
A BILL FOR AN ACT

RELATING TO HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that federally qualified
2 health centers, rural health clinics, Ryan White HIV/AIDS
3 program centers, and Native Hawaiian health centers are a vital
4 source of health care access and public health for Hawaii's
5 underserved population, serving twenty per cent of residents.

6 Foundational health information technology infrastructure
7 is needed to transform health care delivery and maintain public
8 health readiness and recovery. Certified, hosted, and
9 maintained health information technology, including software and
10 hardware upgrades and related technical support, are an
11 essential component of equitable access to care, particularly in
12 the artificial intelligence era. These systems enhance care
13 coordination, improve patient outcomes, and assist providers in
14 meeting regulatory obligations. They also promote public health
15 by equipping providers and government agencies with the
16 information necessary to understand their community's needs and
17 craft data-driven policies. Equally important, health

1 information technology systems that share information seamlessly
2 are critical in supporting trauma informed care by ensuring that
3 sensitive patient health information is interoperable among
4 providers, thereby reducing the need to repeatedly ask questions
5 that could be traumatic for patients.

6 The legislature further finds that certified, hosted, and
7 maintained health information technology infrastructure requires
8 significant upfront investment that is not feasible for many
9 providers in rural and underserved areas. The resulting
10 difference in the quality of health information technology
11 available to providers creates disparities in care and public
12 health outcomes in rural and underserved communities.

13 Accordingly, the purpose of this Act is to establish a
14 grant program within the department of health, to be
15 administered by the state health planning and development
16 agency, to support a certified, hosted, and maintained health
17 information technology infrastructure and the implementation of
18 interoperable health information technologies for federally
19 qualified health centers, rural health clinics, Ryan White
20 HIV/AIDS program centers, and Native Hawaiian health centers in
21 Hawaii.

1 SECTION 2. Chapter 323D, Hawaii Revised Statutes, is
2 amended by adding a new subpart to part II to be appropriately
3 designated and to read as follows:

4 " . Health Infrastructure Grant Program

5 §323D- Definitions. As used in this subpart:

6 "Certified" means certified under the United States
7 Department of Health and Human Services Office of the National
8 Coordinator for Health Information Technology's Health IT
9 Certification Program, which includes interoperability and
10 cybersecurity requirements pursuant to title 45 Code of Federal
11 Regulations, part 170, subpart B.

12 "Department" means the department of health.

13 "Federally qualified health center" has the same meaning as
14 in title 42 United States Code section 1396d(1)(2)(B).

15 "Hosted" means a health information technology system that
16 is managed, maintained, and operated by an external entity
17 through a centralized infrastructure, including but not limited
18 to cloud-based or on-premises data centers.

19 "Maintained" means regularly updating and ensuring
20 compliance with current federal and state requirements.

1 "Native Hawaiian health center" has the same meaning as in
2 title 42 United States Code section 11711(4).

3 "Rural health clinic" has the same meaning as in title 42
4 United States Code section 1396d(1)(1).

5 "Ryan White HIV/AIDS program center" means an organization
6 that receives grant funding under title 42 United States Code
7 section 300ff-21.

8 §323D- Health information technology infrastructure
9 grant program; establishment. There is established a certified,
10 hosted, and maintained health information technology
11 infrastructure grant program within the department, to be
12 administered by the state agency. The state agency shall
13 receive and review grant applications and may award grants for
14 eligible projects pursuant to the program.

15 §323D- Eligible projects. The state agency may award
16 grants to eligible applicants for eligible projects to:

- 17 (1) Acquire or upgrade certified, hosted, and maintained
18 electronic health records systems;
- 19 (2) Procure certified, hosted, and maintained health
20 information technology software and hardware,
21 including digital security programs and devices;

1 (3) Finance installation services; and

2 (4) Cover ongoing technical assistance and workforce

3 development and training.

4 §323D- Eligible applicants. (a) Eligible applicants
5 for a grant pursuant to this subpart shall include:

6 (1) Federally qualified health centers within the State;

7 (2) Native Hawaiian health centers;

8 (3) Ryan White HIV/AIDS program centers; and

9 (4) Rural health clinics.

10 (b) An eligible applicant shall also:

11 (1) Be a nonprofit entity under section 501(c)(3) of the
12 Internal Revenue Code of 1986; and

13 (2) Agree to support public health and serve as a clinical
14 research participant, including conducting research
15 regarding insured and uninsured individuals.

16 §323D- Applications. (a) The state agency shall
17 establish an annual time period to commence an open process for
18 submission of applications for funding under the program. The
19 time period for submission shall be no less than sixty days.

20 (b) The form of the application shall be as prescribed by
21 the state agency and shall include:

- 1 (1) Evidence demonstrating the applicant's experience and
- 2 ability to plan, organize, staff, and deliver health
- 3 services to underserved populations within the State;
- 4 (2) A description of the project;
- 5 (3) The number of people served by the applicant; and
- 6 (4) The total cost and timeline for completion of the
- 7 project.

8 §323D- Rules. The state agency may adopt rules
 9 pursuant to chapter 91 to effectuate the purposes of this
 10 subpart. The rules may include reasonable oversight and
 11 reporting provisions to ensure that grant moneys are used as
 12 intended."

13 SECTION 3. Chapter 323D, Hawaii Revised Statutes, is
 14 amended by designating sections 323D-11 to 323D-18.6 as subpart
 15 A and inserting a title before section 323D-11 to read as
 16 follows:

17 "A. General Provisions"

18 SECTION 4. There is appropriated out of the general
 19 revenues of the State of Hawaii the sum of \$ or so
 20 much thereof as may be necessary for fiscal year 2025-2026 and
 21 the same sum or so much thereof as may be necessary for fiscal

1 year 2026-2027 for the health information technology
2 infrastructure grant program established pursuant to section 2
3 of this Act.

4 The sums appropriated shall be expended by the department
5 of health for the purposes of this Act.

6 SECTION 5. New statutory material is underscored.

7 SECTION 6. This Act shall take effect on December 31,
8 2050.

Report Title:

Health Infrastructure Grant Program; Health Information Technologies; State Health Planning and Development Agency; FQHCs; Rural Health Clinics; Ryan White HIV/AIDS Program Centers; Native Hawaiian Health Centers; Appropriations

Description:

Establishes the Health Information Technology Infrastructure Grant Program within the Department of Health, to be administered by the State Health Planning and Development Agency, to support health information technology infrastructure and the implementation of interoperable health information technologies in federally qualified health centers, rural health clinics, Ryan White HIV/AIDS Program centers, and Native Hawaiian health centers. Appropriates funds for the grant program. Effective 12/31/2050. (SD1)
