# A BILL FOR AN ACT

RELATING TO WATER.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that agriculture is a  
2     cornerstone and vital sector of Hawaii's economy. However,  
3     farmers are facing increasing pressures to produce critically  
4     important agricultural products in the State. Often, the most  
5     pressing issue is water scarcity, which exacerbates challenges  
6     experienced by local farmers and producers.

7           The legislature further finds that current gray water  
8     guidelines, originally designed to protect public health and the  
9     environment, inadvertently hinder agricultural productivity,  
10    innovation, and sustainability. Strict regulations governing  
11    the reuse of gray water, which includes wastewater from sinks,  
12    showers, and laundry, disproportionately affect small farms  
13    where farmers often find themselves limited in their ability to  
14    harness this valuable resource for irrigation.

15           Accordingly, the purpose of this Act is to authorize  
16    smaller farms of ten square acres or less in size, to utilize  
17    gray water to irrigate their farming operations.

1 SECTION 2. Section 342D-70, Hawaii Revised Statutes, is  
2 amended by amending subsection (a) to read as follows:

3 "(a) The department may authorize any county to implement  
4 a gray water recycling program within its jurisdiction. The  
5 gray water recycling program shall be limited to the use of gray  
6 water for the purpose of irrigating lawns [~~and~~], gardens, and  
7 farms of less than ten square acres. All use of gray water  
8 shall conform to the state plumbing code, chapter 3-183, Hawaii  
9 administrative rules."

10 SECTION 3. Statutory material to be repealed is bracketed  
11 and stricken. New statutory material is underscored.

12 SECTION 4. This Act shall take effect upon its approval.

13

INTRODUCED BY: 

# S.B. NO. 513

**Report Title:**

DOH; Counties; Gray Water; Farming; Agriculture; Irrigation

**Description:**

Authorizes the Department of Health to allow any county to implement a gray water recycling program that permits small farms of less than ten square acres in size the ability to use gray water for the purposes of irrigation.
