# HOUSE CONCURRENT RESOLUTION

URGING THE FEDERAL AVIATION ADMINISTRATION AND STATE DEPARTMENT OF TRANSPORTATION TO ENCOURAGE AND FACILITATE THE EXPANSION OF ALTERNATIVE AIRLINE SERVICES THAT UTILIZE SHORT TAKEOFF AND LANDING-CAPABLE AIRCRAFTS AND REQUESTING THE STATE DEPARTMENT OF TRANSPORTATION TO CONDUCT A STUDY ON THE FEASIBILITY AND IMPLEMENTATION OF A RURAL AIR SERVICE PROGRAM.

1           WHEREAS, Hawai'i's rural communities, including those in  
2 Molokai, Lāna'i, and Hāna, rely heavily on air travel for  
3 essential services such as health care, education, and economic  
4 opportunities; and

5  
6           WHEREAS, recent airline service reductions and increased  
7 ticket costs have severely impacted the accessibility and  
8 affordability of air transportation for residents in these  
9 areas; and

10  
11           WHEREAS, many rural airports in Hawai'i have shorter  
12 runways, limiting the types of aircraft that can safely operate  
13 in these locations; and

14  
15           WHEREAS, several aircraft models, including the De  
16 Havilland Canada DHC-6 Twin Otter, Pilatus PC-12, Cessna 208  
17 Caravan, Dornier 228, and Let L-410 Turbolet, possess short  
18 takeoff and landing capabilities that make them suitable for  
19 operations on short and unpaved runways; and

20  
21           WHEREAS, many countries and states have successfully  
22 implemented programs to support rural and remote communities  
23 with small airplane services, ensuring transportation access for  
24 medical, economic, and general connectivity purposes, such as  
25 the Essential Air Service in the United States, Norway's Public

1 Service Obligation routes, and Australia's Royal Flying Doctor  
2 Service; and

3

4 WHEREAS, the United States Essential Air Service program  
5 provides federal subsidies to airlines operating in regions that  
6 would otherwise lack scheduled air transport, benefiting rural  
7 communities in multiple states including Alaska, Hawai'i, and  
8 Montana; and

9

10 WHEREAS, Norway's Public Service Obligation-supported air  
11 network ensures essential air connectivity for remote and rural  
12 areas, subsidizing routes that would not be commercially viable  
13 due to low passenger volumes and challenging geography; and

14

15 WHEREAS, Alaska's Rural Aviation System has developed a  
16 unique network of state-supported small air carriers that  
17 provide critical passenger and freight services to isolated  
18 communities, supported by state funding for rural airports and  
19 maintenance; and

20

21 WHEREAS, public-private partnerships with private operators  
22 such as Hawaii Life Flight and Guardian Flight currently provide  
23 emergency medical air transport to outer islands; and

24

25 WHEREAS, alternative airline service providers utilizing  
26 short takeoff and landing aircrafts can improve air connectivity  
27 by offering more frequent and reliable routes between rural  
28 airports and major transportation hubs, enhancing economic  
29 opportunities, medical access, and overall quality of life for  
30 residents; now, therefore,

31

32 BE IT RESOLVED by the House of Representatives of the  
33 Thirty-third Legislature of the State of Hawaii, Regular Session  
34 of 2025, the Senate concurring, that the Federal Aviation  
35 Administration and State Department of Transportation are urged  
36 to encourage and facilitate the expansion of alternative airline  
37 services that utilize short takeoff and landing-capable  
38 aircrafts to better serve rural and remote communities in the  
39 State; and

40

41 BE IT FURTHER RESOLVED that the State Department of  
42 Transportation is urged to investigate potential incentives,

1 partnerships, and regulatory changes to encourage and facilitate  
2 the operation of short takeoff and landing aircrafts to serve  
3 rural communities; and

4

5 BE IT FURTHER RESOLVED that the State Department of  
6 Transportation is requested to conduct a study on the  
7 feasibility and implementation of a rural air service program in  
8 the State, identifying the best options for such programs,  
9 including funding mechanisms, regulatory considerations, and  
10 potential airline partnerships, including public-private  
11 partnerships; and

12

13 BE IT FURTHER RESOLVED that the State Department of  
14 Transportation is requested to submit a report of its finding  
15 and recommendations, including any proposed legislation, to the  
16 Legislature no later than twenty days prior to the convening of  
17 the Regular Session of 2026; and

18

19 BE IT FURTHER RESOLVED that certified copies of this  
20 Concurrent Resolution be transmitted to the Administrator of the  
21 Federal Aviation Administration, Governor, Director of  
22 Transportation, and mayors of each county.
