
SENATE RESOLUTION

REQUESTING THE UNIVERSITY OF HAWAII TO DEVELOP A COMPREHENSIVE
PLAN TO ADDRESS STUDENT AND FACULTY HOUSING FACILITY NEEDS
AT THE MANOA CAMPUS.

1 WHEREAS, a shortage of available and affordable housing
2 exists throughout the State; and

3
4 WHEREAS, there is a limited supply of on-campus student
5 housing available for students attending the University of
6 Hawaii and the shortage of housing facilities puts students into
7 the general rental market, further increasing demand for rental
8 housing; and

9
10 WHEREAS, the University of Hawaii at Mānoa (UHM) Student
11 Housing Services program (SHS) is comprised of twenty-one
12 residential buildings; and

13
14 WHEREAS, UHM SHS operates as a special fund pursuant to
15 section 37-52.3, Hawaii Revised Statutes, whereby funding to
16 address deferred maintenance needs in residential facilities
17 operated by SHS is intended to be covered by revenue generated
18 by the SHS program; and

19
20 WHEREAS, a majority of UHM SHS buildings have not undergone
21 any major renovation or improvement since constructed in the
22 1970's, except for renovations and construction of the Hale
23 Aloha towers and Frear Hall in 2008-2009; and

24
25 WHEREAS, the business structure of UHM SHS has historically
26 prioritized affordability, which has now compromised future
27 financial and economic sustainability of affording needed major
28 repairs and affording necessary major renovations of the aging
29 facilities; and

30 WHEREAS, the physical condition of certain on-campus
31 facilities have compromised their ability to remain in service;
32 and

33

1 WHEREAS, the Hale Noelani facility is an on-campus SHS
2 facility comprised of five buildings, originally constructed in
3 1978 and included over five hundred beds; and

4
5 WHEREAS, the Hale Noelani buildings were closed and taken
6 out of service in 2018 due to significant deficiencies in
7 building conditions, necessary maintenance, and urgent repairs
8 whose costs were so substantial that the SHS program lacked
9 sufficient funding and resources to address longer term
10 strategies for improving all student housing facilities; and

11
12 WHEREAS, the revenues of SHS have been barely sufficient to
13 support minimal business operations of SHS since its inception
14 in the 1970s; and

15
16 WHEREAS, it is necessary and essential for the SHS program
17 to re-examine its business operations and structure to find more
18 affordable and financially sustainable approaches to meet its
19 facilities needs for services, like janitorial, custodial, and
20 maintenance services, from both public and private sectors; and

21
22 WHEREAS, the University of Hawaii has executed alternative
23 development models utilizing public-private partnerships for
24 building student housing facilities at the Residences for
25 Innovation and Student Entrepreneurs (RISE) project and the
26 residences for graduate students at the former National Marine
27 Fisheries site; and

28
29 WHEREAS, the University of Hawaii has focused on
30 alternative development models, including housing for graduate
31 students, but has not created a workable plan for current
32 undergraduate housing facilities; and

33
34 WHEREAS, the University of Hawaii also operates faculty
35 housing and offers below-market rates to new faculty members,
36 but does not generate sufficient revenue to help offset the
37 construction of additional faculty housing units; and

38
39 WHEREAS, it is recognized that the University of Hawaii
40 must seek new repair, maintenance, and development models, to
41 include novel approaches to financing the renovation,
42 improvements, and expansions of its existing on-campus housing

1 inventory for students and faculty members, both through public
2 financing or public-private partnership options; and

3
4 WHEREAS, the SHS program should rely on diverse sources of
5 funds to operate and maintain its programs and facilities; and

6
7 WHEREAS, this includes the University of Hawaii
8 establishing a business model that provides a reliable stream of
9 revenue that can sustain its programs and facilities on an
10 ongoing basis, including a long-term facility repair and
11 replacement program; now, therefore,

12
13 BE IT RESOLVED by the Senate of the Thirty-second
14 Legislature of the State of Hawaii, Regular Session of 2024,
15 that the University of Hawaii at Mānoa is requested to develop a
16 comprehensive plan to address undergraduate, graduate, and
17 faculty housing facility needs on the University of Hawaii at
18 Mānoa campus; and

19
20 BE IT FURTHER RESOLVED that the University of Hawaii at
21 Mānoa is requested to redevelop Hale Noelani, increasing its bed
22 space to at least one thousand five hundred beds using the most
23 long-term cost-effective method to both the State, University,
24 and students; and

25
26 BE IT FURTHER RESOLVED that the University of Hawaii at
27 Mānoa is requested to develop a new business model, including
28 the potential of mixed-use or private-public partnerships, that
29 ensures the Student Housing Services program and faculty housing
30 are capable of operating as a self-sustaining, special funded
31 unit; and

32
33 BE IT FURTHER RESOLVED that the University of Hawaii at
34 Mānoa is requested to create a plan within their budget to
35 support in-state residents with demonstrated financial need via
36 a housing allowance, stipend, or similar grant-in-aid to offset
37 the cost of residents to ensure long-term affordability; and

38
39 BE IT FURTHER RESOLVED that the University of Hawaii at
40 Mānoa is requested to furnish a report to the Legislature that
41 contains conceptual business models, operational plans, and
42 financing models consistent with this Resolution no later than

1 twenty days prior to the convening of the Regular Session of
2 2025; and

3

4 BE IT FURTHER RESOLVED that certified copies of this
5 Concurrent Resolution be transmitted to the President of the
6 University of Hawaii System and Chairperson of the Board of
7 Regents of the University of Hawaii.
