# A BILL FOR AN ACT

RELATING TO THE STATE BUILDING CODE COUNCIL.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that in 2022, the median  
2 price of a single-family home in the State was \$985,000 and the  
3 median price of a condominium in the State was \$490,000.  
4 Furthermore, in 2022, the cost of residential construction  
5 ranged from \$280 per square foot to \$535 per square foot for  
6 single-family homes. For multi-family homes such as apartment  
7 buildings and condominiums, the cost of residential construction  
8 ranged from \$255 per square foot to \$430 per square foot.

9           The legislature further finds that building codes and  
10 standards passed by the International Code Council add to the  
11 cost of housing construction and reduce affordability. In its  
12 process to determine whether to adopt international standards,  
13 the state building code council should assess the financial  
14 impact of changes to the construction costs, and the impact on  
15 amortized utility costs for single-family and multi-family  
16 dwellings across the State.

1           Accordingly, the purpose of this Act is to require the  
2 state building code council to:

3           (1) Consider the impact of building code standards on the  
4 cost of single-family and multi-family homes built in  
5 the State, including the impact on amortized utility  
6 costs for single-family and multi-family homes; and

7           (2) Include a financial impact assessment on each code and  
8 standard adopted by the state building code council in  
9 its annual report submitted to the governor.

10          SECTION 2. Section 107-24, Hawaii Revised Statutes, is  
11 amended to read as follows:

12          "**§107-24 Authority and duties of the council.** (a) Any  
13 law to the contrary notwithstanding, the council shall establish  
14 the Hawaii state building codes.

15          (b) The council shall appoint a subcommittee comprising  
16 the four council members representing county building officials,  
17 whose duty shall be to recommend any necessary or desirable  
18 state amendments to the codes and standards identified in  
19 section 107-25. Any recommended state amendments shall require  
20 the unanimous agreement of the subcommittee.

1 (c) The council shall adopt, amend, or update codes and  
2 standards identified in section 107-25 on a staggered basis as  
3 established by the council; provided that adoption of a code or  
4 standard shall be within two years of the official publication  
5 date of the code or standard, pursuant to chapter 92, and exempt  
6 from the requirements of chapter 91. If the council does not  
7 adopt a code or standard identified in section 107-25 within the  
8 two-year time period, that code or standard shall automatically  
9 become part of the Hawaii state building code until superseded  
10 by the adoption of an amended version of the code or standard by  
11 the council pursuant to this subsection.

12 (d) The council may appoint other investigative, technical  
13 expertise committees, which may include council members.

14 (e) The council shall consult with general building  
15 contractor associations and building trade associations to  
16 gather information and recommendations on construction practices  
17 and training relevant to building codes and standards.

18 (f) When considering the adoption of any code or standard,  
19 the council shall consult with building industry trade  
20 associations to gather cost data on implementation of the code  
21 or standard to assess the financial impact of the code or

1 standard on the cost of single-family and multi-family homes  
2 built in the State. The council shall also consider the code or  
3 standard's impact on amortized utility costs for single-family  
4 and multi-family homes.

5 ~~[(f)]~~ (g) The council may make expenditures for technical  
6 references, equipment and supplies, and other operating  
7 expenses, and may contract for the conduct of research studies  
8 and other technical services.

9 ~~[(g)]~~ (h) The council may provide education and technical  
10 training and administrative assistance in the form of services  
11 or grants at the state and county levels relating to the  
12 implementation and enforcement of the Hawaii state building  
13 codes adopted pursuant to this part.

14 ~~[(h)]~~ (i) At the end of each fiscal year, the council  
15 shall submit a written report to the governor on the council's  
16 activities, including the codes and standards adopted, amended,  
17 or updated by the council. The written report shall include the  
18 assessment of cost provided by building industry trade  
19 associations on each code and standard adopted by the council to  
20 determine whether the codes and standards substantially benefit  
21 residents of the State."

1 SECTION 3. Statutory material to be repealed is bracketed  
2 and stricken. New statutory material is underscored.

3 SECTION 4. This Act shall take effect on January 1, 2025.

4

INTRODUCED BY: 

# S.B. NO. 2030

**Report Title:**

State Building Code Council; Building Codes and Standards;  
Financial Impact Assessment

**Description:**

Requires the State Building Code Council to assess the financial impact of the adoption of a code or standard on single-family and multi-family homes. Requires the State Building Code Council to also include amortized utility costs when adopting codes or standards. Amends annual reporting requirements for the State Building Code Council to include assessment of costs and determinations of benefit for residents. Takes effect 1/1/2025.
