A BILL FOR AN ACT

RELATING TO NURSING FACILITIES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the nursing facility
2 sustainability program was established in 2012 and has served a
3 critical role in strengthening the long-term care system in the
4 State. In the eleven years since its inception, the nursing
5 facility sustainability program has helped long-term care
6 facilities treat the most vulnerable patients in the State,
7 especially low-income individuals who require these services.
8 The program has been carried out in a public-private partnership
9 to ensure that patients in the State can access quality,
10 affordable care.

11 The legislature further finds that, even with this program,
12 nursing facilities in the State face major challenges. These
13 challenges are due in part to the health and financial pressures
14 related to the ongoing coronavirus disease 2019 pandemic.
15 Medicaid is jointly financed by the federal and state
16 governments by statutory formula whereby the federal government
17 pays between fifty per cent and seventy-four per cent, with

1 assistance levels determined by each state's per capita income.
2 States with the lowest per capita income receive higher federal
3 matching rates. Under federal rules, the state share must be
4 public funds that are not federal funds. The legislature finds
5 that public funding to help financially sustain Hawaii's nursing
6 facilities should continue to be assessed through a provider
7 fee, which is currently scheduled to repeal in 2024.

8 The legislature further finds that provider fees exist in
9 forty-nine states and the District of Columbia as a means of
10 drawing down federal funds to sustain their medicaid programs,
11 increase health care providers, and expand medicaid enrollment.
12 Provider fees, which are collected from specific categories of
13 health care providers, may be imposed on different classes of
14 health care services, including inpatient and outpatient
15 hospital and nursing facility services.

16 The legislature finds that a provider fee on nursing
17 facilities in the State has resulted in a substantial increase
18 in medicaid payments without putting additional constraints on
19 the State's budget. The additional federal funds obtained via
20 the fee program authorized by the nursing facility
21 sustainability program has also maintained access to care for

1 medicaid recipients. This has allowed nursing facilities in the
2 State to continue to serve under- or uninsured patients in a
3 timely, effective manner, and helped to ensure the overall
4 sustainability of the health care system in the State.

5 Therefore, the purpose of this Act is to:

6 (1) Preserve access to health care for medicaid recipients
7 by continuing and strengthening the nursing facility
8 sustainability fee program by:

9 (A) Continuing exemptions from the central service
10 expenses assessment and the administrative
11 expenses assessment under sections 36-27(a) and
12 36-30(a), Hawaii Revised Statutes, respectively;

13 (B) Making it permanent; and

14 (C) Appropriating moneys from the nursing facility
15 sustainability special fund; and

16 (2) Repeal chapter 346E, Hawaii Revised Statutes, relating
17 to the nursing facility tax.

18 SECTION 2. Section 36-27, Hawaii Revised Statutes, is
19 amended by amending subsection (a) to read as follows:
