# A BILL FOR AN ACT

RELATING TO THE SUGAR-SWEETENED BEVERAGES FEE PROGRAM.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that the consumption of  
2 fresh fruits and vegetables is integral to a healthy diet and  
3 central to the prevention of obesity and chronic disease. The  
4 legislature also finds that while every community should have  
5 access to fresh and healthy dietary options, the increasing cost  
6 of fresh produce in the State has made it difficult for  
7 residents to obtain high quality fresh produce. This challenge  
8 is felt acutely by participants in the federal supplemental  
9 nutrition assistance program, which serves a low-income  
10 population that struggles to afford healthy food.

11           Presently, the State faces an estimated \$83,000,000 in  
12 annual costs related to food insecurity and hunger. Due to the  
13 coronavirus disease 2019 pandemic and rising inflation,  
14 households in the State are facing increasing food costs, and  
15 spending the highest percentage of their annual budgets on food  
16 in the nation.

1           The legislature further finds that Hawaii could expand  
2 access to healthy foods for low-income residents who are  
3 eligible for supplemental nutrition assistance program benefits  
4 through further utilization of the national Double Up Food Bucks  
5 Program. Currently implemented in more than twenty-five states,  
6 the Double Up Food Bucks Program provides matching federal grant  
7 funds to state programs that incentivize the use of supplemental  
8 nutrition assistance program benefits for the purchase of fresh  
9 produce. Provided by both the United States Department of  
10 Agriculture National Institute of Food and Agriculture and the  
11 United States Department of Agriculture food insecurity  
12 nutrition incentive grants program, these federal matching funds  
13 increase access to healthy dietary options while also  
14 invigorating local economies and addressing food insecurity.

15           Act 153, Session Laws of Hawaii 2019, created the Hawaii  
16 healthy food incentive program, now commonly known as the DA BUX  
17 double up food bucks program. The DA BUX double up food bucks  
18 program began with a pilot program in 2012 by Kokua Kalihi  
19 Valley Comprehensive Family Services on the island of Oahu and  
20 The Kohala Center on the island of Hawaii. The program provides  
21 a dollar-for-dollar match to supplemental nutrition assistance

1 program beneficiaries who purchase locally grown fruits,  
2 vegetables, and proteins at participating farmers' markets,  
3 grocery stores, and community-supported agriculture projects.  
4 By the end of 2021, the pilot program was available at fifty-  
5 seven food retailers across ninety-eight market sites and pick-  
6 up locations, including grocery stores, farmers' markets,  
7 community-supported agriculture programs, and other farm direct  
8 retailers.

9 DA BUX is referred to as a triple win for the State, as it  
10 provides support for local families, local farmers, and the  
11 local economy. From 2020 to 2021, DA BUX supported four hundred  
12 seventy farm producers and eight distributors. Each dollar  
13 reimbursed to participating DA BUX food retailers for their  
14 issued discounts on local produce has an economic multiplier of  
15 2.1, meaning that each program dollar issued for local produce  
16 incentives contributes \$2.10 to the State's economy. Additional  
17 funding will allow the statewide program coordinator, led by The  
18 Food Basket on the island of Hawaii, to obtain matching federal  
19 funds for continued support of the program. For example, a  
20 \$3,000,000 investment by the State in this program would allow

1 for a federal funding match that will contribute over  
2 \$12,000,000 to the local economy annually.

3 The legislature further finds that sugar-sweetened  
4 beverages are the largest source of excess sugar in the American  
5 diet, contributing excess calories with little or no nutritional  
6 value. Sugar-sweetened beverage consumption is associated with  
7 negative health effects including weight gain, obesity,  
8 prediabetes, diabetes, tooth decay and heart disease, costing  
9 the State an estimated \$470,000,000 in obesity-related health  
10 care costs annually.

11 The legislature finds that establishing a fee on the  
12 distribution and sale of sugar-sweetened beverages in the State  
13 and investing the proceeds into DA BUX would be a viable means  
14 to discourage excess consumption of sugar-sweetened beverages  
15 and increase access to affordable fresh produce, thereby  
16 contributing to the health of the people of Hawaii.

17 Accordingly, the purpose of this Act is to establish a  
18 sugar-sweetened beverages fee program to be administered by the  
19 department of agriculture that:

20 (1) Imposes a fee on the distribution and sale of sugar-  
21 sweetened beverages in the State;

1           (2) Establishes the sugar-sweetened beverages fee special  
2           fund, into which all sugar-sweetened beverages fees  
3           received by the department of agriculture shall be  
4           deposited; and

5           (3) Requires moneys in the sugar-sweetened beverages fee  
6           special fund to be expended for the Hawaii healthy  
7           food incentive program.

8           SECTION 2. Chapter 141, Hawaii Revised Statutes, is
