Legal Name of Requesting Organization or Individual: Dba:

Hui Pohala

Amount of State Funds Requested: \$ 572,400.00

Brief Description of Request (Please attach word document to back of page if extra space is needed):

In 2024, Hawaii became the first state to provide community palliative care benefits through Medicaid, approved by the Centers for Medicare and Medicaid Services (CMS). To support this new benefit, MedQUEST contracted Hui Pohala to develop technology, training, public awareness, and planning in a 13-month project. The project successfully delivered tools to equip patients, families, caregivers, and providers to provide and receive community palliative care.

Dozens of stakeholders across Hawaii's healthcare ecosystem were interviewed to identify the information they required to enhance their effectiveness and efficiency. A strong consensus emerged that the needed information was challenging to locate and may not align with users' cultural values and needs. Hui Pohala developed a unique web-based Resource Hub that curates and presents information tailored to users' cultural background, language, geographical location, healthcare role, and purpose.

Hui Pohala seeks operating funds to operationalize this Resource Hub, thereby providing the people of Hawaii with the unprecedented capability to access accurate, actionable, and culturally appropriate information on community palliative care.

### **DECLARATION STATEMENT OF APPLICANTS FOR GRANTS PURSUANT TO CHAPTER 42F, HAWAII REVISED STATUTES**

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawaii Revised Statutes:
  - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
  - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
  - c) Agrees not to use state funds for entertainment or lobbying activities; and
  - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
  - a) Is incorporated under the laws of the State; and
  - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided; and
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
  - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
  - b) Has a governing board whose members have no material conflict of interest and serve without compensation.
- 4) The use of grant-in-aid funding complies with all provisions of the Constitution of the State of Hawaii (for example, pursuant to Article X, section 1, of the Constitution, the State cannot provide "... public funds ... for the support or benefit of any sectarian or nonsectarian private educational institution...").

Pursuant to Section 42F-103, Hawaii Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.

### **3. Public Purpose**

The applicant shall specify whether the grant will be used for a public purpose pursuant to Section 42F-102, Hawaii Revised Statutes.

Pursuant to Section 42F-102, Hawaii Revised Statutes, this grant will be used for a public purpose.

Hui Pohala envisions establishing a comprehensive digital resource hub for the palliative care community in Hawaii. This centralized repository will serve as a pivotal resource for patients, families, healthcare professionals, and the broader community. The hub will possess distinctive capabilities that facilitate the seamless access to essential support and information, thereby elevating the quality of palliative care throughout the state of Hawaii. We are dedicated to developing a solution that addresses the technical intricacies of palliative care while simultaneously honoring and integrating the distinctive cultural nuances of Hawaii's people.

## **II. Background and Summary**

*This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:*

- 1. A brief description of the applicant's background;*
- 2. The goals and objectives related to the request;*
- 3. The public purpose and need to be served;*
- 4. Describe the target population to be served; and*
- 5. Describe the geographic coverage.*

1. A brief description of the applicant's background;

In response to the call to action generated by the inaugural Hawaii State Palliative Care Summit held in April 2020, which convened over 120 diverse stakeholders, Hui Pohala was established. The summit presentations underscored the multifaceted benefits of palliative care for patients, families, and caregivers, as well as the associated reduction in unnecessary medical interventions. Summit participants emphasized the significant disparities in access to high-quality home-based palliative care across the state, highlighting the detrimental consequences of these disparities. A unanimous consensus emerged regarding the imperative to expand access to such care.

Following the Summit, Hui Pohala facilitated the inaugural comprehensive assessment of palliative care services across the state of Hawaii. The resulting findings were instrumental in developing a strategic roadmap that outlines an actionable plan to enhance the delivery of community-based palliative care.

In the fiscal year preceding, MedQUEST awarded Hui Pohala a substantial contract of \$3.6 million to augment and expand palliative care resources within the state of Hawaii. The scope of this project encompassed the development of innovative technological solutions, comprehensive educational curricula, and extensive outreach initiatives aimed at disseminating knowledge and resources throughout the state.

Hui Pohala, despite its youth, boasts a team with extensive expertise in palliative care, healthcare systems, education, communications, and technology. We have successfully managed a diverse range of projects, delivering timely, compliant, and high-quality outcomes while adhering to strict budgets. The Hui Pohala team is recognized as respected thought leaders and credible practitioners within both the national and local healthcare communities.

2. The goals and objectives related to the request;

## Oversight and Management of a Comprehensive Digital Hub for the Palliative Care Community

Establish a centralized repository that serves as a pivotal resource for patients, families, healthcare professionals, and the broader community. This hub will facilitate access to essential support and information, thereby enhancing the quality of palliative care services throughout the state of Hawaii.

We are committed to providing a solution that addresses the technical aspects of palliative care while respecting and integrating the unique cultural nuances of Hawaii's people. We recognize that palliative care holds profound significance in Hawaii. It transcends medical treatment and encompasses the cultural, spiritual, and emotional well-being of individuals facing serious illnesses.

Our approach involves engaging respectfully with all stakeholders, including nurses, doctors, caregivers, JEDI (Justice Equity Diversity Inclusion) groups, patients, families, and the broader community, to ascertain how our hub can support and enhance palliative care resources over time. We are dedicated to ensuring that our hub accurately reflects the diverse needs of Hawaii's population.

### 3. The public purpose and need to be served;

#### Need for Palliative Care:

Despite progress in medical care and a stronger focus on transitional care, many patients still experience significant gaps in care when it comes to managing and treating serious illnesses. Palliative care, which is specialized medical care for people with serious illnesses, has been proven to provide effective, appropriate, and affordable solutions to closing these gaps. Palliative care aligns and coordinates with other medical treatment and supportive care options.

#### Need for Resource Hub:

Hui Pohala conducted a comprehensive and in-depth survey of stakeholders within the palliative care ecosystem, including patients, families, caregivers, and providers. Our findings revealed that locating information to assist them in delivering or obtaining palliative care in alignment with their role, cultural background, and geographical location can be challenging, frustrating, and often unsuccessful.

With the support of MedQUEST and ARPA funding, we have developed a distinctive web-based resource hub that addresses the needs and mitigates the obstacles experienced by the palliative care community in accessing information. Representatives from the palliative care community have evaluated the resource hub, and it has been demonstrated to effectively provide information to users with a diverse range of technical proficiency, roles, and cultural ethos.

We are seeking funding to enhance the quality of palliative care services for the people of Hawaii through the establishment and operation of a Resource Hub. The Hub will encompass the following key functions:

- An editorial board comprising subject matter experts, clinicians, and representatives from the user community will oversee content curation and ensure the site's information and presentation are accurate, relevant and culturally appropriate.
- Technical support will be provided to manage and operate the infrastructure securely and reliably, ensuring the Hub's accessibility and functionality.

4. Describe the target population to be served;

Palliative care provides comprehensive benefits to patients of all ages, spanning pediatric to geriatric care. It encompasses disease management, pain alleviation, and emotional, mental, and spiritual support throughout the patient's illness journey. The palliative care community has experienced steady growth in recent years, and this trend is expected to accelerate significantly with the implementation of Medicaid benefits.

5. Describe the geographic coverage.

The resource hub will be accessible to all individuals within the state who have internet connectivity through mobile or desktop devices.

### **III. Service Summary and Outcomes**

*The Service Summary shall include a detailed discussion of the applicant's approach to the request. The applicant shall clearly and concisely specify the results, outcomes, and measures of effectiveness from this request. The applicant shall:*

- 1. Describe the scope of work, tasks and responsibilities;*
- 2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;*
- 3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results;*
- 4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.*

1. Describe the scope of work, tasks and responsibilities;

#### **Editorial Board**

- Establish an editorial board comprising subject matter experts and user representatives to curate and present information in a clinically accurate, role-enabling, geographically aware, and culturally sensitive manner.
- The Editorial Board will gather user feedback and utilization data to ascertain the value of the Resource Hub.

#### **Content Curation**

- Maintain a vigilant monitoring of the resource hub's content to ensure its alignment with the most reliable and pertinent data for the user community.
- Continuously monitor emerging trends and developments within academia, industry, and the community to curate information of value.
- Facilitate the presentation of content to ensure its appropriateness for the user's role, technical proficiency, and cultural background.

#### **Reliable and Secure Infrastructure**

- Implement robust hosting solutions and data protection measures to safeguard user information and ensure compliance with privacy regulations.
- Design a scalable architecture to accommodate future growth and the integration of additional functionalities.

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;

- Months 1 – 3
  - Recruit Staff
  - Set Up Operations
  - Form Editorial Board
  - Begin Content Procurement
  - Begin Infrastructure Operations
  - Begin Marketing
- Months 3 – 6
  - Launch Resource Hub
  - Continue Content Procurement
  - Continue Infrastructure Operations
  - Continue Marketing
- Ongoing
  - Editorial Board manages resource hub content
  - Content Procurement
  - Infrastructure Operations
  - Marketing

3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results;

The Editorial Board will be accountable for the quality of the content. Input to the board will be derived from utilization data. User feedback will also be solicited as a resource hub feature. Content will be continuously revised to align with the needs of Hawaii's user community and the advancement of new data.

4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.

Various measures of effectiveness will be reported to ensure that the Resource Hub provides value to the entire palliative care community. This would include:

- Utilization:
- Users

- Content
- Demographics:
  - Location
  - Device
- Value:
  - Quality
  - Cultural Sensitivity
- Availability:
  - Infrastructure Reliability

### **1. Necessary Skills and Experience**

The applicant shall demonstrate that it has the necessary skills, abilities, knowledge of, and experience relating to the request. State your experience and appropriateness for providing the service proposed in this application. The applicant shall also provide a listing of verifiable experience of related projects or contracts for the most recent three years that are pertinent to the request.

In 2020, Hui Pohala spearheaded the organization and production of a statewide summit on palliative care. MedQUEST's efforts to secure CMS approval for a palliative care benefit were also highlighted during the summit, which attracted over 100 attendees. The summit featured keynote presentations, breakout sessions, and plenaries.

In 2023, Hui Pohala spearheaded the development of a comprehensive assessment of palliative care resources in Hawaii. The study involved interviews with stakeholders from each of the neighboring islands to identify areas for improvement and develop an actionable strategy.

In 2024, Hui Pohala was awarded a \$3.6 million grant from MedQUEST to implement the improvement plans based on the findings in the 2023 report. This grant was timely, as Hawaii became the first state in the nation to have a CMS benefit for palliative care services in 2024. The project encompasses eight sub-projects, including resource hub development, provider education, community outreach, and strategic planning. The project is currently on schedule and on budget.

### **2. Facilities**

The applicant shall provide a description of its facilities and demonstrate its adequacy in relation to the request. If facilities are not presently available, describe plans to secure facilities.

The resource hub will be hosted by a web services organization that is appropriately certified to provide secure services.
