
A BILL FOR AN ACT

RELATING TO THE EXECUTIVE OFFICE ON AGING.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that low-income subsidy
2 programs, including medicare, medicaid, and medicare savings
3 programs such as medicare part D extra help, can help reduce
4 out-of-pocket costs for individuals with limited income by
5 offsetting their medical and prescription drug costs, such as
6 premiums, deductibles, copayments, coinsurance, and lifetime
7 late enrollment penalties. The legislature further finds that
8 although individuals with low income, those who speak English as
9 a second language, or those who live in rural areas may qualify
10 for these programs, they may have no or limited access to the
11 benefits, as they may not be aware of or need assistance with
12 the application or eligibility renewal process.

13 The legislature further finds that the Hawaii state health
14 insurance assistance program, administered by the executive
15 office on aging of the department of health, provides free
16 information and one-on-one counseling on medicare. Since 2022,
17 the program has been receiving a significantly higher volume of

1 referrals from med-QUEST to assist uninsured or underinsured
2 individuals who are losing their medicaid eligibility and need
3 to find other health coverage. The overflow and referrals are
4 made to community partners within forty-eight hours to help with
5 food, housing, utilities, employment, and other needs.

6 The legislature also finds that during the coronavirus
7 disease 2019 pandemic, the med-QUEST division of the department
8 of human services paused disenrollments based on eligibility
9 issues and all medicaid members received continuous
10 uninterrupted coverage through March 2023, regardless of their
11 change in eligibility. Following the 2023 Maui wildfires, the
12 med-QUEST division again paused all eligibility disenrollments
13 statewide until the end of 2023. However, the med-QUEST
14 division has resumed its annual eligibility redetermination
15 process, and therefore, people have been or will be receiving
16 notices and forms to renew their coverage.

17 Accordingly, the purpose of this Act is to establish within
18 the Hawaii state health insurance assistance program a temporary
19 medi-medi project to assist the underserved population in the
20 State who may qualify for various low-income subsidy programs to
21 gain access to their benefits.

1 SECTION 2. (a) There is established within the Hawaii
2 state health insurance assistance program a medi-medi project to
3 assist older adults, medicare beneficiaries, individuals with
4 disabilities, and other underserved populations who may qualify
5 for various low-income subsidy programs, including medicare,
6 medicaid, and medicare savings programs such as medicare part D
7 extra help, to gain access to their benefits.

8 (b) The medi-medi project shall:

- 9 (1) Develop and implement a community outreach program;
10 (2) Streamline the application and eligibility renewal
11 process for various low-income subsidy programs; and
12 (3) Provide any other service it deems necessary for the
13 underserved populations in the State to gain access to
14 benefits under various low-income subsidy programs.

15 (c) The executive office on aging shall submit a report of
16 its findings and recommendations regarding the medi-medi
17 project, including any proposed legislation, to the legislature
18 no later than twenty days prior to the convening of each regular
19 session.

20 (d) The medi-medi project shall cease to exist
21 on .

1 SECTION 3. There is appropriated out of the general
2 revenues of the State of Hawaii the sum of \$ or so
3 much thereof as may be necessary for fiscal year 2025-2026 for
4 the Hawaii state health insurance assistance program, to be
5 expended as follows:

- 6 (1) \$ for the establishment of one full-time
7 equivalent (1.0 FTE) position to implement and
8 administer the medi-medi project; and
9 (2) \$ for other operating expenses.

10 The sum appropriated shall be expended by the executive
11 office on aging for the purposes of this Act.

12 SECTION 4. This Act shall take effect on July 1, 3000.

H.B. NO. 705 H.D. 1

Report Title:

Kupuna Caucus; EOA; SHIP; Low-income Subsidy Programs; Medicaid; Medicare; Medi-medi Project; Underserved Populations; Community Outreach; Application and Renewal Process; Reports; Appropriation

Description:

Establishes a temporary Medi-Medi Project within the Hawaii State Health Insurance Assistance Program administered by the Executive Office on Aging to assist older adults, Medicare beneficiaries, individuals with disabilities, and other underserved populations who may qualify for various low-income subsidy programs to gain access to their benefits. Requires the Executive Office on Aging to submit reports to the Legislature. Appropriates funds. Effective 7/1/3000. (HD1)
