## SENATE RESOLUTION

SUPPORTING THE REACTIVATION OF, AND URGING THE GOVERNOR TO APPOINT MEMBERS TO, THE HAWAII HEALTH AUTHORITY TO PLAN FOR A TRANSITION TO A MAXIMALLY COST-EFFECTIVE SINGLE-PAYER HEALTH CARE SYSTEM FOR THE STATE, TO BE IMPLEMENTED AS SOON AS POSSIBLE AFTER WAIVERS HAVE BEEN OBTAINED TO CAPTURE ALL MAJOR SOURCES OF FEDERAL FUNDING FLOWING TO THE STATE THROUGH MEDICARE, MEDICAID, AND TRICARE.

1           WHEREAS, the Trump administration and the Republican  
2 majority in the United States Congress are threatening deep cuts  
3 to federal Medicaid funding; and

4  
5           WHEREAS, Hawaii may soon be in urgent need for a more cost-  
6 effective health care financing system if cuts to Medicaid are  
7 implemented; and

8  
9           WHEREAS, a Hawaii single-payer health care financing system  
10 could achieve large savings from reduced administrative costs  
11 without cuts to care delivery by doctors and hospitals; and

12  
13           WHEREAS, global budgets based on the cost of operations  
14 could eliminate about fifteen percent of total hospital budgets  
15 that would otherwise be apportioned for billing and collection  
16 costs; and

17  
18           WHEREAS, independent doctors paid with simplified,  
19 standardized fee-for-service based on time and required training  
20 for a given procedure, rather than assigning a relative value to  
21 each of thousands of procedure codes, could markedly reduce  
22 billing and collections costs that now consume around fifteen  
23 percent of physician practice revenue; and

24  
25           WHEREAS, similar savings in the fifteen percent range could  
26 be achieved from reduced administrative cost for a Hawaii  
27 single-payer administrator; and

28

1           WHEREAS, some of these savings could be used to fund  
2 community-based programs for high-risk and special needs  
3 patients and specialist consultations to primary care to save  
4 the cost of preventable emergency room visits and  
5 hospitalizations; and  
6

7           WHEREAS, some of these savings could be used to improve  
8 take-home pay for primary care specialties and psychiatry so  
9 that doctors in under-paid specialties could afford Hawaii's  
10 high cost of living, reversing the State's severe physician  
11 shortage; and  
12

13           WHEREAS, health care costs for Medicaid and state and  
14 county employee and retiree benefits now consume around thirty  
15 percent of the total state budget; and  
16

17           WHEREAS, all the above administrative cost savings could  
18 add up to a reduction in Hawaii health care costs in the range  
19 of thirty percent or more, reducing the total state budget by  
20 around nine percent; and  
21

22           WHEREAS, the Hawaii Health Authority is already established  
23 in state law with a mission of planning for a universal health  
24 care system covering all residents of the State, but the  
25 Authority is currently inactive; now, therefore,  
26

27           BE IT RESOLVED by the Senate of the Thirty-third  
28 Legislature of the State of Hawaii, Regular Session of 2025,  
29 that this body supports the reactivation of, and the Governor is  
30 urged to appoint members to, the Hawaii Health Authority to plan  
31 for a transition to a maximally cost-effective single-payer  
32 health care system for the State, to be implemented as soon as  
33 possible after waivers have been obtained to capture all major  
34 sources of federal funding flowing to the State through  
35 Medicare, Medicaid, and Tricare; and  
36

37           BE IT FURTHER RESOLVED that the Hawaii Health Authority is  
38 requested to submit a report of its progress and  
39 recommendations, including any proposed legislation, to the  
40 Legislature no later than twenty days prior to the convening of  
41 the Regular Session of 2026; and  
42

S.R. NO. 109

1 BE IT FURTHER RESOLVED that certified copies of this  
2 Resolution be transmitted to the Governor, Director of Finance,  
3 and Director of Human Services.
