A BILL FOR AN ACT

RELATING TO TRANSPORTATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that in *Navahine v.*
2 *Hawaii Department of Transportation*, CIV.NO.ICCV-22-0000631
3 (Hawaii Cir.Ct.), the court denied a motion to dismiss
4 plaintiffs' lawsuit asserting that transportation fuels violate
5 the Hawaii State Constitution's public trust doctrine and right
6 to a clean and healthy environment. Emissions reduction in
7 transportation depend on the driving public choosing a one
8 hundred per cent clean energy transportation system by 2045, as
9 stated by the Hawaii state energy office.

10 The legislature further finds that while a majority of the
11 public is already concerned about the public health crisis and
12 impacts on climate change driven by fossil fuel consumption,
13 many consider it a low priority to address immediately. The
14 legislature recognizes that "climate warming labels" are a
15 comprehensive public education tool that addresses the pivotal
16 role of the public in carrying out the State's stated emissions
17 reduction goals in transportation. Increasing consumer

1 knowledge of fossil fuel harms is a necessary pretext for
2 accelerating the transition towards one hundred per cent clean
3 transportation.

4 The legislature additionally finds that North Vancouver
5 British Columbia, Cambridge Massachusetts, and Sweden have all
6 instituted "climate warming labels" and have found that public
7 knowledge of the effects of fossil fuel consumption on public
8 health and the environment has grown significantly.

9 Therefore, the purpose of this Act is to require self-
10 service stations to put labels on gas dispensing equipment that
11 advise consumers on the effects of fossil fuel consumption on
12 human health and the environment.

13 SECTION 2. Chapter 486H, Hawaii Revised Statutes, is
14 amended by adding a new section to be appropriately designated
15 and to read as follows:

16 "§486H- Retail service stations; dispensing equipment;
17 warning labels. (a) Each self-service gas pump dispensing
18 equipment in a retail service station shall bear or have
19 attached, a plainly written or printed warning label in the
20 English language that provides consumers with information about
21 the impact of fossil fuel consumption. The label shall state

1 that burning gasoline, diesel, and ethanol has major
2 consequences on human health and the environment, including its
3 contribution to climate change.

4 (b) The text, image, or graphics of the warning label in
5 subsection (a) shall be subject to approval by the commission."

6 SECTION 3. New statutory material is underscored.

7 SECTION 4. This Act shall take effect on July 1, 2025.

8

INTRODUCED BY:

A handwritten signature in black ink, appearing to be 'Clem', written over a horizontal line.

S.B. NO. 1015

Report Title:

PUC; Retail Service Stations; Gas Dispensing Equipment; Warning Labels; Health; Environment; Climate Change

Description:

Requires self-service stations to put Public Utilities Commission-approved labels on gas dispensing equipment to advise consumers on the effects of fossil fuel consumption to human health and the environment.
