Comments:

Aloha Chair and Committee Members:

This is what we need; local support for local needs.

Please support this legislation, so that diversified farms like ours are properly supported since none of the individual commodity groups truly encourage diversified operations, so we are left without equivalent support as a result.

As a long-term small-scale farmer, it is vital that HDOA work for the farmers and help where the commercial industries are looking primarily at the "big" players and ignoring the little folk; Hawaii has so many small operations that are left to the side that this legislation will support our success.

Sincerely,

Colehour Bondera

**TESTIMONY OF SHARON HURD
CHAIRPERSON, BOARD OF AGRICULTURE**

BEFORE THE HOUSE COMMITTEE ON ECONOMIC DEVELOPMENT

**WEDNESDAY, FEBRUARY 15, 2023
1:30 PM**

CONFERENCE ROOM 224 AND VIDEO CONFERENCING

**SENATE BILL NO. 1272
RELATING TO AGRICULTURE**

Chairperson Gabbard and Members of the Committee:

Thank you for the opportunity to present testimony on Senate Bill 1272. The purpose of this bill is to establish an fund a full-time program specialist position within the department of agriculture to seek and write grants, provide technical assistance, provide grant program administration, perform needs assessments, make recommendations to the chairperson of the board of agriculture and assist farmers, ranchers and other agricultural operators in applying for and obtaining grants offered by the United States Department of Agriculture and other sources, and to assist them with fulfilling and complying with the requirements of the grants. The Department supports this bill. There is an appropriation requested for the purposes of this measure.

The Department comments that testimony submitted by Ulupono for a similar measure, HB974 included the securing of more than \$15 million in federal funding through the efforts of three grant positions at three agriculture focused non-profits funded by Ulupono from 2020 – 2021 and most recently, in 2022, Ulupono funded a grant writer whose work enabled CTAHR to secure a \$40 million USDA Climate Smart Commodities grant that provides direct funding to Hawaii's farmers and ranchers that practice climate smart agriculture.

The position within the Department will prioritize the federal formula grants (block grants) that are available to Hawaii via an allocation of funds that are awarded upon an approved application and not subject to competition.

It has been announced that through the efforts of the Hawaii Congressional delegation, the Infrastructure Improvement and Jobs Act allocated \$2.8 billion to Hawaii. These are the opportunities the position will pursue.

Thank you for the opportunity to testify on this measure.

Hawaii Cattlemen's Council, Inc.

**COMMITTEE ON AGRICULTURE AND
ENVIRONMENT**

Senator Mike Gabbard, Chair
Senator Herbert M. "Tim" Richards, III, Vice Chair

SB1272
RELATING TO AGRICULTURE

Wednesday, February 15, 2023, 1:30 PM
Conference Room 224 & Videoconference

Chair Gabbard, Vice Chair Richards, and Members of the Committee,

The Hawaii Cattlemen's Council (HCC) is the Statewide umbrella organization comprised of the four county level Cattlemen's Associations. Our member ranchers represent over 60,000 head of beef cows; more than 75% of all the beef cows in the State. Ranchers are the stewards of over 750 thousand acres of land in Hawaii, or 20% of the State's total land mass. We represent the interests of Hawaii's cattle producers.

The Hawaii Cattlemen's Council **supports SB1272** which establishes a program specialist position within the Department of Agriculture and appropriates moneys to fund the position and prioritizes assistance for farmers and ranchers who produce local food that is at least partially consumed within the State.

Funding a position within the Department of Agriculture to assist ranchers and farmers to secure funding is important to ensuring access to capital for operations to succeed. The Hawaii Cattlemen's Council supports all forms of agriculture and would like to point out that the opportunity to export goods helps many operations stay economically viable as a business. Every rancher in Hawaii contributes to local food whether it's through a grass-finished branded program or through cull cows and bulls that contribute to the local ground beef supply. Exporting goods is a smart way to diversify operations especially in times of drought. However, we support this measure which gives priority to those who produce local food.

We appreciate the opportunity to testify on this measure.

SENATE COMMITTEE ON AGRICULTURE & ENVIRONMENT
Wednesday, February 15, 2023 — 1:30 p.m.

Ulupono Initiative strongly supports SB 1272, Relating to Agriculture.

Dear Chair Gabbard and Members of the Committee:

My name is Micah Munekata, and I am the Director of Government Affairs at Ulupono Initiative. We are a Hawai'i-focused impact investment firm that strives to improve the quality of life throughout the islands by helping our communities become more resilient and self-sufficient through locally produced food, renewable energy and clean transportation choices, and better management of freshwater resources.

Ulupono strongly supports SB 1272, which establishes and appropriates funds for a program specialist position within the Department of Agriculture (DOA) and prioritizes assistance for farmers and ranchers who produce local food that is at least partially consumed within the State.

Ulupono supports the State's efforts to actively pursue grant opportunities that help local agriculturalists. Many federal programs are dedicated to state departments or agencies who can apply for funding to support local initiatives. Establishing a position at the DOA for this work is extremely timely, not only to meet the needs of local farmers and ranchers, but also due to the funding that has been made available by the federal government.

Ulupono currently funds three grant and loan writer programs with The Kohala Center, the O'ahu Agriculture and Conservation Association (OACA), and the Hawai'i Farm Bureau. From 2020 to 2021, these three grant and loan writer programs were able to secure more than \$15 million in federal funds via USDA agricultural programs. In 2022, Ulupono funded a grant writer to enable UH CTAHR's USDA Climate Smart Commodities grant application. UH CTAHR was awarded a massive ~\$40 million USDA Climate Smart Commodities grant that will provide direct funding to Hawai'i farmers and ranchers that practice climate smart agriculture. Similarly, Ulupono believes a dedicated DOA grant writer will be well worth the investment, and result in millions of dollars in federal funding to further support the State's agricultural efforts.

We appreciate this committee's effort to hear important measures that look to establish long-term support for our local farmers and ranchers.

Thank you for the opportunity to testify.

Respectfully,

Micah Munekata
Director of Government Affairs

February 14, 2023

To: Senate Committee on Agriculture & Environment

Subject: SB 1272, Relating To Agriculture

Aloha Hawaii State Senators,

We fully support SB 1272, which establishes a program specialist position within the Department of Agriculture and appropriates money to fund the position. This bill would prioritize assistance for farmers and ranchers who produce local food that is at least partially consumed within the State.

Having a role within the Department of Agriculture to assist local farmers and ranchers is **vital** to helping them meet their needs while increasing food production in Hawaii. These roles are cornerstones of the success of our food system. Local farmers and ranchers have expertise in producing food; however, they may need more financial resources and skills to support their farms. As farmers access increased funding, this can help create jobs within our agriculture sector and stimulate the state's economy. Out in the fields, there are numerous daily tasks, and having a position to help local farmers and ranchers acquire knowledge and grants available to their operations is crucial for the success and sustainability of Hawaii agriculture. Therefore, we support this measure to help support our local producers.

Thank you for the opportunity to testify.

Mahalo,

Tierra Bartolotti & the Food+ Policy Team

#fixourfoodsystem

The Food+ Policy internship develops student advocates who learn work skills while increasing civic engagement to become emerging leaders. We focus on good food systems policy because we see the importance and potential of the food system in combating climate change and increasing the health, equity, and resiliency of Hawai'i communities.

In 2023, the cohort of interns are undergraduate and graduate students from throughout the UH System. They are a mix of traditional and nontraditional students, including parents and veterans, who have backgrounds in education, farming, public health, nutrition, and Hawaiian culture.

HEARING BEFORE THE
SENATE COMMITTEE ON AGRICULTURE AND ENVIRONMENT

TESTIMONY ON SB 1272
RELATING TO AGRICULTURE

Conference Room 224 & Videoconference
1:30 PM

Aloha Chair Gabbard, Vice-Chair Richards, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawai'i Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,800 farm family members statewide and serves as Hawai'i's voice of agriculture to protect, advocate and advance the social, economic, and educational interests of our diverse agricultural community.

The Hawai'i Farm Bureau supports SB 1272, which establishes a program specialist position within the Department of Agriculture and appropriates moneys to fund the position. HB 974 prioritizes assistance for farmers and ranchers who produce local food that is at least partially consumed within the State.

The decrease in direct Federal appropriations for agriculture has resulted in an increased level of dependence on grants. Many federal programs have turned into competitive grant programs.

Hawai'i's farmers and ranchers are finding it difficult to secure the financial support necessary to build capacity. Grant writing for USDA, State, County, and other grants usually involves a very complex application process that can be difficult to navigate through. This often deters farmers and ranchers from applying for USDA and other grants. A well-trained and skilled grant writer would be able to assist farmers and ranchers obtain USDA and other grants by assisting them with applying for and fulfilling the requirements of the grants.

Access to USDA and other grants can result in increased capacity, new business opportunities, increase employment opportunities and address Hawai'i's goals of increased self-sufficiency and sustainability.

Thank you for the opportunity to testify on this measure.
