
HOUSE CONCURRENT RESOLUTION

REQUESTING HEALTH INSURERS AND MANAGED CARE PROVIDERS THAT
PROVIDE HEALTH INSURANCE IN THE STATE TO PROVIDE INSURANCE
COVERAGE FOR PROSTHETIC AND ORTHOTIC DEVICES.

1 WHEREAS, there are more than 18,000 Hawaii residents living
2 with limb loss, limb difference, and mobility impairments who
3 face significant barriers to participating in physical
4 activities, essential daily functions, and recreational
5 opportunities due to outdated and discriminatory insurance
6 coverage and policies that routinely deny access to essential
7 activity-specific prosthetic and orthotic devices; and

8
9 WHEREAS, individuals with limb loss and limb differences in
10 Hawaii must often rely on a single prosthetic or orthotic
11 device, which is typically designed for limited mobility and
12 does not accommodate activities such as running, cycling,
13 swimming, or bathing, creating unnecessary risks of injury,
14 preventable health conditions, and diminished quality of life;
15 and

16
17 WHEREAS, the denial of essential activity-specific devices
18 perpetuates inequities in health, independence, and economic
19 opportunity for individuals with disabilities in Hawaii, forcing
20 many to bear prohibitive out-of-pocket costs or forgo these
21 necessary tools entirely; and

22
23 WHEREAS, comprehensive insurance coverage for prosthetic
24 and orthotic devices is critical to reducing the prevalence of
25 preventable secondary health conditions such as diabetes,
26 cardiovascular disease, and obesity, which disproportionately
27 affect individuals with disabilities; now, therefore,
