Comments:

I support this bill if it allows more competition in the market. Including lava and flooding could resolve the problem in my area which is lava zone 2 and since our previous insurance company abandoned us, we were left with no other choice. Only one company and that raised our premiums from \$380 a year to \$5800. An increase like that should be illegal. I would not mind a gradual increase but within a few months we had to come up with that difference. I would support any bill that allows home owners with as many options as possible.
