
HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF LAND AND NATURAL RESOURCES TO
ESTABLISH A COLLABORATIVE WORKING GROUP TO SURVEY,
IDENTIFY, AND MONITOR CULTURALLY SENSITIVE SHORELINES
IMPACTED BY EROSION.

1 WHEREAS, the State recognizes the cultural and historical
2 significance of Native Hawaiian burial sites and the need to
3 protect these sacred places; and

4
5 WHEREAS, Native Hawaiian iwi kūpuna were historically
6 interred along sandy shoreline areas, which are now increasingly
7 threatened by coastal erosion; and

8
9 WHEREAS, multiple culturally sensitive shoreline areas
10 across the State, including Lahilahi Beach Park in Waiʻanae,
11 Kaulahao Beach in Hamakuapoko, and the Old Kona Airport Beach
12 Park in Kailua-Kona, have experienced ongoing coastal erosion,
13 resulting in the continuous exposure of iwi kūpuna; and

14
15 WHEREAS, pursuant to section 13-300-2, Hawaii
16 Administrative Rules, iwi exposed due to erosion are classified
17 as inadvertent discoveries; and

18
19 WHEREAS, the State Historic Preservation Division of the
20 Department of Land and Natural Resources is the designated
21 agency responsible for the disposition of inadvertently
22 discovered iwi kūpuna; and

23
24 WHEREAS, iwi discovered through shoreline erosion are
25 frequently located within the high-water mark, making it
26 difficult to preserve them in place; and

27
28 WHEREAS, iwi found in shoreline areas also fall within the
29 jurisdiction of the State, complicating quick reinterment

1 efforts within the immediate vicinity due to the need for
2 permission from adjacent property owners; and

3
4 WHEREAS, legislation has been introduced to address the
5 discovery of iwi kūpuna exposed along Hawaii's shorelines due to
6 coastal erosion; and

7
8 WHEREAS, the establishment of an inter-division program to
9 coordinate efforts among state and county agencies is necessary
10 to ensure the successful coordination of efforts in locating,
11 protecting, and restoring Native Hawaiian burial sites and iwi
12 kūpuna affected by coastal erosion; now, therefore,

13
