SENATE RESOLUTION

REQUESTING THE ATTORNEY GENERAL TO PRODUCE AND PROVIDE A LIST OF
STATE LANDS CURRENTLY LEASED TO THE UNITED STATES OF
AMERICA OR ANY FEDERAL AGENCY.

1 WHEREAS, article XI, section 1 of the Hawaii State
2 Constitution provides that "the State and its political
3 subdivisions shall conserve and protect Hawaii's natural beauty
4 and all natural resources . . . and shall promote the
5 development and utilization of these resources in a manner
6 consistent with their conservation and in furtherance of the
7 self-sufficiency of the State"; and

8
9 WHEREAS, the State currently leases tens of thousands of
10 acres of state land to the federal government, including various
11 sites which have been leased to the United States military for
12 the past sixty years at the price of one dollar; and

13
14 WHEREAS, the military has proven to be an unreliable
15 steward of the State's land and waters, as demonstrated by the
16 Red Hill water contamination crisis on O'ahu, the indiscriminate
17 bombing of Kaho'olawe and subsequent incomplete cleanup of
18 unexploded ordinance, and many other incidents; and

19
20 WHEREAS, the United States Army itself has acknowledged
21 that "continued loss of 'āina represents a disproportionate and a
22 long term, significant, adverse impact on communities with
23 environmental justice concerns"; and

24
25 WHEREAS, the Trump administration has taken actions that
26 further endanger the State's natural resources, including by
27 asserting that national parks and public lands are assets on
28 "the nation's balance sheet," by indicating that public lands
29 may be sold off to raise money for a new "sovereign wealth
30 fund," and by issuing an executive order calling for the
31 "immediate expansion" of timber production on federal lands; and

32
33 WHEREAS, these policies have had an immediate negative
34 effect on precious state lands and resources, including by
35 eliminating funding for critical environmental and agricultural

1 programs across the State, and by eliminating staff and
2 caretakers at federally-owned properties within the State; and
3

4 WHEREAS, these policies are poised to do further harm to
5 the State, including as a result of the Secretary of the
6 Interior's order requiring federal agencies to assess the
7 feasibility of fracking, drilling, and mining across all public
8 lands and waters, such as Papahānaumokuākea Marine National
9 Monument; and
10

11 WHEREAS, the federal government has thus demonstrated a
12 clear unwillingness or inability to responsibly steward state
13 lands entrusted to it as a lessee; and
14

15 WHEREAS, the current administration's actions and stated
16 intentions represent a clear and present danger to the
17 conservation and protection of the State's natural beauty and
18 natural resources; now, therefore,
19

20 BE IT RESOLVED by the Senate of the Thirty-third
21 Legislature of the State of Hawaii, Regular Session of 2025,
22 that the Attorney General is requested to produce and provide a
23 list of state lands currently leased to the United States of
24 America or any federal agency; and
25

26 BE IT FURTHER RESOLVED that the Attorney General is
27 requested to review all current leases of state land to the
28 federal government and to recommend to the Legislature and the
29 state lessor whether the renewal of the lease would or would not
30 be in the public interest and consistent with the Hawaii State
31 Constitution and any applicable state law; and
32

33 BE IT FURTHER RESOLVED that any lessor of state land to the
34 federal government is requested to furnish information to the
35 Attorney General as necessary to assist with the tasks requested
36 by this Concurrent Resolution; and
37
