H.B. NO. ¹⁸²⁷ H.D. 2

A BILL FOR AN ACT

RELATING TO HEALTHCARE WORKFORCE DEVELOPMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1

PART I

2 SECTION 1. The legislature finds that addressing growing 3 shortages in the State's health care workforce is in the public interest and a key priority for the State. The Healthcare 4 5 Association of Hawaii found in its 2022 Healthcare Workforce 6 Initiative survey that there are nearly four thousand openings 7 for non-physician, patient-facing positions in the State's 8 hospitals, nursing homes, clinics, and other health care 9 settings. This workforce shortage can make it difficult for the 10 State's residents to access needed care, especially residents on 11 neighbor islands. The shortage was highlighted and worsened by 12 the coronavirus disease 2019 (COVID-19) pandemic.

13 The legislature recognizes that the Hawaii Healthcare 14 Workforce Initiative, coordinated by the Healthcare Association 15 of Hawaii, offers numerous workforce development programs to 16 help recruit, train, and employ health care workers. These 17 programs include career-path certificates for high school

H.B. NO. ¹⁸²⁷ H.D. 2

students and higher education and certification opportunities
 for nurse aides. These programs have proven successful;
 however, the programs are largely supported by private donations
 and time-limited federal grants. Additional funding is
 necessary to help the initiatives address Hawaii's growing
 health care workforce needs.

Accordingly, the purpose of this Act is to appropriate funds to support the public high school health care workforce certificate program and glidepath program for certified nurse aides and to renovate and equip certain public high school classrooms to make the classrooms more suitable for health care training.

13

PART II

14 SECTION 2. The legislature finds that offering health care 15 training to the State's public high school students will help 16 meet Hawaii's long-term health care workforce needs. The 2022 17 Healthcare Workforce Initiative survey found that there are more 18 than one thousand five hundred open health care positions in the 19 State that could be filled by students immediately after 20 graduation. The public high school health care workforce 21 certificate program is designed to equip high school graduates

3

to fill entry-level health care positions that pay a living wage and offer opportunities for career advancement. The program assists with the costs of tuition, transportation, work uniforms, and other expenses and offers counseling support and career coaching. The average cost per student is approximately \$4,300, and it is estimated that the program can assist approximately one hundred seventy-five students per year.

8 Accordingly, the purpose of this part is to appropriate
9 funds to support the public high school health care workforce
10 certificate program.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$ or so much thereof as may be necessary for fiscal year 2024-2025 to support the public high school health care workforce certificate program; provided that no funds shall be released unless matched using a state-to-private-funds ratio of 3:1.

17 The sum appropriated shall be expended by the department of18 labor and industrial relations for the purposes of this Act.

19

PART III

20 SECTION 4. The legislature finds that preparing high21 school students for their careers in health care requires an

2024-2042 HB1827 HD2 HMS0

Page 3

Page 4

H.B. NO. ¹⁸²⁷ H.D. ²

investment in state-of-the-art classrooms. Giving students 1 access to modern, well-equipped classrooms will make the health 2 3 care field more attractive to students and will allow students 4 to train on equipment that is similar to the equipment that they 5 will use in their future health care roles. Renovated and wellequipped classrooms may also attract more students of native 6 7 Hawaiian and Pacific Islander descent to the health care 8 industry, which will help reduce the educational and economic 9 disparities that exist in these communities. The legislature believes that classroom renovations should be coordinated 10 11 through a public-private partnership with organizations like the Healthcare Association of Hawaii. 12

Accordingly, the purpose of this part is to appropriate
funds to renovate and equip certain public high school
classrooms to be used for health care training.

SECTION 5. There is appropriated out of the general revenues of the State of Hawaii the sum of \$ or so much thereof as may be necessary for fiscal year 2024-2025 for renovating and equipping certain public high school classrooms to be used for health care training through the public high school health care workforce certificate program.

2024-2042 HB1827 HD2 HMSO

H.B. NO. ¹⁸²⁷ H.D. 2

1 The sum appropriated shall be expended by the department of 2 education for the purposes of this Act. 3 PART IV 4 SECTION 6. The legislature finds that the State can help 5 build and retain Hawaii's health care workforce by supporting health care workers who want to earn advanced credentials. 6 7 Without assistance, health care workers may find it difficult to 8 seek continuing education or additional certifications while 9 also working full-time to pay for housing, food, child care, and 10 other necessities. The Healthcare Workforce Initiative's 11 glidepath program for certified nurse aides offers an "earn-and-learn" model that allows nurse aides to become 12 13 licensed practical nurses while maintaining their full-time jobs 14 in health care. The program provides services including tuition 15 assistance, transportation, counseling, food stipends, and other 16 financial assistance and career advice.

17 The legislature notes that there is a high demand in the 18 State for licensed practical nurses. They are especially needed 19 in nursing homes, assisted living facilities, and other senior 20 care settings. The glidepath program for certified nurse aides

2024-2042 HB1827 HD2 HMSO

Page 6

H.B. NO. ¹⁸²⁷ H.D. ²

can assist approximately fifty nurse aides per year in becoming
 licensed practical nurses.

Accordingly, the purpose of this part is to appropriate
funds to support the glidepath program for certified nurse
aides.

6 SECTION 7. There is appropriated out of the general 7 revenues of the State of Hawaii the sum of \$ or so 8 much thereof as may be necessary for fiscal year 2024-2025 to 9 support the glidepath program for certified nurse aides; 10 provided that no funds shall be released unless matched using a 11 state-to-private-funds ratio of 3:1.

12 The sum appropriated shall be expended by the department of13 labor and industrial relations for the purposes of this Act.

14

PART V

15 SECTION 8. In accordance with section 9 of article VII, of 16 the Constitution of the State of Hawaii and sections 37-91 and 17 37-93, Hawaii Revised Statutes, the legislature has determined 18 that the appropriations contained in this Act will cause the 19 state general fund expenditure ceiling for fiscal year 2024-2025 20 to be exceeded by \$, or per cent. The reasons 21 for exceeding the general fund expenditure ceiling are that the

2024-2042 HB1827 HD2 HMSO

- 1 appropriations made in this Act are necessary to serve the
- 2 public interest and to meet the needs provided for by this Act.
- **3** SECTION 9. This Act shall take effect on July 1, 3000.

H.B. NO. ¹⁸²⁷ H.D. ²

Report Title:

DLIR; DOE; Health Care Workforce Development; Appropriation; Expenditure Ceiling

Description:

Appropriates funds to the Department of Labor and Industrial Relations and Department of Education to support health care workforce development programs, specifically the public high school health care workforce certificate program and glidepath program for certified nurse aides. Appropriates funds to renovate and equip certain public high school classrooms to be used for health care training. Effective 7/1/3000. (HD2)
