# A BILL FOR AN ACT

RELATING TO NURSING FACILITIES.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the nursing facility 2 sustainability program was established in 2012 and has served a 3 critical role in strengthening the long-term care system in the 4 State. In the eleven years since its inception, the nursing 5 facility sustainability program has helped long-term care 6 facilities treat the most vulnerable patients in the State, 7 especially low-income individuals who require these services. 8 The program has been carried out in a public-private partnership 9 to ensure that patients in the State can access quality, 10 affordable care.

11 The legislature further finds that, even with this program, 12 nursing facilities in the State face major challenges. These 13 challenges are due in part to the health and financial pressures 14 related to the ongoing coronavirus disease 2019 pandemic. 15 Medicaid is jointly financed by the federal and state 16 governments by statutory formula whereby the federal government 17 pays between fifty per cent and seventy-four per cent, with

1 assistance levels determined by each state's per capita income. 2 States with the lowest per capita income relative to the 3 national average receive higher federal matching rates. Under federal rules, the state share must be public funds that are not 4 5 federal funds. The legislature finds that public funding to help financially sustain Hawaii's nursing facilities should 6 continue to be assessed through the nursing facility 7 8 sustainability program's provider fee, which is currently 9 scheduled to repeal in 2024.

10 The legislature further finds that provider fees exist in 11 forty-nine states and the District of Columbia as a means of 12 drawing down federal funds to sustain their medicaid programs, 13 increase the number of health care providers, and expand 14 medicaid enrollment. Provider fees, which are collected from 15 specific categories of health care providers, may be imposed on 16 different classes of health care services, including inpatient 17 and outpatient hospital and nursing facility services.

18 The legislature finds that a provider fee on nursing 19 facilities in the State has resulted in a substantial increase 20 in medicaid payments without putting additional constraints on 21 the State's budget. The additional federal funds obtained via

This has allowed 3 nursing facilities in the State to continue to serve under- or 4 uninsured patients in a timely, effective manner, and helped to 5 ensure the overall sustainability of the health care system in 6 the State. 7 Therefore, the purpose of this Act is to: 8 (1) Preserve access to health care for medicaid recipients 9 by continuing and strengthening the nursing facility 10 sustainability program by: 11 (A) Making it permanent; 12 (B) Making the nursing facility sustainability 13 program fund's exemption from the central service 14 expenses assessment and the administrative 15 expenses assessment under sections 36-27(a) and 16 36-30(a), Hawaii Revised Statutes, permanent; and 17 (C) Appropriating moneys out of the nursing facility 18 sustainability special fund for the purposes of 19 the program; and 20 (2) Repeal chapter 346E, Hawaii Revised Statutes, relating 21 to the nursing facility tax.	1	the nursing facility sustainability program has also maintained	l
