
SENATE CONCURRENT RESOLUTION

ENCOURAGING EACH COUNTY TO ESTABLISH ITS OWN BIOSECURITY PLAN
THAT PRIORITIZES THE NEEDS OF THE COUNTY.

1 WHEREAS, the impacts of invasive species in the State have
2 been severe, harmful, and costly, leading to habitat
3 degradation, extinction of native species, and rising costs in
4 agriculture and livestock production; and
5

6 WHEREAS, the State has recognized the importance of
7 biosecurity as a critical strategy to prevent the introduction
8 and spread of invasive species, which threaten local ecosystems,
9 food security, and public health; and
10

11 WHEREAS, each county faces unique biosecurity challenges
12 due to differences in climate, land use, agriculture, and
13 transportation infrastructure, necessitating localized
14 approaches to biosecurity planning and response; and
15

16 WHEREAS, strengthening biosecurity at the county level will
17 enable proactive identification of risks, enhance early
18 detection and rapid response efforts, and improve coordination
19 with state and federal agencies; and
20

21 WHEREAS, additionally, establishing county-level
22 biosecurity plans will allow each county to prioritize its
23 biosecurity needs and develop community-based strategies for
24 invasive species mitigation; now, therefore,
25

26 BE IT RESOLVED by the Senate of the Thirty-third
27 Legislature of the State of Hawaii, Regular Session of 2025, the
28 House of Representatives concurring, that each county is
29 encouraged to establish its own biosecurity plan that
30 prioritizes the needs of the county and identifies proposals for
31 legislative changes at the state and county level to promote
32 biosecurity; and

1
2 BE IT FURTHER RESOLVED that because biosecurity efforts are
3 an ongoing effort statewide, each county is encouraged to
4 collaborate with other counties and the State, including the
5 Department of Agriculture and Hawaii Invasive Species Council,
6 in developing its biosecurity plan; and
7

8 BE IT FURTHER RESOLVED that each county is encouraged to
9 share its findings and biosecurity plan with the State,
10 including the Department of Agriculture and Hawaii Invasive
11 Species Council; and
12

13 BE IT FURTHER RESOLVED that certified copies of this
14 Concurrent Resolution be transmitted to the Chairperson of the
15 Board of Agriculture, Co-Chairpersons of the Hawaii Invasive
16 Species Council, and Mayor and Council Chair of each county.
