
HOUSE CONCURRENT RESOLUTION

URGING THE MAUI COUNTY PLANNING DEPARTMENT TO RETAIN THE WORD "REQUIRE" IN THE SOUTH MAUI COMMUNITY PLAN AS IT RELATES TO INFRASTRUCTURE TO ENSURE THAT DEVELOPMENT DOES NOT OCCUR WITHOUT ADEQUATE SUPPORTING INFRASTRUCTURE.

1 WHEREAS, the South Maui Community Plan serves as a guiding
2 document for sustainable development and infrastructure planning
3 in the region, ensuring that growth aligns with the needs and
4 capacity of existing and future infrastructure; and
5

6 WHEREAS, the proposed removal of the word "require" from
7 the South Maui Community Plan in relation to infrastructure
8 could weaken enforceability and accountability in ensuring that
9 essential infrastructure improvements are constructed before or
10 concurrently with new development projects; and
11

12 WHEREAS, members of the Wailea community and residents of
13 South Maui generally, have expressed significant concerns that
14 loosening infrastructure requirements may lead to
15 overdevelopment, increased traffic congestion, environmental
16 degradation, and a strain on essential public services,
17 including water supply, sewer capacity, and emergency response
18 systems; and
19

20 WHEREAS, requiring infrastructure to be completed before a
21 development is occupied ensures that new residential and
22 commercial projects do not overwhelm the community's roads,
23 utilities, and public safety resources, thereby maintaining
24 quality of life and sustainability; and
25

26 WHEREAS, other municipalities across the United States,
27 including those in California, Florida, and Colorado, have
28 implemented similar policies mandating infrastructure completion
29 before development occupancy to mitigate the negative effects of
30 unchecked growth and protect long-term community interests; and
31

1 WHEREAS, planning principles that prioritize
2 infrastructure-first development enhance resilience against
3 economic risks, improve public safety, and support the overall
4 well-being of communities by preventing piecemeal and reactive
5 infrastructure solutions; and

6
7 WHEREAS, the South Maui region has experienced rapid
8 population growth and increased tourism impacts, making it
9 imperative that the Maui County Planning Department uphold
10 stringent infrastructure requirements to ensure that development
11 does not outpace the capacity of roads, drainage systems,
12 wastewater treatment facilities, and other essential services;
13 and

14
15 WHEREAS, a failure to mandate infrastructure development
16 before occupancy may lead to costly, taxpayer-funded
17 retrofitting projects that could have been avoided with
18 proactive planning and regulation enforcement; and

19
20 WHEREAS, the Maui County Planning Department has a
21 responsibility to uphold the public interest by ensuring that
22 policies within the South Maui Community Plan reflect sound
23 planning principles that prioritize infrastructure adequacy and
24 sustainable growth; now, therefore,

25
26 BE IT RESOLVED by the House of Representatives of the
27 Thirty-third Legislature of the State of Hawaii, Regular Session
28 of 2025, the Senate concurring, that the Maui County Planning
29 Department is urged to retain the word "require" in the South
30 Maui Community Plan as it relates to infrastructure to ensure
31 that development does not occur without adequate supporting
32 infrastructure; and

33
34 BE IT FURTHER RESOLVED that the Maui County Planning
35 Department is requested to consider policies adopted by other
36 municipalities in the United States that mandate infrastructure
37 completion before the occupancy of new developments as models
38 for reinforcing sustainable growth in South Maui; and

39
40 BE IT FURTHER RESOLVED that certified copies of this
41 Concurrent Resolution be transmitted to the Mayor of County of

H.C.R. NO. 204

1 Maui, Director of the Maui County Planning Department, and chair
2 of the Maui County Council.
