# SENATE CONCURRENT RESOLUTION

URGING RETAIL STORES AND PHARMACIES DOING BUSINESS IN THE STATE  
TO ADOPT A POLICY ON A NATIONAL AND LOCAL LEVEL  
GUARANTEEING AN INDIVIDUAL'S UNHINDERED ACCESS TO ALL  
UNITED STATES FOOD AND DRUG ADMINISTRATION-APPROVED  
CONTRACEPTIVES.

1           WHEREAS, the benefits of contraception are widely  
2 recognized and include improved health and well-being, reduced  
3 global maternal mortality, health benefits of pregnancy spacing  
4 for maternal and child health, female engagement in the work  
5 force, and economic self-sufficiency for women; and  
6

7           WHEREAS, ninety-nine percent of women in the United States  
8 who have been sexually active report having used some form of  
9 contraception; and  
10

11           WHEREAS, other benefits of using contraception may include  
12 decreased bleeding and pain with menstrual periods and reduced  
13 risk of gynecologic disorders, including a decreased risk of  
14 endometrial and ovarian cancer; and  
15

16           WHEREAS, according to the 2020 Hawaii Pregnancy Risk  
17 Assessment Monitoring System report, between 2012 and 2016,  
18 approximately forty-seven percent of all pregnancies in Hawaii  
19 were unintended; and  
20

21           WHEREAS, the women most likely to have an unintended  
22 pregnancy in the State were Native Hawaiian, Filipino, or  
23 Pacific Islander; those under twenty years of age, unmarried,  
24 and insured through Medicaid or uninsured before pregnancy;  
25 those who had three or more previous live births; or those who  
26 were at or below one hundred percent of the federal poverty  
27 level; and  
28

1 WHEREAS, unintended pregnancy is related to adverse health  
2 behaviors including late prenatal care; smoking during  
3 pregnancy; placing the infant on their stomach or side to sleep,  
4 which is a major risk factor for sudden infant death; and a  
5 greater likelihood of postpartum depression; and

6  
7 WHEREAS, one issue contributing to unintended pregnancies  
8 is lack of access to contraception, which includes availability,  
9 affordability, insurance coverage, transportation, and  
10 convenience; and

11  
12 WHEREAS, pharmacist refusals to fill contraceptive  
13 prescriptions or provide emergency contraception, as well as  
14 pharmacies that refuse to stock contraceptives, are considerable  
15 barriers to access of this essential health care; and

16  
17 WHEREAS, the placing of condoms behind locked glass is an  
18 access barrier to contraception that likely impacts the role  
19 condoms play in reducing unintended pregnancy and offering  
20 protection against sexually transmitted infections; and

21  
22 WHEREAS, a study conducted by the University of Iowa in  
23 2011 showed an increase in retail sales of condoms when they  
24 were moved from behind locked glass; and

25  
26 WHEREAS, access to comprehensive contraceptive care and  
27 contraceptive methods are an integral component of essential  
28 health care and thus retail stores and pharmacies should adopt  
29 policies that ensure full, unrestricted access to contraception;  
30 now, therefore,

31  
32 BE IT RESOLVED by the Senate of the Thirty-second  
33 Legislature of the State of Hawaii, Regular Session of 2024, the  
34 House of Representatives concurring, that retail stores and  
35 pharmacies doing business in the State are urged to adopt  
36 policies on a national and local level to guarantee an  
37 individual's unhindered access to all United States Food and  
38 Drug Administration-approved contraceptives; and

39  
40 BE IT FURTHER RESOLVED that certified copies of this  
41 Concurrent Resolution be transmitted to the Chief Executive  
42 Officer of Albertsons Companies, Inc.; Chief Executive Officer
