
A BILL FOR AN ACT

RELATING TO ADVANCED PRACTICE REGISTERED NURSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that advanced practice
2 registered nurses provide a wide variety of health care services
3 to people across the State. The legislature further finds that
4 existing law requires each hospital within the State to allow
5 advanced practice registered nurses to practice at the hospital
6 within the full scope of their authorized practice, including
7 practice as primary care providers. Advanced practice
8 registered nurses are also recognized as participating primary
9 care providers for insurance purposes under the State's
10 insurance code.

11 The legislature also finds that certain sections of
12 existing law have not been amended to include advanced practice
13 registered nurses in areas concerning disability determinations
14 for purposes of income tax laws and mental health care
15 directives. Accordingly, these statutes should be expanded to
16 authorize increased participation by advanced practice
17 registered nurses and recognize appropriately trained advanced

1 practice registered nurses as the primary care providers that
2 they are. Authorizing increased participation by advanced
3 practice registered nurses in certain circumstances will further
4 enable improved access to health care services, expedite the
5 processing of paperwork, and provide optimal care at the initial
6 point of access for Hawaii patients, especially in rural and
7 medically underserved areas.

8 The purpose of this Act is to improve patient access to
9 medical care and services by:

- 10 (1) Authorizing advanced practice registered nurses to

3 results in the person's inability to engage in any substantial

20 designee, or the health care provider or the provider's designee

1 who has undertaken primary responsibility for a principal's
2 health care, that includes mental health care."

3 SECTION 4. Section 327G-7, Hawaii Revised Statutes, is
4 amended by amending subsections (d) and (e) to read as follows:

5 "(d) For the purposes of this chapter, the determination
6 that a principal lacks capacity shall be made by the supervising
7 health care provider who is a physician or an advanced practice
8 registered nurse and one other physician, advanced practice
9 registered nurse, or licensed psychologist after both have
10 conducted an examination of the principal. Upon examination and
11 a joint determination that the principal lacks capacity, the
