A BILL FOR AN ACT

RELATING TO HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that the State has nearly
 two thousand licensed long-term care facilities serving
 approximately thirteen thousand residents. However, there are
 many care facilities that have closed and others that continue
 to operate without a license or certification by the department
 of health.

7 The legislature also finds that the prevalence of unlicensed care homes and facilities in the State continues to 8 9 pose significant health and consumer protection issues for Hawaii's elderly and vulnerable populations. Over the past 10 11 three years, the department of health has received hundreds of 12 complaints regarding unlicensed care homes and facilities, which has resulted in the closure of several homes and facilities and 13 the significant collection of fines by the department. Since 14 15 December 2019, the department has closed at least seven unlicensed adult residential care homes and two unlicensed 16

special treatment facilities or therapeutic living programs and
 imposed over \$800,000 in fines.

The legislature further finds that unbeknownst to long-term 3 care patients, certain licensed care home operators and other 4 persons are referring or transferring patients to unlicensed 5 care homes and facilities. This illegal practice has cost some 6 7 patients thousands of dollars due to denied insurance reimbursements. The practice also endangers patients' health 8 and safety, as unlicensed care homes and facilities do not have 9 10 to follow required health and consumer protection regulations, 11 which include liability insurance requirements, criminal 12 background checks of employees, building and fire code 13 requirements, standards for qualified staff, and billing and 14 financial record requirements. The tragedy of unlicensed and uncertified care homes is played out daily across the State, 15 16 victimizing kupuna, people with disabilities, and families trying to do the best they can to retain care for the patients. 17 The purpose of this Act is to bolster the department of 18 19 health's enforcement activities to protect the health, safety, 20 and welfare of the State's elderly and vulnerable populations 21 by:
