A BILL FOR AN ACT

RELATING TO CIVIL AIR PATROL.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that for more than
2 seventy-five years, the civil air patrol has assisted emergency
3 management agencies throughout the nation with response and
4 recovery efforts during and after a disaster. The civil air
5 patrol is a non-profit organization and an auxiliary of the
6 United States Air Force, and its missions include emergency
7 services, aerospace education, and cadet programs. Civil air
8 patrol members are volunteers who serve as pilots, scanners, and
9 ground crew to fulfill its mission.

10 The legislature further finds that the civil air patrol
11 emergency response and recovery activities have included search
12 and rescue efforts, damage assessments, aerial photography of
13 impacted areas, alerts and notifications, and the transportation
14 of supplies. Most recently, the civil air patrol assisted with
15 the Maui wildfires, providing aerial reconnaissance to help
16 fight the fires once the high winds made it safe to do so.
17 Photographs taken as part of the aerial reconnaissance were used

1 to document and provide detailed information for search and
2 rescue and damage assessment. The civil air patrol also
3 conducted aerial reconnaissance of the State after the severe
4 weather incident in December 2021. Those photographs were
5 instrumental in documenting the damage to roadways on the island
6 of Maui and were included in the State's application for a
7 federal disaster declaration. Similar missions were conducted
8 on the island of Hawaii during the Kilauea volcanic eruptions
9 and on the island of Kauai during the recent flood events. In
10 situations where the State has been threatened by a tsunami, the
11 civil air patrol was called upon to alert remote areas by using
12 speakers mounted to civil air patrol aircraft in areas not
13 serviced by outdoor alert system speakers.

14 The legislature also finds that the Hawaii wing of the
15 civil air patrol conducted these activities for years with state
16 funding for operational expenses. However, that funding ceased
17 in 2019 and was only recently reappropriated in 2023.

18 Accordingly, the purpose of this Act is to appropriate
19 funds for civilian auxiliary aviation operations of the type
20 performed by the civil air patrol.

1 SECTION 2. There is appropriated out of the general
2 revenues of the State of Hawaii the sum of \$ or so
3 much thereof as may be necessary for fiscal year 2024-2025 for
4 civilian auxiliary aviation services, which may include search
5 and rescue, damage assessments, aerial photography of impacted
6 areas, alerts and notifications, and transportation of supplies.

7 The sum appropriated shall be expended by the department of
8 defense for the purposes of this Act.

9 SECTION 3. In accordance with section 9 of article VII of
10 the Hawaii State Constitution and sections 37 91 and 37 93,
11 Hawaii Revised Statutes, the legislature has determined that the
12 appropriations contained in H.B. No. , will cause the state
13 general fund expenditure ceiling for fiscal year 2024 2025 to be
14 exceeded by \$ or per cent. In addition, the
15 appropriation contained in this Act will cause the general fund
16 expenditure ceiling for fiscal year 2024 2025 to be further
17 exceeded by \$ or per cent. The combined total
18 amount of general fund appropriations contained in only these
19 two Acts will cause the state general fund expenditure ceiling
20 for fiscal year 2024 2025 to be exceeded by

1 \$ or per cent. The reasons for exceeding the
2 general fund expenditure ceiling are that:

3 (1) The appropriation made in this Act is necessary to
4 serve the public interest; and

5 (2) The appropriation made in this Act meets the needs
6 addressed by this Act.

7 SECTION 4. This Act shall take effect on July 1, 2024.
