# A BILL FOR AN ACT

RELATING TO PRESCRIPTION DRUGS.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that appropriate, timely  
2 pain management is an integral part of ensuring high quality,  
3 patient-centered health care. As the rising danger of opiates  
4 became clear, the legislature acted to put guardrails in place  
5 to protect patients from the harmful effects of overprescribing,  
6 long-term use, and addiction. However, the legislature  
7 recognizes the need to balance these protections with the need  
8 for timely patient access to appropriate pain management.  
9 Therefore there is a need to remove barriers to short-term  
10 opiate prescriptions while maintaining protections against  
11 overprescribing and patient misuse.

12           Accordingly, the purpose of this Act is to allow a patient  
13 who has been seen in-person by a physician to be prescribed a  
14 three-day supply of opiates via telehealth by another physician  
15 within the same medical group.

16           SECTION 2. Section 453-1.3, Hawaii Revised Statutes, is  
17 amended by amending subsection (c) to read as follows:

1           "(c) Treatment recommendations made via telehealth,  
2 including issuing a prescription via electronic means, shall be  
3 held to the same standards of appropriate practice as those in  
4 traditional physician-patient settings that do not include  
5 [+]an[+] in-person visit but in which prescribing is  
6 appropriate, including on-call telephone encounters and  
7 encounters for which a follow-up visit is arranged. Issuing a  
8 prescription based solely on an online questionnaire is not  
9 treatment for the purposes of this section and does not  
10 constitute an acceptable standard of care. For the purposes of  
11 prescribing opiates or certifying a patient for the medical use  
12 of cannabis, a physician-patient relationship shall only be  
13 established after an in-person consultation between the  
14 prescribing physician and the patient[-]; provided that a  
15 patient who has been seen in-person by another physician in the  
16 same medical group as the prescribing physician may be  
17 prescribed an opiate prescription for a three-day supply or less  
18 via telehealth by the prescribing physician."

19           SECTION 3. Statutory material to be repealed is bracketed  
20 and stricken. New statutory material is underscored.

1 SECTION 4. This Act shall take effect on July 1, 3000;  
2 provided that the amendments made to section 453-1.3, Hawaii  
3 Revised Statutes, by section 2 of this Act shall not be repealed  
4 when that section is reenacted on December 31, 2025, pursuant to  
5 Act 107, Session Laws of Hawaii 2023.

**Report Title:**

Prescriptions; Opiates; Telehealth; Three-day Supply; Physicians

**Description:**

Allows a patient who has been seen in-person by a physician who is in the same medical group as the prescribing physician to be prescribed an opiate prescription for a three-day supply or less via telehealth. Effective 7/1/3000. (HD1)
