low	N/A	This is a critical core requirement and the solution design needs to be completed as soon as possible as High Priority.	2/28/2022: PODs are being reviewed and updated. 3/31/2022: PODs are being reviewed and updated. Eg., Cash Authority is still being discussed for APPDD. 4/14/2022: and DOTH agreed that a custom cash report will be developed to meet AP cash check requirement. POD is being updated and reviewed.	4/29/2022	4/29/2022		AP PDD is approved with Cash Check solution design which is to develop a custom report equivalent to DOTH Cash Advice report.
I-220131-06	Issue	0-210729-06	1/31/2022	Requirement Management (Processes, Requirements and Fit/Gap)	GENERAL	DOTH Cititical Core Requirement	A high-level solution for the DOTH critical core requirement, "Labor Compression," is still being developed by SI and not approved by DOTH.	ротн/ѕі	Closed	High	N/A	This is a critical core requirement and the solution design needs to be completed as soon as possible as righ Priority.	2/28/2012: PIOS are being updated by S. 3/10/2012: 5) Processed integration process from payroll to finance. There was a discovery session about how DOTH processes labor at FAMIS, DAGS, and HWYAC. The more detailed journal entries and processes need to be reviewed and darfield in the next meeting. 4/28/2012: Payroll meeting was held to reviewe Payroll journals to develop its solution design. 5/3/1/2012: Payroll PiON was reviewed and approved by DOTH. However, there are a few remaining follow-up items that Ha Project. Team needs to work on. E.g., I. When to reclassify abort costs to Federal Appropriation A [Silling and Collection, 3. Temporary Appropriations for billing, etc. 6/3/2012: DOTH is in the process of reviewing journal entries. 7/18/2012: DOTH submitted questions and comments regarding payroll journals to SI. 8/3/1/2012: No only cupates. 9/13/2012: ODTH received responses to the questions DOTH submitted regarding payroll journals entries.	9/30/2022	9/30/2022		It will be noted as an open item in the PDD and will be further reviewed in the Realize phase.
I-220131-07	Issue	0-210729-07	1/31/2022	Requirement Management (Processes, Requirements and Fit/Gap)	GENERAL	DOTH Critical Core Requirement	A high-level solution for the DOTH critical core requirement, "The State Financial Accounting System," has not been finalized yet.	DOTH/SI	Closed	High	N/A	This is a critical core requirement and the solution design needs to be completed as soon as possible as High Priority.	2/28/2022: PDDs are being reviewed and updated. 3/31/2022: PDDs are being reviewed and updated. SI stated that the detailed solution will be created and implemented in Realize Phase.	3/31/2022	3/31/2022

1-220131-08	Issue	M220127-1	1/31/2022	Communication	GENERAL	Intra Team Communication	There are some requirements and processes that impact multiple modifies, including waterfall funding. PMAP. Let Movever, information in often milest and its seems to not be forward, and its seems to not be seems to make the processes of the modifies of the same interest in multiple consultants asking for the same information on the same topic each time at different meetings.	S	In Progress	High	N/A	More coordination and collaboration is needed to design and develop an integrated solution.  Proactively commission with other consonations of necessary and an experimental solution of the consonations.  Meeting recordings should be utilized to understand the relevant topic for the related process in another module.  All key project team members to attend the meetings related to critical core requirements such as waterfall finding.  Analyze each meeting's agenda to see if there are other consultants that should attend for related information.	12/20/20 There is worther computation which is been given property and a registration of travel but has not generalized and in exception and the second computation of the computation o	8/31/1023			
O-220131-01	Observation	M220127-1	1/31/2022	Schedule Management	GENERAL	System Configuration	SI started to configure H4 at risk before approval of PDD.	SI	Closed	N/A	N/A	N/A	2/28/2022: No major updates.  3/31/2022: According to Phase Gate approach, SI is not supposed to configure H4 before fully completing the Explorer Phase. SI is continuing with the configuration and that could be a risk for SI.  4/29/2022: No major updates.  5/31/2022: Most of the PODs are approved at this point. Closing the observation.	5/31/2022	5/31/2022		
1-220201-04	Issue	M220201-1	2/1/2022	Requirement Management (Processes, Requirements and Fit/Gap)	PO	RTM	Si missed reviewing Contract Ledger requirement during Discovery session and recently requested a discussion for this requirement. This is a result of not going over DOTI requirements first in the beginning of the project. This issue has been raised multiple times but suggesting the review of DOTI requirements before or together with PDD was not accepted. Currently PDD is being developed before RTM is completed.	SI	Closed	Medium	N/A	RTM needs to be completed as soon as possible to eliminate any requirements that may need more discovery and to confirm that all the requirements went through a proper explore process.	2/1/2022: There was a discussion on the topic and PDD is being developed.	2/28/2022	2/28/2022		
0-220216-01	Observation	M220216-2	2/16/2022	Training and Knowledge Transfer	N/A	Navigation Training	S provided 144 Navigation training on 2/97,0222. This was the first hands on training provided by SI. There were Project Team Training sessions in the beginning of the project, however these were overview of SAP (introduction to SAP) rather than hands on training for each module.	DOTH/SI	Closed	N/A	N/A	It is recommended to have continuous hands on training sessions.		2/28/2022	2/28/2022	It merged with I- 211021-03.	
R-220223-01	Risk	M220223-2	2/23/2022	Requirement Management (Processes, Requirements and Fit/Gap)	AP	Decentralizing AP Process	was discussed that employees who initiate purchase also enter AP invoices in the Branch. There are a few concerns with this approach: - I raining issue - employees have to learn new process and task - resource concern - resources shifting/reorganization may need to take place from change in workload or over decentralization and additional support - if there are any errors of it troubleshooting is needed then the System Accountant needs to support multiple people - control issue	ротн	Closed	Low	Low	Further discussion is recommended to ensure the new process will be manageable for the Purchase Requisitioner position.	\$3.13.022: No mighor updates.  AJS/R0202: No options for AP invoice matching were presented by \$3 and preferred option turned out to be very error prione, which will have a negative impact on DOTH's decentralized AP invoice entity procedure.  \$7.31.7002: No updates 6,907.0022: No updates.	7/31/2022	7/31/2022		Invoice matching was addressed as an open item in AP PD and will be discussed again during the Realize Phase.
I-220224-01	Issue	M220224-1	2/24/2022	Requirement Management (Processes, Requirements and Fit/Gap)	Ю	Accounting Assignments	The project team discovered that expenditures cannot be charged to both Cost Center and Project at the same time. The current system allows to charge both Cost Center and Project simultaneously and tracks expenditures by Appropriation, Cost Center, Object Codes, and Charge Codes.	ă	Closed	High	N/A	Further discussions are recommended to ensure the expenditures are charged correctly according to DOTH's requirements.	3/31/2022: SI stated that Sub Division and Projects are recorded in Fund Center and WBSE respectively.	3/31/2022	3/31/2022		
O-220224-01	Observation	M220224-1	2/24/2022	Resource Management	GENERAL	Vacation Notice	Vacation notice should be provided at least two weeks in advance, if possible, to the related team members for meetings and resources planning purposes.	DOTH/SI	Closed	N/A	N/A	N/A	3/31/2022: No major updates.	3/31/2022	3/31/2022		
I-220301-01	Issue	M220301-1	3/1/2022	Requirement Management (Processes, Requirements and Fit/Gap)	AP	AP Invoice Matching	According to 3/1/2022 AP meeting, the current H4 does not have a functionality of matching invoices to a specific PO/Contract Stiffs intelly based on the user's need. SI proposed that DOTH creates PO/Contract line with only one suffix line.	SI	Closed	High	N/A	A single suffix line approach does not appear to be a fessible workaround for DOTH business process. An enhancement is needed if a standard functionality cannot meet invoice matching requirement.	3/31/2022: A solution is still being developed by 9.  4/26/2022: Two options for AP Invoice matching were presented by 9. The pros and cons were discussed and the potion 1 seems preferable but customization is required to put data entry validation and to make data entry more user friendly.  5/31/2022: The issue was addressed as an open item in the POD.	6/17/2022	6/17/2022		The PDDs open items will be reviewed during the realize phase.
I-220301-02	Issue	M220303-1	3/1/2022	Contract Management	GENERAL	New Go-Live Date	Original Go-Live date was no longer feasible and a new date was supposed to be set in mid-February. However, no revision has been done for the Go-Live date and currently there is no target date for Go-Live.	SI	Closed	Medium	N/A	A Go-Live date should be set to track progress and to allocate resource accordingly.		3/31/2022	3/31/2022		Consolidated with R- 211028-01

R-221130-02	Risk	M221117-1	11/30/2022	Contract Management	GENERAL	Contract Schedule and Scope	The project is extended beyond the original due data. There was a lord in who done for timen outside the originat cope such as Plant Maintenance Inventory, which did not mainfest. There have been no change orders for these items that are impacting important parts of the 144 Project.	DOTH/SI	Closed	High	High	it is recommended to examine the contract, the schedule, and analyze the fit/gap to make necessary adjustments with change orders as needed.	13/23/DDZ: No major updates. 13/33/DZ3: No major updates. 12/83/2022: No major updates. 12/83/2022: No major updates. It is recommended that 5I and DOTH discuss the need for a change order due to scope change and schedule change.	3/31/2023	3/31/2023		DOTH stated that change orders may be created once the Project Plan/Implementation Schedule is approved by DOTH, which sets an official Go-Live date.
R-221130-03	Risk	M221117-1	11/30/2022	Reports and Analytics	GENERAL	Reports Requirements	RTM and FSD are being prepared without in degth reports discussion and Analysis of Reporting Reniements (ARR) does not provide sufficient information to cover all the details of the reports. Reports are often the final desired outcome of an activity and detail discovery is essential.	SI	Open	High	High	It is recommended that SI conduct detailed discovery of DOTH reports to ensure all the necessary information for input and output are covered.	11/31/2022: During the PSO discussions, additional details that need to be on the reports have been discovered:  1.131/2023: 148 project team is having deep-dive discussions on WRICEF's requirements, processes, and functional specifications.  2.128/2023: Reports WRICEF'SDs are being reviewed and new discoveries are being made.  FSOs are being updated based on discoveries continue to be found.  3.131/2023: New discoveries on reports requirements continue to be found.  4.136/2023: Reports are constantly underging new discoveries.  5.131/2023: Further details about the reports have been uncovered and discussed.  6.730/2023: WRICEF Reports are being discussed during the FSO sessions but offers standard reports in H4 also need to be reviewed.  7.131/2023: WRICEEF Reports are reviewed and discussed, it is equally essential to examine the standard reports within 144.  8.131/2023. A few standard reports of AP were reviewed during the FSD meetings. Standard reports watching a standard reports within 144.  8.131/2023. A few standard reports of AP were reviewed during the FSD meetings. Standard reports out throughout all modules.	8/31/2023			
8-221130-04	Risk	M22117-1	11/30/2022	Data Conversion	GENERAL	Data Conversion Preparedness	Data Corversion strategy and gland documents have not covered the details such as source/langle, cleaning, dependencies, and validations. These activities have been deferred to the Railez Phase from the Explore Phase causing delays, rework, or additional work later. WRICEF and detailed data convention work deferred from the Railez Phase Phase are discussed and performed during FDD sessions.	оотн/я	Open	High	High	It is recommended to catch up on work deferred from the Explore Phase and to explore Data Conversion materials in detail to finalize the Data Conversion WRICCE in FSD.	13/13/1022: Data conversion discussions are making progress. However, familiarity of Nat terminologies, functions, and processes by DOTH will be needed to adequately review and complete data conversion FSDs.  13/13/1022: STO meetings are continuously being held to review data conversion specifications, especially to identify source of data that needs to be extract from.  13/13/1023: St. doserved that more explanation and data conversion details, such as sequences and impacts of data conversion upload from various modules, need to be provided by STO 100TH; better understanding and preparation.  4/13/10223: ASD and data conversion upload from various modules, need to be provided by STO 100TH; better understanding and preparation.  4/13/10223: ASD and data conversion upload from various modules, need to be provided to STO 100TH; better understanding and preparation.  5/13/1023: More details and information regarding Data conversion have been found and account of the state of the st	8/11/1023			
F221130-03	Issue	M221117-1	11/30/2022	Documentation	GENERAL	Meeting Minutes/Follow Up Lists	It is observed that meeting minutes or action items from the project discussions are not always provided. Too lists and summaries of the meetings may have been gathered on individual levels, but its makes in difficult to track the progress as a project team and also challenging to collaborate between project team members.	DOTH/SI	Open	Medium	N/A	It is recommended to prepare meeting summaries and/or to-do late from the meeting to efficiently prepare, plan, and navigate the follow up activities and hold efficient meetings.	13/13/1022: No major updates. 13/13/1023: Polymoreting minutes and agenda for weekly standing meetings have been provided. It will help to have meeting minutes for other Realize Phase meetings as well. 13/12/1023: Polymore minutes are required to track action times and to-do tasks, for example, PO matro options, 144 values for FAMIS project/Phi/Act fields, Worlfloor coolings, source/object codes, fixed asset from this, payoral accounting entities, etc. Certains, the sides to task who needs to perform what task by when without meeting minutes. 146. The perform what task by when without meeting minutes are required to the side of the control of	8/31/2023			
0-221206-01	Observation	M221206-1	12/6/2022	Solution Design and Configuration	GENERAL	FSD Review	There was a meeting to discuss how to improve FSD process, because there are more than 200 documents that need discussion and approxil. The proposed method is to group similar topic FSDs in a batch to discuss in a same meeting.	DOTH/SI	Closed	N/A	N/A	It is recommended to create a plan with FSD groups in advance for efficient and prioritized reviews and meetings.	1/15/2023: No major updates. 1/31/2023: No major updates. 1/31/2023: TSO documents are being reviewed by SI consultants who are covering multiple modules. The proposed method to group similar topic FSOs in a batch is not being utilized yet and the FSO discussions are being held at the documents are submitted and easier ones are being handled first. It will help to have FSO discussions to follow process flow instead of the current ad hot approach. 2/28/2023: Meetings are not being grouped into similar topic FSOs.	3/31/2023	3/31/2023		It was closed because almost half of the FSDs were already discussed and grouping FSDs by process flow may not be necessary at this point.
R-230228-01	Risk	M230223-1	2/28/2023	Requirement Management (Processes, Requirements and Fit/Gap)	GENERAL	iso	FSDs are prepared without in-depth discussion during the RTM and FrigGAP. An FSD is a final document before the System configuration, therefore it about does a complete as possible. However, there are a lot of discoveries still being made during the FSD sessions.	SI	Open	High	High	It is recommended that the H4 Project Team work on detailed and complete discovery of DOTH requirements without postpointing any elements to development and testing. All the details should be discovered by the completion of FSDs.	4/30/2023: There were some meetings where detailed information for configuration or reports was suggested to be discovered during the testing phase. It is recommended that all granular details be discovered and documented with the PSDs on varieth than postponing unit the integration testing. Developers need delar guident with PSDs on varieth than postponing unit the integration testing. Developers need delar guident on creating reports and outsomating applications, which is why it's crucial for PSDs to be comprehensive and detailed. 5/31/2023 it is recommended that all detailed functional specifications the discoursed. 5/31/2023 it is creammended that all detailed functional specifications to be discoursed. 6/30/2023 is repress to being made on all modules. However, there are some FSDs that need to provide more detailed and more requirements; processed discussion is needed. 7/31/2023 is to distribute to identify and document all specific details within FSDs at this stage rather than deferring them to the integration testing phase. Reviewing ESDs continues to post difficulties due to the fragmental and soluted presentation of information. Furthermore, understanding the logic can be quite challenging, particularly due to the limited understanding of SAP processes and functions.	8/31/2023

O-230228-01	Observation	M230223-1	2/28/2023	Contract Management	GENERAL	Fit/Gap	SI submitted a change order for FIt/Gap based on all requirements. DOTH and SI are reviewing and making adjustments to come to an agreement. It is observed that the credit (hours) provided to DOTH for the various requirements appear to be underestimated.	DOTH/SI	Closed	N/A	N/A	It is recommended for SI and DOTH to review Fit/Gap together and come to an agreement.		3/31/2023	3/31/2023		The Fit/Gap deliverable was conditionally approved with a change order.
0-230302-01	Observation	M230302-1	3/2/2023	Solution Design and Configuration	GL	Design of Fund Account Assignment	DOTH requested changes in the number of characters in Fund account assignment based on the FM Budgeting Knowledge Transfer meeting took place on 2/28/2023.	DOTH/SI	Closed	N/A	N/A	DOTH requested changes in the number of characters in Fund account assignment based on the FM Budgeting Knowledge Transfer meeting took place on 2/28/2023.	1,30,2022: DOTH made a decision with ten-digit faund assignment based on the discussion and analysis with S diring the Weekly FM Budgeting Discussion & Knowledge Transfer meeting on 3,80,2023. A change order is being prepared by SI. 5/31,7023: No major updates.	6/30/2023	6/30/2023		6/8/2023: SI stated that the change order would be withdrawn.
0-230307-01	Observation	M230307-4	3/7/2023	Training and Knowledge Transfer	GENERAL	KT Sessions	There was an issue of who could participate in KT sessions. SI and DOTH decided that key project team members could attend KT sessions even though they are registered in the KT roster.	DOTH/SI	Closed	N/A	N/A	N/A		3/31/2023	3/31/2023		
I-230309-03	issue	M230309-2	3/9/2023	Contract Management		Unit Testing	S stated that the unit testing will be conducted by s1 consultants only and there will be no anticipation from DOTH. SI will provide reports showing test results with screenshots instead of unit testing scripts.	ротн/ѕі	In Progress	High	N/A	It is recommended for SI and DOTH come to an agreement on how the unit testing will be conducted. It may be beneficial for DOTH to be involved in unit testing to ensure requirements are implemented as expected.	13/9/2023: Si stated according to its methodology: 1. unit testing will be conducted based on T. Codes in Business Process Master Litt (BMUL), not by each requirement of DOTH with test scripts and 2. DOTH will participate in the unit testing for WRICEF, but not for standard functionalities. DOTH disagrees and believes that DOTH shod participate in all testing regardless of standard function or WRICEF, as defined in the project documents. 4/39/2023: DOTH and 51 are in a discussion and working towards findings mutual agreement. 5/11/2023: DOTH and 51 are holding meetings and collaborating towards reaching a mutual agreement. 7/31/2023: No major updates. 8/31/2023: DOTH is currently availing updates from SI regarding the Unit Testing approach.	8/31/2023			
R-230309-01	Risk	M230302-1	3/9/2023	Contract Management	GENERAL	Conditional Approval	There are various deliverables that are conditionally approved due to mixing or incomplete requirements analysis or process discovery and the project team has to engage in rediscover of information for the Project.	DOTH/SI	In Progress	High	High	It is recommended that DOTH avoid conditional approval on any remaining deliverables because many deliverables are interdependent, and some of them are built upon the previous ones. These conditionally approved deliverables could require rework and fixing when errors and omissions are found later, and it could further complicate the project deliverable management and updates.	4/30/2023: No major deliverables this month were impacted by this issue. However, there are few individual ESDs that are conditionally approved and this may increase project risk. 5/11/2023: No major updates. 6/30/2023: No major updates. 6/30/2023: No major updates. 8/31/2023: No major updates.	8/31/2023			
O-230309-01	Observation	M230309-2	3/9/2023	Resource Management	GENERAL	Resource Planning	It is observed that three SI rolled off consultants without replacement are insecting the project deliverables and this leads to ongoing rediscovery sessions and changes in solution design and processes.	DOTH/SI	In Progress	N/A	N/A	N/A	4/30/2023: It is continuously observed that deliverables are being re-ordered due to the resource change. This could potentially size the level of risk of the project. 5/31/2023: The impact of consultants' previous leaving is continuously observed. 6/30/2023: Soliton integration appears to require more resource and meets more attention because 14 requires a cleaver and more concrete comprehensive system architecture; it should outline how different components will interest and integrate to create the desired solution compared to what is currently presented. 7/31/2023: The integration of the solution seems to demand additional resources and heightened focus. This is due to the necessity for a more robust and attentive approach, as 144 requires a more distinct and comprehensive system architecture. It should established details the requires a more distinct and comprehensive system architecture. It should established details the resource of the received of the received of the resource of the received of the received of the resource of the received of the re	8/31/2023			
O-230331-01	Observation	M230331-5	3/31/2023	Solution Design and Configuration	GENERAL	Project Activities	The main project activities with DOTH were Functional Specification Document (FSD). As of 3/31/2023, out of 211 FSDs total, 3 submitted 96 FSDs, and DOTH approved 79 FSDs. More meeting sessions, such as for Security and Definition/Roles and Responsibilities, and Knowledge Transfer took place simultaneously.	DOTH/SI	Closed	N/A	N/A	It is recommended that Project Plan and implementation Schedule be completed as soon as possible for the visibility of the timeline, Go-live date, task dependencies, and resource plan.	4/28/2023: Out of 211 F50s total, SI submitted 101 F50s, and DOTH approved 79 F50s.	5/31/2023	5/31/2023		It is merged with I- 210531-02.
R-230525-01	Risk	M230525-2		Contract Management		Deliverables	Some deliverables were started being worked on, submitted, and invoiced before OED was approved.	SI	Closed	Medium	Mediu	after approval of DED per Contract, "Attachment SS, A Deliverable Expectation Document that describes Acceptance Criteria for each Deliverable and Service subject to Acceptance Tests. Each DED is a Deliverable that must receive Acceptance prior to beginning work on the Deliverable to which it applies."	6/30/2023: DED is being prepared for Project Team Training.	7/31/2023	7/31/2023		It is closed for now but will continue to be monitored for any deviation.
O-230524-01	Observation	M230524-3	5/24/2023	Solution Design and Configuration	GENERAL	Deliverables	There was a disagreement on the level of destal and how to review and confirm the Configuration Design Document (CDD), DOTH had questions on the CDDs, however not all modules contained detailed enough answers for DOTH to understand them.	DOTH/SI	In Progress	N/A	N/A	Si will do a walathrough of the Configuration Design Document with DOTH in the upcoming meetings. It is recommended that SI provide enough details in CDDs and in responses to the questions for DOTH to be able to understand the concept of the design and to be able to do maintenance in the future.	6/39/2023: COD review meetings have not been scheduled or held yet. 73/12/2023: It is recommended that SI and DOTH review CDDs as soon as possible because a CDD validates the baseline setup for the requirements met by the MS standard functionalities. 8/31/2023: No major updates.	8/31/2023
