A BILL FOR AN ACT

RELATING TO THE RESIDENTIAL LANDLORD-TENANT CODE AND CHILDREN'S HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State has one of 2 the highest percentages of renter households in the nation, with 3 forty-three per cent of households in the State consisting of 4 renters. The legislature recognizes that the State also has the 5 least amount of affordable housing in the nation, resulting in 6 thousands of Hawaii's families, many of whom are facing 7 eviction, being unable to find alternative housing. The 8 legislature further recognizes that evictions increase 9 homelessness, unemployment, crime, and mental and physical 10 illness. Further, children who experience an eviction often 11 show signs of slower academic progress and other developmental 12 impairments. Ultimately, each eviction results in significant 13 financial and social costs to the evicted household and the 14 surrounding community.

15 The legislature believes that eviction procedures must 16 carefully balance the landlord's need for sufficient enforcement

S.B. NO. 329

1 against the tenant's need for sufficient protection. The 2 legislature further finds that without adequate safeguards, 3 tenants can become targets for abuse during eviction proceedings. Currently, the residential landlord-tenant code 4 5 makes it difficult for tenants to defend themselves against wrongful evictions. While the code clearly outlines landlords' 6 7 responsibilities, it fails to provide tenants with suitable 8 methods of recourse and ways to hold landlords accountable in 9 various situations.

10 The legislature notes that leases, like other contracts, 11 are reciprocal. The Hawaii supreme court has held that 12 landlords cannot require a tenant to pay rent if the tenant does 13 not receive the basic services to which they are entitled. While many states have passed laws specifying that tenants 14 cannot be forced to pay rent for uninhabitable premises, the 15 16 legislature has failed to formally recognize this principle, resulting in a lack of enforcement and numerous unjust and 17 18 illegitimate evictions.

19 The legislature acknowledges that landlords are prohibited 20 from retaliating against tenants who request repairs to their 21 respective homes or complain about health or safety code

1 violations. However, although the residential landlord-tenant 2 code guarantees compensation for other landlord offenses, it 3 also places on the tenant the burden of proving entitlement to 4 compensation for a landlord's retaliation. The result is often 5 that tenants who have been retaliated against are not made 6 whole, allowing landlords to continue these retaliatory 7 practices.

8 The legislature additionally finds that exposure to environmental hazards can cause serious harm to a child's 9 10 health. Environmental hazards in poorly maintained housing can cause developmental delays, lower cognitive function, behavioral 11 disorders, poor executive function, learning disabilities, 12 13 neurobehavioral effects, hypertension, cancer, endocrine 14 disorders, and many other long-term health problems. Socially 15 and economically marginalized families are often most at-risk 16 for these adverse effects since they have more language, time, 17 and financial constraints. Ensuring a basic level of healthy housing will improve health, education, and achievement outcomes 18 19 for the most vulnerable children while minimizing long-term 20 costs to the State.
