
A BILL FOR AN ACT

RELATING TO HEALTH INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that over two hundred
2 thousand residents live in rural areas in the State, where
3 unique challenges in health care access, affordability, and
4 outcomes are prevalent. Rural residents in the State often face
5 a higher risk of chronic health issues, including higher rates
6 of diabetes and associated complications. According to the
7 federal Centers for Disease Control and Prevention, rural
8 residents are more likely to experience premature mortality from
9 heart disease, cancer, unintentional injuries, chronic lower
10 respiratory disease, and stroke.

11 The legislature further finds that, despite these
12 obstacles, rural residents in the State play an essential role
13 in the State's economy, particularly in food and energy
14 production. However, managing diabetes within these communities
15 remains particularly challenging, with patients often facing
16 limited access to health care resources and critical diabetes
17 management tools. Approximately 108,600 adults, or 9.5 per cent

1 of the adult population in the State live with diabetes,
2 requiring strict management of blood glucose levels, medication,
3 and lifestyle choices to prevent serious complications.

4 The legislature also finds that continuous glucose monitors
5 (CGMs) offer life-changing benefits by providing real-time data
6 and trends on blood glucose levels, which surpass the limited
7 information from traditional blood glucose meters. CGMs help
8 patients avoid dangerous blood sugar fluctuations and reduce
9 long-term complications, including the need for emergency care.
10 Studies show that individuals with diabetes using CGMs
11 experience fewer hypoglycemic episodes and lower A1C levels,
12 improving overall health outcomes.

13 Given these benefits, the legislature finds that it is in
14 the State's best interest to expand access to continuous glucose
15 monitoring technology, particularly for residents in rural and
16 high-risk communities. By doing so, the State aims to reduce
17 health disparities, increase health equity, and lower overall
18 health care costs.

19 Accordingly, the purpose of this Act is to require all
20 health insurers in the State, excluding medicaid managed care

1 programs, to cover the cost of continuous glucose monitors and
2 related supplies in their policies under certain conditions.

3 SECTION 2. Section 431:10A-121, Hawaii Revised Statutes,
4 is amended to read as follows:

5 "**§431:10A-121 Coverage for diabetes.** [~~Each~~] (a) Except
6 as provided in subsection (b), each policy of accident and
7 health or sickness insurance providing coverage for health care,
8 other than an accident-only, specified disease, hospital
9 indemnity, medicare supplement, long-term care, or other limited
10 benefit health insurance policy, that is issued or renewed in
11 [~~this~~] the State, shall provide coverage for outpatient diabetes
12 self-management training, education, equipment, and supplies,
13 if:

14 (1) The equipment, supplies, training, and education are
15 medically necessary; and

16 (2) The equipment, supplies, training, and education are
17 prescribed by a health care professional authorized to
18 prescribe.

19 (b) Each individual or group accident and health or
20 sickness insurance policy issued or renewed in the State after
21 December 31, 2025, shall provide coverage for the cost of

1 continuous glucose monitors and related supplies for individuals
2 covered under the policy and diagnosed with diabetes, including
3 gestational diabetes, regardless of whether they are treated
4 with insulin; provided that:

5 (1) The continuous glucose monitors are medically
6 necessary and prescribed by a health care professional
7 authorized to prescribe the device; and

8 (2) The coverage:

9 (A) Shall include the cost of any necessary repairs
10 or replacement parts for the continuous glucose
11 monitor;

12 (B) Shall be subject to a minimum benefit of
13 \$ _____ every _____ months; and

14 (C) May be subject to copayment, deductible, and
15 coinsurance provisions of the policy, contract,
16 plan, or agreement that are no less favorable
17 than the copayment, deductible, and coinsurance
18 provisions for other medical services, equipment,
19 or supplies covered by the policy;

20 provided further that this subsection shall not apply to limited
21 benefit health insurance as provided in section 431:10A-607.

1 For the purposes of this subsection, "continuous glucose
 2 monitor" means a device designed to aid in diabetes management
 3 by continuously measuring glucose levels through a small
 4 electronic sensor applied to the skin that remains in place for
 5 a minimum of seven days, transmitting glucose data in real-time
 6 or at set intervals to monitor and maintain safe blood glucose
 7 levels."

8 SECTION 3. Section 432:1-612, Hawaii Revised Statutes, is
 9 amended to read as follows:

10 "~~§~~**432:1-612** **Diabetes coverage.** ~~[All]~~ (a) Except as
 11 provided in subsection (b), all group health care contracts
 12 under this chapter shall provide, to the extent provided under
 13 section 431:10A-121, coverage for outpatient diabetes
 14 self-management training, education, equipment, and supplies.

15 (b) Each individual or group hospital or medical service
 16 plan contract issued or renewed in the State after December 31,
 17 2025, shall provide coverage for the cost of continuous glucose
 18 monitors and related supplies to the extent provided under
 19 section 431:10A-121.

1 For the purposes of this subsection, "continuous glucose
2 monitor" has the same meaning as defined in section
3 431:10A-121."

4 SECTION 4. The benefit to be provided by health
5 maintenance organizations corresponding to the benefit provided
6 under section 431:10A-121, Hawaii Revised Statutes, as amended
7 in section 2 of this Act, as contained in section 432D-23,
8 Hawaii Revised Statutes, shall take effect for all policies,
9 contracts, plans, or agreements issued or renewed in the State
10 after December 31, 2025.

11 SECTION 5. The department of health may accept and expend
12 funds from gifts, grants, and donations from individuals,
13 private organizations, foundations, or other governmental
14 agencies to support the expansion of continuous glucose monitor
15 access; provided that no gift, grant, or donation may be
16 accepted if subject to conditions inconsistent with the laws of
17 this State.

18 SECTION 6. Section 23-51, Hawaii Revised Statutes, shall
19 not apply to this Act.

20 SECTION 7. Statutory material to be repealed is bracketed
21 and stricken. New statutory material is underscored.

1 SECTION 8. This Act shall take effect on July 1, 2050;
2 provided that sections 2, 3, and 4 shall apply to all policies,
3 contracts, plans, or agreements issued or renewed in the State
4 after December 31, 2025.

5

Report Title:

Department of Human Services; Department of Health; Health Insurance; Mandated Coverage; Diabetes; Equipment and Supplies; Continuous Glucose Monitors

Description:

Beginning 1/1/2026, requires all health insurers in the State, excluding Medicaid managed care programs, to cover the cost of continuous glucose monitors and related supplies under certain conditions. Effective 7/1/2050. (SD2)
