**In consideration of  
HOUSE BILL 2478, HOUSE DRAFT 1  
RELATING TO THE PACIFIC MARINE FISHERIES COMPACT**

House Bill 2478, House Draft 1 proposes to authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission (PSMFC) and establishes procedures for selection and succession of commissioners. **The Department of Land and Natural Resources (Department) strongly supports this bill.**

The Pacific States Marine Fisheries Commission (PSMFC) is an interstate compact agency that helps state resource management agencies and the fishing industry sustainably manage Pacific Ocean resources. The PSMFC's mission is "to promote the better utilization of fisheries – marine, shell, and anadromous, which are of mutual concern, and to develop a joint program of protection and prevention of physical waste of such fisheries in all of those areas of the Pacific Ocean over which the compacting states jointly or separately now have or may hereafter acquire jurisdiction." This mission closely aligns with the mission of the Department to work with the people of Hawai'i to manage, conserve, and restore the state's unique aquatic resources and ecosystems for present and future generations.

Although the PSMFC has no regulatory or management authority, it serves a number of vital functions that are relevant to Hawai'i. These include providing a forum for the discussion of interstate fisheries resources management; coordinating research and management projects related to interstate fisheries and making this data available to the public; and dispersing federal fishery disaster funds.

The State of Hawai'i would greatly benefit from becoming a member of the PSMFC as membership would facilitate improved management of state and regional marine fishery resources through increased collaboration with other Pacific states. This increased collaboration increases access to other fisheries scientists and managers with expertise in matters that the state currently lacks. Membership in the PSMFC could also potentially open avenues for federal funding that could be used directly to enhance the management of Hawai'i-based fisheries projects.

Mahalo for the opportunity to provide testimony in support of this measure.
