
A BILL FOR AN ACT

RELATING TO VISITOR IMPACT FEES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I

2 SECTION 1. The legislature finds that Hawaii's natural
3 resources, including reefs, oceans, forests, streams, estuaries,
4 shorelines, and beaches, provide irreplaceable and invaluable
5 benefits to visitors, residents, and the global community.

6 The Hawaii State Constitution makes clear that the State's
7 natural and cultural resources are subject to the public trust
8 and therefore must be managed and protected for the benefit of
9 present and future generations. The Hawaii State Constitution
10 further requires the State and its agencies to protect and
11 enforce Native Hawaiian rights, including traditional and
12 customary practices associated with, and dependent upon,
13 carefully managed and abundant natural resources.

14 The legislature further finds that Hawaii's natural
15 environment faces significant environmental pressure from the
16 heavy use it receives from persons traveling to enjoy the
17 State's natural resources. The current underinvestment in the

1 State's natural resources poses a significant liability to the
2 visitor industry; the stability of natural systems, including
3 food systems and water quality; and the ecosystems, services,
4 fisheries, economic resilience, and health and safety of the
5 State.

6 Hawaii residents currently contribute to the protection and
7 management of natural resources through taxes, environmental
8 care, subsistence, cultural practices, and the exercise of the
9 values and practices embodied in the Hawaii State Constitution.
10 However, with escalating visitor impacts and an increasing
11 global threat to the island ecosystems, there is an immediate
12 need for additional resources to protect, restore, sustain,
13 manage, and conserve natural resources. A regenerative tourism
14 fee has been suggested by the Hawaii tourism authority as a
15 potential means to obtain these critical resources.
16 Accordingly, the legislature finds that it is timely to ask
17 visitors who enjoy and reap benefits of Hawaii's natural
18 resources to further contribute to their protection, care, and
19 restoration.

20 The legislature believes that a license requirement for
21 visitors who enjoy Hawaii's public beaches, trails, parks, and

1 ecosystems could generate the necessary funding each year to
2 offset the adverse impacts of visitors and conserve Hawaii's
3 irreplaceable green infrastructure in perpetuity.

4 The legislature further finds that visitor impact fees,
5 which are also known as "green fees" or "environmental
6 protection fees", have been successfully implemented in many
7 visitor destinations throughout the world, including the
8 Galapagos Islands, New Zealand, and Palau. In these locations,
9 the fees have demonstrated compounding benefits for visitors,
10 residents, and natural landscapes and seascapes.

11 The legislature also believes that it is imperative to
12 raise additional revenues to offset visitor impacts and ensure
13 that a positive environmental legacy is left for future
14 generations. A visitor impact fee provides a reasonable and
15 appropriate way to generate these needed revenues.

16 The legislature believes that establishing a visitor impact
17 fee of \$50 in Hawaii would be a significant and effective way to
18 raise additional revenue to offset visitor impacts and ensure a
19 healthy environment for future generations.

20 Accordingly, the purpose of this Act is to establish a
21 visitor impact fee program, to be administered by the department

1 of land and natural resources, and require a license for
 2 visitors to use Hawaii's public beaches, parks, trails,
 3 coastlines, and environment. The purpose of the visitor impact
 4 fee program shall be to provide sustained funding for the
 5 protection, restoration, regeneration, enhancement, and care of
 6 Hawaii's natural and outdoor recreational resources and build
 7 resilience of these resources to withstand the impacts of
 8 increased visitor use.

9 PART II

 11 amended by adding a new part to be appropriately designated and
