A BILL FOR AN ACT

RELATING TO PRESCRIPTION DRUGS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that appropriate, timely
2 pain management is an integral part of ensuring high quality,
3 patient-centered health care. As the rising danger of opiates
4 became clear, the legislature acted to put guardrails in place
5 to protect patients from the harmful effects of overprescribing,
6 long-term use, and addiction. However, the legislature
7 recognizes the need to balance these protections with the need
8 for timely patient access to appropriate pain management.
9 Therefore there is a need to remove barriers to short-term
10 opiate prescriptions while maintaining protections against
11 overprescribing and patient misuse.

12 Accordingly, the purpose of this Act is to allow a patient
13 seen in-person by another health care provider in the same
14 medical group as the prescribing physician to be prescribed an
15 opiate prescription for a three-day supply or less via
16 telehealth.

1 SECTION 2. Section 453-1.3, Hawaii Revised Statutes, is
2 amended by amending subsection (c) to read as follows:

3 "(c) Treatment recommendations made via telehealth,
4 including issuing a prescription via electronic means, shall be
5 held to the same standards of appropriate practice as those in
6 traditional physician-patient settings that do not include
7 [+]an[+] in-person visit but in which prescribing is
8 appropriate, including on-call telephone encounters and
9 encounters for which a follow-up visit is arranged. Issuing a
10 prescription based solely on an online questionnaire is not
11 treatment for the purposes of this section and does not
12 constitute an acceptable standard of care. For the purposes of
13 prescribing opiates or certifying a patient for the medical use
14 of cannabis, a physician-patient relationship shall only be
15 established after an in-person consultation between the
16 prescribing physician and the patient[-]; provided that a
17 patient seen in-person by another health care provider in the
18 same medical group as the prescribing physician may be
19 prescribed an opiate prescription for a three-day supply or less
20 via telehealth."

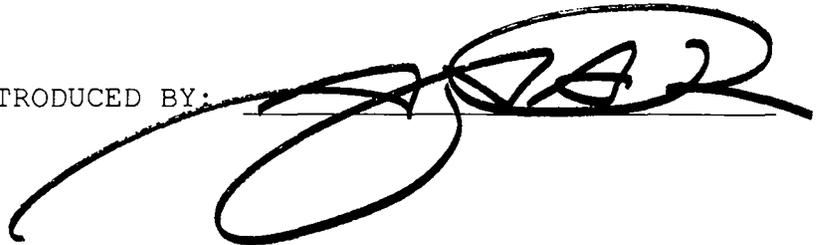

1 SECTION 3. Statutory material to be repealed is bracketed
2 and stricken. New statutory material is underscored.

3 SECTION 4. This Act shall take effect upon its approval;
4 provided that the amendments made to section 453-1.3, Hawaii
5 Revised Statutes, by section 2 of this Act shall not be repealed
6 when that section is reenacted on December 31, 2025, pursuant to
7 Act 107, Session Laws of Hawaii 2023.
