# SENATE CONCURRENT RESOLUTION

URGING THE CONGRESS OF THE UNITED STATES TO ENACT A NATIONAL  
REINSURANCE PROGRAM TO ADDRESS THE MULTI-STATE INSURANCE  
CRISIS RESULTING FROM CATASTROPHIC NATURAL DISASTERS.

1           WHEREAS, the frequency and severity of catastrophic natural  
2 disasters, including hurricanes, wildfires, floods, and  
3 earthquakes, have increased due to climate change, causing  
4 billions of dollars in insured losses and creating instability  
5 in state insurance markets across the United States; and  
6

7           WHEREAS, major private insurers and reinsurers have begun  
8 withdrawing from high-risk areas, leading to a significant  
9 reduction in available coverage, and skyrocketing premiums; and  
10

11           WHEREAS, the withdrawal of private insurers in high-risk  
12 areas has resulted in an insurance crisis affecting homeowners,  
13 businesses, and agricultural producers, many of whom struggle to  
14 secure adequate coverage at reasonable rates; and  
15

16           WHEREAS, some states have attempted to resolve the  
17 insurance crisis by establishing not-for-profit insurers of last  
18 resort, such as California's FAIR Plan, Florida's Citizens  
19 Property Insurance Corporation, and the State's Hawaii Property  
20 Insurance Association consisting of persons authorized to  
21 transact property and casualty insurance in the State; and  
22

23           WHEREAS, unfortunately, these state-established insurers of  
24 last resort now often bear a disproportionate share of  
25 catastrophic risk in the market and face solvency issues as the  
26 licensed private insurers that are required to help fund them  
27 flee their respective states; and  
28

29           WHEREAS, legislative measures recently introduced in the  
30 United States Congress, including the Disaster Resiliency and  
31 Coverage Act of 2025, H.R. 1105, 119th Cong. (2025), and the

1 Emergency Conservation Program Improvement Act of 2025, S. 629,  
2 119th Cong. (2025), aim to enhance natural disaster resilience  
3 and accelerate recovery efforts, but do not address the  
4 fundamental insurance crisis that requires a long-term  
5 reinsurance solution; and  
6

7 WHEREAS, the National Disaster Risk Reinsurance Program Act  
8 of 2023, H.R. 3525, 118th Cong. (2023), sought to establish a  
9 federal reinsurance program to provide stability in  
10 disaster-prone areas by offering an additional layer of risk  
11 protection for insurers, but was not enacted; and  
12

13 WHEREAS, a similar federal reinsurance program for natural  
14 disasters could increase insurance availability, reduce premium  
15 volatility, and protect state-instituted insurance funds by  
16 covering only the most extreme catastrophic losses; and  
17

18 WHEREAS, a national reinsurance program could be structured  
19 to operate at defined loss thresholds, ensuring that private  
20 insurers and reinsurers continue to bear primary responsibility  
21 while the federal government intervenes only in cases of severe  
22 financial strain; and  
23

24 WHEREAS, the national reinsurance program could also  
25 operate on an opt-in basis for states, allowing state insurance  
26 regulators the flexibility to decide whether participation would  
27 benefit their respective markets; and  
28

29 WHEREAS, establishing a national reinsurance program to  
30 stabilize insurance markets nationwide will promote economic  
31 security, homeownership sustainability, and disaster  
32 preparedness while reducing the need for post-disaster federal  
33 aid; now, therefore,  
34

35 BE IT RESOLVED by the Senate of the Thirty-third  
36 Legislature of the State of Hawaii, Regular Session of 2025, the  
37 House of Representatives concurring, that the Congress of the  
38 United States is urged to establish a National Reinsurance  
39 Program to address the multi-state insurance crisis resulting  
40 from catastrophic natural disasters by serving as a financial  
41 backstop for catastrophic natural disasters and ensuring

1 insurance market stability and consumer affordability across  
2 multiple states; and

3  
4 BE IT FURTHER RESOLVED that the National Reinsurance  
5 Program is requested to be structured as a public-private  
6 partnership that includes:

7  
8 (1) Actuarial soundness;

9  
10 (2) State opt-in mechanisms; and

11  
12 (3) Clearly defined loss thresholds to protect taxpayers  
13 while ensuring continued private market participation;  
14 and

15  
16 BE IT FURTHER RESOLVED that the Congress of the United  
17 States is urged to provide mitigation incentives, including  
18 premium discounts, tax credits, and grant programs, to encourage  
19 homeowners and businesses to invest in disaster-resistant  
20 infrastructure, thereby reducing insurance costs and federal  
21 disaster relief expenditures in the long-term; and

22  
23 BE IT FURTHER RESOLVED that the President of the United  
24 States and the Secretary of the Treasury, in consultation with  
25 the Federal Insurance Office and the Federal Emergency  
26 Management Agency, are encouraged to develop interim measures to  
27 stabilize insurance markets, including expanding access to  
28 federal risk modeling and offering financial incentives for  
29 insurers reentering high-risk markets; and

30  
31 BE IT FURTHER RESOLVED that certified copies of this  
32 Concurrent Resolution be transmitted to the President of the  
33 United States, Speaker of the United States House of  
34 Representatives, President Pro Tempore of the United States  
35 Senate, Secretary of the Treasury, Administrator of the Federal  
36 Emergency Management Agency, Director of the Federal Insurance  
37 Office, and Governor and Insurance Commissioner of each state.
