8 seek refuge at a moment's notice and continued shelter in the  
9 time following a disruptive weather event; and  
10

11 WHEREAS, as few public buildings meet minimum requirements

14 is likely to exceed available inventory; and  
15

16 WHEREAS, at present no county offers a comprehensive  
17 electronically accessible list on a government-run website that  
18 provides crucial information such as the category of hurricane  
19 the facility is able to sustain, capacity limits, accommodations  
20 for access and functional needs individuals, or the ability to  
21 shelter pets; and  
22

23 WHEREAS, to ensure information is both up-to-date for  
24 government entities maintaining refuges and shelters and for  
25 members of the public who may need to access this information,  
26 it is critical to take a more focused approach towards  
27 aggregating and making data available; now, therefore,
