
A BILL FOR AN ACT

RELATING TO AGRICULTURAL LAND USE POTENTIAL.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State needs to
2 become self-sufficient in growing its own food, as eighty-five
3 to ninety per cent of the State's food is imported.

4 The legislature further finds that forty-two per cent of
5 the State's agricultural land is currently unfarmed and that the
6 government is the largest landowner in the State, owning over
7 1,600,000 acres out of the 4,100,000 acres of total land in the
8 State.

9 Accordingly, the purpose of this Act is to:

10 (1) Require the department of agriculture to contract a
11 third-party entity to compile a report evaluating the
12 agricultural land use potential of certain parcels of
13 state-owned lands; and

14 (2) Appropriate funds for the report.

15 SECTION 2. (a) The department of agriculture shall
16 identify and evaluate each parcel of state-owned land with an
17 area of five acres or more, including land set aside under the

1 Hawaiian Homes Commission Act, 1920, as amended, but excluding
2 commercial, residential, and department of education lands, to
3 determine the agricultural potential of each parcel through the
4 assessment of water availability and other physical elements
5 associated with each parcel.

6 (b) The department of agriculture shall contract a third-
7 party entity to compile a report comprising each parcel of
8 state-owned land with an area of five acres or more, including
9 land set aside under the Hawaiian Homes Commission Act, 1920, as
10 amended, but excluding commercial, residential, and department
11 of education lands. The report shall evaluate each parcel for
12 its agricultural potential for various agricultural crops and
13 livestock production and shall include the following information
14 for each parcel, as applicable:

- 15 (1) Tax map key;
- 16 (2) Total acreage;
- 17 (3) Millions of gallons per day in nearest aquifer;
- 18 (4) Inches per year of rainfall;
- 19 (5) Elevation;
- 20 (6) Nautical direction;
- 21 (7) Subtotal of acres in zones;

- 1 (8) Subtotal of acres in divisions;
- 2 (9) Percentage of total acres per island; and
- 3 (10) Presence of any of the following features:
 - 4 (A) Agricultural lands;
 - 5 (B) Important agricultural lands;
 - 6 (C) Unique lands;
 - 7 (D) Waste lands;
 - 8 (E) Steep lands;
 - 9 (F) Pasture;
 - 10 (G) Dense forest;
 - 11 (H) Wetlands; and
 - 12 (I) Gulches.

13 (c) The department of agriculture shall submit the report
14 of its findings and recommendations, including any proposed
15 legislation, to the legislature no later than twenty days prior
16 to the convening of the regular session of 2025.

17 SECTION 3. In accordance with section 9 of article VII of
18 the Hawaii State Constitution and sections 37-91 and 37-93,
19 Hawaii Revised Statutes, the legislature has determined that the
20 appropriations contained in Act 164, Regular Session of 2023,
21 and this Act will cause the state general fund expenditure

1 ceiling for fiscal year 2024-2025 to be exceeded by
 2 \$ or per cent. This current declaration takes
 3 into account general fund appropriations authorized for fiscal
 4 year 2024-2025 in Act 164, Regular Session of 2023, and this Act
 5 only. The reasons for exceeding the general fund expenditure
 6 ceiling are that:

- 7 (1) The appropriation made in this Act is necessary to
- 8 serve the public interest; and
- 9 (2) The appropriation made in this Act meets the needs
- 10 addressed by this Act.

11 SECTION 4. There is appropriated out of the general
 12 revenues of the State of Hawaii the sum of \$ or so
 13 much thereof as may be necessary for fiscal year 2024-2025 for
 14 the purposes of this Act.

15 The sum appropriated shall be expended by the department of
 16 agriculture for the purposes of this Act.

17 SECTION 5. This Act shall take effect on July 1, 3000.

Report Title:

DOA; State-owned Land; Agricultural Land Use Potential; Report; Appropriation; Expenditure Ceiling

Description:

Requires the Department of Agriculture to contract a third-party entity to compile a report evaluating the agricultural land use potential of certain parcels of state-owned lands. Makes an appropriation. Effective 7/1/3000. (HD1)
