A BILL FOR AN ACT

RELATING TO THE DEPARTMENT OF LAND AND NATURAL RESOURCES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that Hawaii's natural
2 resources are among the State's most precious assets. These
3 resources are vital to the strength of Hawaii's environment,
4 economy, and cultural heritage. Effective conservation
5 enforcement is critical to safeguard these resources from
6 unlawful exploitation and degradation.

7 The legislature further finds that the department of land
8 and natural resources' DLNRTip application provides an important
9 mechanism for citizens to report natural resource violations
10 directly to the department of land and natural resources.
11 However, the legislature also finds that the application has
12 faced challenges due to inconsistent monitoring, which has led
13 to delayed or no responses, the loss of critical evidence, and a
14 decline in public trust. These shortcomings have hindered the
15 application's ability to function as an effective enforcement
16 tool.

1 The legislature recognizes the increasing demand for
2 citizen involvement in conservation enforcement. Given the
3 extensive scope of natural resource protection and the
4 limitations of available enforcement personnel, citizen
5 reporting is essential for bridging enforcement gaps.

6 To address these issues, this Act codifies the DLNRTip
7 application into the Hawaii Revised Statutes and provides
8 critical resources to increase the application's effectiveness.
9 This change will help to ensure that the department of land and
10 natural resources properly monitors the application and responds
11 to reports in a timely fashion. The resources provided by this
12 Act will also help to enhance the application's capabilities,
13 establish dedicated staffing, and mandate comprehensive
14 reporting to the legislature on the application's use and
15 effectiveness.

16 The legislature believes that this Act will restore public
17 confidence in the DLNRTip application and maximize the
18 application's potential as a tool to protect Hawaii's natural
19 resources.

20 Accordingly, the purpose of this Act is to:

- 1 (1) Establish the DLNRTip application as the official
2 electronic platform for persons to report natural
3 resource violations to the division of conservation
4 and resources enforcement;
- 5 (2) Establish statutory requirements regarding the design
6 and maintenance of the DLNRTip application;
- 7 (3) Require the department of land and natural resources
8 to ensure that all information submitted through the
9 DLNRTip application is continuously monitored to
10 facilitate timely enforcement responses;
- 11 (4) Require annual reports to the legislature on the use
12 and effectiveness of the DLNRTip application; and
- 13 (5) Appropriate moneys to implement and maintain the
14 DLNRTip application and to establish one full-time
15 equivalent (1.0 FTE) position to support the operation
